Authority
One Gateway Plaza
3rd Floor Board Room
Los Angeles, CA

Agenda Number: 23

CONSTRUCTION COMMITTEE MARCH 17, 2016

SUBJECT: UNIVERSAL CITY PEDESTRIAN BRIDGE

ACTION: AUTHORIZATION FOR LIFE OF PROJECT BUDGET AND CONTRACT

MODIFICATION AUTHORITY

## RECOMMENDATION

File #: 2016-0134, File Type: Contract

#### APPROVE:

- A. INCREASING the Life of Project Budget (LOP) Budget for **Metro Red Line Universal City Pedestrian Bridge** (CP 809382) by \$2,285,000 from \$27,300,000 to \$29,585,000;
- B. INCREASING the Contract Modification Authority (CMA) for Contract C1043 with Griffith Company in the amount of \$577,000 from \$2,542,000 to \$3,119,000; and
- C. AMENDING the FY16 Budget by \$4,406,000 from \$9,732,000 to \$14,138,000 as shown in Attachment D.

### **ISSUE**

Design/Build Contract No. C1043 was awarded to Griffith Company in the amount of \$21,425,000 on November 14, 2013. The original schedule for completion of the project was January 9, 2016. As of this report, the project is approximately 85% complete and is scheduled to open for revenue service on or before April 6, 2016.

The approved LOP budget was based on the 30% complete design prepared during the Project Development phase of the project. Project staff have been working diligently to complete the project within the approved budget; however, the LOP as established prior to Contract notice-to-proceed (NTP) has been determined to be inadequate given the complexity of the project.

During the course of construction there were numerous unanticipated design issues and differing site conditions which resulted in significant impact to the project budget and scheduled completion date. Additionally, construction management and staff oversight has increased in cost due to the above issues, including multiple shifts, weekend work, and a significantly mitigated construction schedule. This mitigated schedule has been deemed necessary as it is a more cost-effective approach to

project completion and also ensures substantial completion of the bridge construction prior to the opening of NBC Universal's 'Harry Potter' attraction, which opens to the public on April 7, 2016.

This increase addresses all current and future direct and indirect cost impacts, and will provide sufficient funding and CMA to cover the increased costs through completion of the project.

## DISCUSSION

During the course of construction, there were several unanticipated design changes that occurred for technical or unforeseen reasons. For example, the project power transformer location shown in the preliminary engineering (PE) drawings had to be changed to a new location, due to an insufficient Los Angeles Department of Water and Power (LADWP) power voltage Point of Connection. The new location required new design development cost and increased construction costs to install the transformer and transport the power to the desired location.

The design of the bridge foundations is another example of significant changes to the PE design. The PE design provided for spread footings, a design chosen due to the significant increase in costs that would be associated with providing a Cast In Drilled Hole (CIDH) piling support system. The spread footing design was based upon geotechnical information obtained during the construction of the Metro Red Line Universal Station, a report which did not contain timely information or any data for the foundation system that was located on Universal property. After award of the contract, the Contractor performed a geotechnical survey of the project site and determined that the liquefaction layer, a geotechnical feature which determines the foundation system for the bridge, was located at a depth that eliminated the possibility of spread footings and in fact dictated the need for a CIDH piling system.

Additionally, several structural connections for the major supports of the bridge were determined to be inadequate to meet the requirements of the American Association of State Highway and Transportation Officials (AASHTO) manual. The structural connections required a new design which resulted in a significant amount of rework and increased fabrication costs.

The project also experienced several differing site conditions such as contaminated soil, unmarked underground utilities and appurtenances, and existing structures not identified on as built drawings.

Because of these unanticipated conditions, as well as a provision for a global claim settlement on various time impact requests and design discrepancies, the construction cost is expected to increase by \$977,000 above what was originally budgeted.

Staff has also experienced additional overhead costs, including \$166,625 for Third Party reviews and field services, \$99,500 for environmental services necessary for noise, hazardous waste, and archeological finding purposes, \$605,716 for Agency labor necessary for increased submittal reviews and related design support services needed to support the accelerated schedule, and \$176,000 for other professional services such as DEOD consultants and Legal support. Further, to ensure that Metro provides a complete project safely and to the high standards of Metro quality within an aggressive and mitigated completion schedule, staff has increased construction management

File #: 2016-0134, File Type: Contract

Agenda Number: 23

oversight by \$254,000.

## **DETERMINATION OF SAFETY IMPACT**

This Board action will not have an impact on established safety standards.

#### FINANCIAL IMPACT

If all actions are approved, the LOP budget will be increased by \$2,285,000. The increase will be distributed to affected project line items with a majority of the increase added to Cost Center 8510 (Construction Contracts/Procurement) Project 809382 (Metro Red Line Universal City Pedestrian Bridge). The project will require a \$4,406,000 amendment to the FY16 budget and \$2,436,000 in FY17 for contract closeout. Since this is a multi-year project, the Project Manager, Cost Center manager, and Executive Director, Program Management, will be responsible for budgeting the cost in future fiscal years.

#### Impact to Budget

If recommendation A is approved, the \$2,285,000 LOP increase will be funded using Proposition A 35%. If recommendation C is approved, FY16 budget will be increased by \$4,406,000 from \$9,732,000 to \$14,138,000 as funded per Attachment D also using Prop A 35% funds. Project 809382 was originally approved using a combination of Prop A 35% funds and a \$3.9 million contribution from NBC Universal. Prop A 35% funds are eligible for rail operations and capital.

#### **ALTERNATIVES CONSIDERED**

The Board may choose to not authorize the increases to the LOP Budget, CMA or FY16 amendment for this project. This alternative is not recommended because rejection of the LOP budget and CMA increase would prohibit staff from completing this much-needed Pedestrian Bridge while the project is under construction and to make payment to the contractor against the approved contract modifications.

### **NEXT STEPS**

Upon Board approval, Metro's project team will continue the Universal City Pedestrian Bridge project to substantial completion and diligently work with the contractor to resolve current and potential changes within the revised LOP budget. The construction is scheduled to be substantially complete on April 6, 2016.

# A. Contract Action Summary

This Board action is to approve an increase in Contract Modification Authority (CMA) and Life of Project budget.

The pending contract modifications will be processed in accordance with Metro's Acquisition Policy and the contract type is a Firm Fixed Price performing design and construction work of a new pedestrian bridge, hardscape plazas and landscaping, and a right turn lane.

History of the original procurement and post award activity:

The Board authorized the Chief Executive Officer to solicit and award a Design-Build (D/B) contract for the Universal City Pedestrian Bridge on July 26, 2012, per Settlement Agreement and Pedestrian Crossing Agreement dated July 10, 2012, between Universal NBC and LACMTA.

The Life of Project Budget was approved for increase by the Board of Directors on October 24, 2013, in the amount of \$27,300,000. Metro Chief Executive Officer approved recommendation of award to Griffith Company, a General Contractor located in Brea, California, on October 28, 2013. Griffith Company was determined to be the lowest price technically qualified responsive responsible bidder and was awarded the D/B Contract on November 14, 2013. Griffith Company's price of \$21,425,000 was determined to be fair and reasonable, based on adequate price competition. The CMA of \$2,142,500 was established per Metro policy and procedures at ten percent of the Contract Price.

Notice to Proceed was issued to Griffith Company on January 9. 2014, with a Period of Performance of 730 Calendar Days.

On December 3, 2015, Metro Board approved additional CMA of \$400,000, increasing the total CMA to \$2,542,500. The current contract completion date is February 21, 2016 (773 Calendar Days from NTP). Excusable and compensable delay will extend the current completion date to April 7, 2016.

Refer to Attachment B for modifications issued to date to add/delete work, and the proposed modification currently pending authorization.

## B. Cost/Price Analysis

The recommended pricing for the pending changes will be determined to be fair and reasonable based upon an independent cost estimate, cost analysis, technical evaluation, fact finding, and negotiations, in accordance with Metro policy and procedures.

See list of pending changes in Attachment B.

<sup>\*</sup>Credit value totaling \$50,045 is not included in the CMA request.

#### **DEOD SUMMARY**

# UNIVERSAL CITY PEDESTRIAN BRIDGE CONTRACT NO. C1043

## A. Small Business Participation

Griffith Company made a 10% Small Business Enterprise (SBE) commitment for this solicitation. The project is 85% complete. Current SBE participation is 7.48%, a shortfall of 2.52%. The shortfall is a result of Griffith proposing a non-compliant SBE escalator subcontractor, Excelsior Elevator, which represented 8.37% of their commitment. Metro's Project Manager confirmed that the escalator services were removed, because Excelsior did not meet all the specifications required by Metro.

On February 12, 2016, Griffith Company confirmed that they increased their SBE participation by approximately \$330,000, which was not enough to account for the percentage of work removed from Excelsior. To date, Griffith Company has added four SBE subcontractors to perform surveying, noise and vibration monitoring, construction career coordination, and community services, amounting to a 0.91% increase in their SBE participation. Griffith Company projects that their SBE participation will be approximately 7.2% at project completion.

| Small Business |         | Small Business       |           |
|----------------|---------|----------------------|-----------|
| Commitment     | 10% SBE | <b>Participation</b> | 7.48% SBE |
|                |         |                      |           |

|    | SBE Subcontractors            | % Commitment | Current<br>Participation <sup>1</sup> |
|----|-------------------------------|--------------|---------------------------------------|
| 1. | Excelsior Elevator            | 8.37%        | 4.41%                                 |
| 2. | Intueor Consulting            | 0.83%        | 1.20%                                 |

| 4. | Precision Engineering         | Added        | 0.25%                                 |
| 5. | RT Engineering                | Added        | 0.17%                                 |
| 6. | Langford & Carmichael         | Added        | 0.10%                                 |
| 7. | Morgner Technology Management | Added        | 0.39%                                 |
|    | Total                         | 10.00%       | 7.48%                                 |

<sup>&</sup>lt;sup>1</sup>Current Participation = Total Actual Amount Paid-to-Date to SBE firms ÷Total Actual Amount Paid-to-date to Prime.

## B. Project Labor Agreement / Construction Careers Policy (PLA/CCP)

The Contractor has committed to complying with PLA/CCP requirements for this project. The contractor is not achieving the 40% Targeted Worker Goal at 35.64%, is achieving the 20% Apprentice Worker Goal at 30.05% and is achieving the Disadvantaged Worker Goal at 13.63%. Staff will continue to monitor and report the contractor's progress toward meeting the goals of the PLA/CCP.

No. 1.0.10 Revised 01-29-15

# C. Prevailing Wage Applicability

Prevailing Wage requirements are applicable to this project. DEOD will continue to monitor contractors' compliance with the State of California Department of Industrial Relations (DIR), California Labor Code, and, if federally funded, the U S Department of Labor (DOL) Davis Bacon and Related Acts (DBRA).

## D. Living Wage Service Contract Worker Retention Policy Applicability

The Living Wage and Service Contract Worker Retention Policy is not applicable to this contract/ modification.
