**OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE
APRIL 15, 2021**

**SUBJECT: STATUS OF MOTION 10.1: FY21 OPERATIONS RECOVERY PLAN & MOTION 27.1
UPDATE (APRIL 2021)**

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE status report on the April 2021 response to Motion 10.1: FY21 Operations Recovery Plan and on Motion 27.1 Revenue Service Hour Parameters for FY21 & FY22.

ISSUE

On September 24, 2020, the Metro Board of Directors (Board) approved Motion 10.1: FY21 Operations Recovery Plan (Attachment A) directing staff to:

- A. Report back to the Operations, Safety, and Customer Experience Committee in 60 days, with updates every 60 days thereafter, with an FY21 Operations Recovery Plan that achieves the following outcomes:
 1. Aligns bus lines with their respective NextGen service tier standards.
 2. Does not exceed maximum load factors on buses and trains based on industry accepted health and safety standards.
 3. Sets criteria for adding service in anticipation of future on-street conditions related to economic sector and/or school re-openings and the return of traffic congestion and effect on bus speeds.
 4. Takes full advantage of operational savings from faster bus speeds to achieve performance-based service outcomes.
 5. Restores revenue service hours as appropriate to achieve all of the above outcomes.
- B. Report back to the Finance, Budget, and Audit Committee in 60 days with an amendment to the FY21 Budget, if necessary, to implement the above FY21 Operations Recovery Plan.

Similarly, at the February 2021, regular board meeting, Metro was directed to amend the current

timeline to accelerate the implementation of 6.5 million Revenue Service Hours by June 2021 and 7 million by September 2021.

This report addresses Items 1-5 in Section A above and the directive in Motion 27.1.

BACKGROUND

In September 2020, the Board approved the FY21 Annual Budget which included 5.6M annual Revenue Service Hours (RSH) for Metro bus operations. Motion 10.1: FY21 Operations Recovery Plan was approved as part of the budget deliberations to direct staff to monitor service performance and determine criteria for increasing service to levels envisioned by NextGen while balancing vehicle loads, financial constraints, public health directives, and service quality.

DISCUSSION

The following provides the status update for each item listed in the motion:

1. Aligns bus lines with their respective NextGen service tier standards -

No Change. Attachment B lists all bus lines by service tier for the December 2020 shake-up, as well as the NextGen Transit First full buildout scenario frequencies.

2. Do not exceed maximum load factors on buses and trains based on industry accepted health and safety standards

No Change. Service continues to be scheduled to maintain a max. load standard of 75% of seated capacity during any 20 min. time slice during peak periods and 60 min. time slices during off peak period.

3. Set criteria for adding service in anticipation of future on-street conditions related to economic sector and/or school reopenings and the return of traffic congestion and effect on bus speeds

Percent of Trips Exceeding Maximum Load Standard

Maximum loads on all Metro bus trips continue to be monitored weekly. The percent of trips on average each week exceeding the 75% of seated load standard for the month of March 2021 is as follows:

- Weekdays: average 1.3% or 142 trips (range 1.2% to 1.5%) so on average meets the target
- Saturdays: average 4.4% or 293 trips (range 3.7% to 4.9%)
- Sundays: average 2.1% or 136 trips (range 1.5% to 2.5%)

For the December 13, 2020 service changes, additional trips were added throughout the week to address trips with consistent heavy loads. Given the significant number of cancelled assignments

in January and February 2021 due to operator shortage, additional trips were not able to be added to accommodate weekend loads. However, the Operations return-to-work strike force successfully cleared a significant number of backlogged cases and now all COVID leave pending cases are up to date. As such, canceled work hours for bus have decreased by about 85% from roughly 2,000 during the first week of January 2021 to about 250 during the first week of March 2021 (see Figure 1). With cancelled service stabilized at the pre-COVID level, additional trips will be added to high demand lines on weekdays, Saturdays and Sundays starting April 12 to accommodate heavier loads.

Figure 1
Cancelled Work Hours (Weekdays)

The next scheduled service change will be June 2021 which will continue implementation of the NextGen bus plan including a significant amount of network changes and reallocating underutilized services to high ridership lines. Per Motion 27.1: FY22 Service Restoration, an additional 880K annualized RSH will also be added to the current 5.62 million annualized RSH bringing the base service levels beginning in FY22 to 6.5 million annual RSH.

Loads will continue to be monitored on a weekly basis and further adjustments can be made if needed through interim schedule adjustments.

Ridership Potential and Public Health Directives

During January and February 2021 average weekday bus ridership remained stable at 50% below pre-COVID levels, with Saturdays between 43% down and Sundays from 36%. Ridership is anticipated to grow slightly during FY21Q4 given the declining number of new COVID cases and

more aggressive vaccination roll out. Figure 2 shows bus and rail ridership trends through the COVID pandemic to date.

Figure 2
Systemwide Average Weekday Ridership

Projecting ridership through FY22 is difficult given the many unknowns regarding post-COVID travel behavior and economic recovery. Transit ridership recovery will be dependent on several factors, most notably:

- Schools Back in Session** - Prior to COVID, student/college/university ridership accounted for about 12% of daily bus boardings. We know some school districts have begun to open for in-person teaching including LAUSD which is targeted to open during the week of April 19, 2021. Assuming schools are back in session in Fall 2021, ridership would be expected to increase by about 6% in FY22Q2 and 12% in FY22Q3.
- Continued Telecommuting** - Based on the COVID ridership survey conducted by the Customer Experience department in May/June 2020, roughly 25% of pre-COVID bus riders are currently telecommuting either full time or part time. About 5% of the 25% telecommuting do not expect to be able to telecommute after the pandemic while about 10% expect to be able to at least part time, and the remaining 10% do not know. Assuming the first 5% and about one third of the remaining 20% return, we would expect to see a gradual increase of up to about 12% in ridership from current telecommuters returning to full time or part time commuting on transit likely by the end of FY22Q3 when all vaccinations should be completed.
- NextGen Implementation** - The NextGen service plan is scheduled to be fully implemented by December 2021 with some implementation already completed in December 2020 and a second phase to be implemented in June 2021. This plan is

expected to result in a 5% ridership increase over pre-COVID levels once the system matures in about one year, with incremental growth each quarter starting in FY21Q4. With the full buildout of NextGen speed and reliability infrastructure, ridership is anticipated to increase by an additional 10%. However, the infrastructure will not be completed for an additional four to five years. Therefore, ridership would be expected to grow by 3% by the end of FY22 and an additional 10% by FY25-26.

- Economic Recovery - The Safer at Home orders took effect on March 20, 2020. As a result, bus ridership declined by about 70% in April 2020. Restrictions began lifting in May 2020, and by October 2020, ridership recovered about 20%. Unfortunately, with the increases in COVID cases due to the winter holidays, ridership declined in December 2020 and January 2021 with new restrictions, but has since recovered slightly as of February 2021. Currently, bus ridership is at about 50% of pre-COVID levels. Assuming a similar rebound as the previous reopening, anticipated economic recovery through FY22 could yield a gradual increase in ridership totaling about 20% likely by the end of FY22Q4, about one to three quarters after full vaccination is expected to be completed. This gradual increase recognizes that some businesses will be able to immediately fully reopen while others will take longer to reopen or need to phase their reopening. This pattern is consistent with the gradual recovery of ridership seen during the second half of calendar year 2020 after the spring and summer 2020 peaks in COVID cases.

Based on this analysis, bus ridership is projected to return to about 97% pre-COVID levels by the end of FY22 (see Figure 3).

Figure 3
Projected Bus Ridership Growth in FY22

Ridership will continue to be monitored on a weekly and monthly basis to determine when where service should be added.

Resource Availability

Financial

The Board adopted Motion 11.1 in January 2021 that reallocated \$24.3M in the FY21 mid-year budget adjustment for the restoration of transit service and directed staff to immediately begin preparing to restore service no later than end of FY21 to increase the agency’s capacity to run 7.0 million annual bus RSH. As stated above, additional trips will be added to high demand lines starting April 12 to address capacity constraints on weekdays, Saturdays and Sundays.

The budget planning assumptions for service levels in FY22, as presented to the Board in February 2021, outlines a plan to restore bus service levels, including:

- June 2021 - Increase from 5.62 million current annualized RSH to 6.5 million;
- September 2021 - Increase to 7.0 million annualized RSH;

Staffing and Accelerated Bus Operator Hiring Activities

Implementing the FY22 service level increases is highly dependent on the availability of operators. Operations has accelerated bus operator graduates from about 25-30 per month in February and March 2021 to 100 per month in April 2021 and continue with this monthly enhanced hiring plan until enough operators are onboarded to support the final adopted FY22 RSH plan. Operations will continue to work closely with Human Capital & Development to return as many existing operators out on leaves as soon as possible. It should be noted that through April 5, 2021, Metro has received 905 applications in the hiring pipeline with interviews scheduled and 5-week cohort classes that began January, February, two in March, with 2 more classes set

to begin in April. Classes are scheduled for May through the summer in support of onboarding as many operators as possible. Future additional class space and logistical matters are currently being addressed in a manner that is safe and adheres to all COVID-19 guidelines.

Metro' accelerated bus operator hiring plan includes, but is not limited to the following:

- ✓ Updated Bus Operator Video Content & Flyer
- ✓ External Bus Operator Job Landing Page
- ✓ Internal/External Messaging (Agency Ad, SharePoint, COVID Brief, CEO's Every Voice Counts, LinkedIn, Metro's The Source, Metro Project Account Distribution Lists, Education Partners/Colleges, Veterans Program, Local Government/Community Relations and Community Based Organizations, State of California Employment Development Department America's Job Centers, WIN-LA, Faith Leadership Council, and SMART)
- ✓ Social Media Buy - Launched enhanced social media efforts to ensure competitiveness and awareness for bus operator hiring
- ✓ ESPN Radio Ad
- ✓ Board of Director (BOD) Media Tool Kit - Created to serve as a resource for sharing our bus operator hiring initiative across BOD communication platforms
 - Recruitment Dashboard - Easily track/report recruitment activities allowing for adjustments to hiring activities/tactics as necessary

Performance

Boardings per RSH for March 2021 are trending around 26, short of the 30 boardings per RSH. Should ridership increase through the remainder of FY21 with mass vaccinations and gradual reopening of the economy, the performance of this indicator would expect to improve.

4. Takes full advantage of operational savings from faster bus speeds to achieve performance -based service outcomes

The NextGen Speed and Reliability team continue to make progress towards implementing bus lanes, improving Transit Signal Priority (TSP) and other enhancements to the bus network. Since January 2021, the team is has been working on implementation of a bus lane on Alvarado Street, Grand and Olive Streets in downtown Los Angeles, improving signal priority on Metro G Line (Orange), and continuing to work with LADOT to identify future bus lane corridors and expanding TSP to more buses along non-TSP Tier 1 corridors under the NextGen Bus Plan.

Systemwide speeds based on the June 27, 2021 service change should be available in the May 2021 update of this report.

5. Restore revenue service hours as appropriate to achieve all the above outcomes

The FY22 service restoration plan as described has been developed based on the criteria established in item #3 above and is consistent with Motion 11.1 related to FY2021 (FY21) Mid-Year Budget.

FINANCIAL IMPACT

Implementation of Metro's final FY22 bus service restoration plan will be adopted as part of the FY22 annual budget.

Impact to Budget

There is no impact to the approved Metro FY21 budget and allocated funding sources. The planned changes are made within the revenue service hours budgeted.

DETERMINATION OF SAFETY IMPACT

This report does not have a negative effect on the safety of our customers or employees.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Recommendation supports strategic plan goal #1: Provide high quality mobility options that enable people to spend less time traveling. The service changes also respond to the sub-goal of investing in a world class bus system that is reliable, convenient, safe, and attractive to more users for more trips.

NEXT STEPS

The next scheduled status report on Motion 10.1 will be in May 2021. Metro will continue to accelerate all bus operator hiring activities in support of our updated FY21-FY22 revenue service hour parameters/recover plan.

Agenda Number: 10.1.

REGULAR BOARD MEETING SEPTEMBER 24, 2020

Motion by:

DIRECTORS BONIN, GARCETTI, SOLIS, GARCIA, AND KUEHL

Related to Item 10: Fiscal Year 2021 (FY21) Budget

The COVID-19 Crisis has created incredible strain on Metro's operations and finances. An unprecedented drop in sales tax and other revenue has caused a \$1.2 billion decrease in Metro's budget from FY20 to FY21, with additional volatility likely throughout FY21 and beyond. At the same time, COVID-19 health and safety measures and labor agreements have increased operational costs per hour of service. Despite an infusion of federal funding from the CARES Act, Metro still faces an uncertain operations budget that will require continuous updates throughout the fiscal year.

The proposed FY21 budget is an accurate reflection of today's greatly diminished transit service levels. However, maintaining current service levels for the remainder of the fiscal year is not acceptable for riders nor is it consistent with the agency's strategic priorities, including NextGen. At a time when COVID-19 has exposed all of the region's underlying inequities, Metro must plan for and facilitate an equitable recovery that prioritizes the mobility needs of our county's most vulnerable populations, who disproportionately rely on bus service.

Metro should prepare an FY21 Operations Recovery Plan that outlines a clear decision-making framework for restoring service and identifies the financial and human resources needed at each stage of recovery. This Plan should clearly articulate how NextGen parameters are being applied to interim service decisions, in addition to public health and customer experience considerations. Most importantly, this Plan should commit to achieving NextGen's performance outcomes (revenue miles, number of high-frequency lines, number of people with access to frequent service), even if pre-COVID revenue service hours may not be necessary to achieve them.

SUBJECT: FY21 OPERATIONS RECOVERY PLAN

RECOMMENDATION

APPROVE Motion by Directors Bonin, Garcetti, Solis, Garcia, and Kuehl that the Board direct the Chief Executive Officer to:

- A. Report back to the Operations, Safety, and Customer Experience Committee in 60 days, with updates every 60 days thereafter, with an FY21 Operations Recovery Plan that achieves the following outcomes:
1. Aligns bus lines with their respective NextGen service tier standards.
 2. Does not exceed maximum load factors on buses and trains based on industry-accepted health and safety standards.
 3. Sets criteria for adding service in anticipation of future on-street conditions related to economic sector and/or school reopenings and the return of traffic congestion and effect on bus speeds.
 4. Takes full advantage of operational savings from faster bus speeds to achieve performance-based service outcomes.
 5. Restores revenue service hours as appropriate to achieve all of the above outcomes.
- B. Report back to the Finance, Budget, and Audit Committee in 60 days with an amendment to the FY21 Budget, if necessary, to implement the above FY21 Operations Recovery Plan.

Board Report

File #: 2021-0083, **File Type:** Motion / Motion Response

Agenda Number: 27.1.

**REGULAR BOARD MEETING
FEBRUARY 25, 2021**

Motion by:

DIRECTOR GARCETTI

Related to Item 27: FY22 Revenue Service Hour (RSH) Program Parameters and Motion 11.1 FY21 Service Increase Motion Update

**SUBJECT: AMENDMENT TO FY22 REVENUE SERVICE HOUR (RSH) PROGRAM
PARAMETERS AND MOTION 11.1 FY21 SERVICE INCREASE MOTION UPDATE**

RECOMMENDATION

APPROVE Motion by Director Garcetti that the Board direct the Chief Executive Officer to:

Amend the current timeline to accelerate the implementation of 6.5 million Revenue Service Hours by June 2021 and 7 million by September 2021.

ITEM 26

Motion 10.1 & 27.1 Update FY21 Operations Recovery Plan

Passenger Loads

	Target	Status
Passenger Load	<ul style="list-style-type: none">98% of weekly trips should not exceed an average of 75% of seated capacity.	<ul style="list-style-type: none">Weekdays: average 1.3% or 142 trips (range 1.2% to 1.5%) so on average meets the targetSaturdays: average 4.4% or 293 trips (range 3.7% to 4.9%)Sundays: average 2.1% or 136 trips (range 1.5% to 2.5%)

An extra 47 weekday, 86 Saturday, and 48 Sunday trips are planned to be added to high demand lines starting April 12 to accommodate heavier passenger loads.

Cancelled Work Hours

FY22 Ridership Projection

Accelerated Bus Operator Hiring Plan

Bus Operator accelerated hiring activities commenced in February 2021 and are ongoing in full support of a graduation target rate of 100 bus operators per month beginning April 2021

As of Monday, April 12, 2021, about 966 applications in the hiring pipeline, with interviews going on now. Two classes were started in March 2021 and 2 more are set to begin in April and throughout the summer in support of reaching our goal.

Class space and logistical matters are currently being addressed in a manner that is safe and adheres to COVID-19 guidelines

Fully supports the updated FY21-FY22 revenue service hour parameters:

- 6.5 M RSH by June 2021
- 7.0 M RSH by September 2021

Bus Operator Hiring Communications Efforts

External Bus Operator Job Landing Page, Flyer & Hiring Video– Updated and available

Internal/External Messaging - Agency Ad, SharePoint, COVID Brief, CEO's Every Voice Counts, LinkedIn, Metro's The Source, Metro Project Account Distribution Lists, Education Partners/Colleges, Veterans Program, Local Government/Community Relations and Community Based Organizations, State of California Employment Development Department America's Job Centers, WIN-LA, Faith Leadership Council, and SMART

Social Media Buy – Launched social media targeted efforts, including Facebook, Indeed, ESPN radio ad, and partnering with the LA Kings for advertisement on their website

Board of Director (BOD) Media Tool Kit – Created as a resource for sharing our bus operator hiring initiative across BOD communication platforms and with constituents

Recruitment Dashboard –Easily track recruitment activities and adjust hiring activities/tactics as necessary

Now Hiring 800 Bus Operators!

lacmta.sharepoint.com

Metro is Hiring! We need your help to get the word out. Operators are at the core of Metro service and keep Los Angeles Moving. As we ramp up service across Los Angeles County, Metro is hiring nearly 800 Bus Operators. Know someone who wants to join...
