

Board Report

File #: 2024-0238, **File Type:** Informational Report

Agenda Number: 18.

**CONSTRUCTION COMMITTEE
MAY 16, 2024**

SUBJECT: PROJECT LABOR AGREEMENT/CONSTRUCTION CAREERS POLICY (PLA/CCP)

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE status update on the Project Labor Agreement and Construction Careers Policy programs through the quarter ending December 2023.

ISSUE

In January 2012, the Board approved the Project Labor Agreement (PLA) with the Los Angeles/Orange Counties Building and Construction Trades Council and the Construction Careers Policy (CCP), with a subsequent renewal in January 2017. The PLA/CCP encourages construction employment and training opportunities for members of economically disadvantaged areas throughout the United States on Metro's construction projects. An added value of the PLA is that work stoppages are prohibited.

In addition, Metro's PLA/CCP provides equitable opportunities for the historically underserved population, including women, with high-wage career opportunities in the construction industry.

BACKGROUND

Consistent with the Board approved PLA and CCP (PLA/CCP), prime contractors are required to provide Metro with monthly reports detailing progress towards meeting the targeted worker hiring goals. Additionally, consistent with Metro's Labor Compliance policy and federal Executive Order 11246 (EO 11246), the prime contractors provide Metro with worker utilization data by ethnicity and gender. In accordance with EO 11246, Metro's program-wide goal for female participation in PLA/CCP construction projects is 6.90%.

DISCUSSION

Metro's PLA/CCP provides training and employment opportunities in the construction industry to individuals residing in economically disadvantaged areas and disadvantaged workers. Since Metro's PLA/CCP inception and up to this reporting period, over \$559 million in wages have been paid to individuals residing in economically disadvantaged areas, and over \$104 million in wages paid to disadvantaged workers.

This report provides a status update on the construction contracts covered by the PLA/CCP, including an overview of the Diversity and Economic Opportunity Department (DEOD) staff's efforts on female participation. This report provides an update on the PLA/CCP through the quarter ending December 2023 (Attachment A).

PLA/CCP Status Update

As of December 2023, there are 15 active construction contracts with PLA/CCP program requirements, including ten contracts subject to the Local Hire Initiative (from economically disadvantaged areas of LA County). Thirteen contractors exceeded the 40% Targeted Worker Goal (from economically disadvantaged areas), 11 exceeded the 20% Apprentice Worker Goal, and 10 exceeded the 10% Disadvantaged Worker Goal. Thirty-two completed construction contracts were subject to the PLA/CCP since inception of the program in 2012.

Overall (aggregate), PLA/CCP program-wide attainment of the three workforce goals has been met and exceeded due to a collaborative effort between Metro, the Building Trade Unions, and contractors.

The following tables represent the active construction projects as of the December 2023 quarterly reporting period.

Projects Subject to National Targeted Worker (from economically disadvantaged areas of the US)

Project Name	Prime Contractor	Project Completion Percent	Targeted Worker Goal (40%)	Apprentice Worker Goal (20%)	Disadvantaged Worker Goal (10%)	Female Utilization Goal (6.9%) & Grade	Percentage of Disadvantaged Worker Participation that are in the Criminal Justice System (*)
Regional Connector Transit Corridor	Regional Connectors, JV	99.70%	62.90%	19.97%	10.73%	4.05% = C	72.96%
Westside Subway Extension Project, Sec 1	Skanska-Taylor-Shea, JV	94.27%	63.54%	20.08%	11.86%	3.94% = C	82.73%
Purple Line Ext. Sec. 3 – Stations Project	Tutor Perini/O&G, JV	30.30%	60.96%	13.19%	10.43%	3.54% = C	77.66%
Rail to Rail Active Transportation Corridor	Griffith Company	71.27%	63.40%	20.53%	9.83%	6.97% = A	29.36%
Rosecrans/Marquardt Grand Separation Project	Flatiron	75.89%	57.82%	21.09%	9.36%	2.04% = D	98.20%

Please refer to Attachment A (PLA/CCP Brochure) for additional information on each project.

Project Completion Percent is based on estimated work hours as provided by the Prime.

Projects Subject to Local Hire Initiative (from economically disadvantaged areas of Los Angeles County)

Project Name	Prime Contractor	Project Completion Percent	Local Worker Goal (40%)	Apprentice Worker Goal (20%)	Disadvantaged Worker Goal (10%)	Female Utilization Goal (6.9%) & Grade	Percentage of Disadvantaged Worker Participation that are in the Criminal Justice System (*)
Westside PLE Project, Section 2 – D/B	Tutor Perini/O&G, JV	63.80%	42.77%	17.01%	8.91%	2.69% = D	55.04%

Airport Metro Connector Transit Station	Tutor Perini Corp.	75.31%	49.77%	20.08%	10.25%	3.86% = C	58.47%
Division 20 TPSS (PWT 2)	C3M Power Systems	86.04%	30.32%	28.92%	24.65%	0.68% = F	70.74%
CLAX Construction Punch Out Work	Griffith Company	71.37%	41.81%	20.17%	9.91%	3.68% = D	85.63%
Harbor Gateway Transit Center Electric Charging Station	Pro-Cal Lighting, Inc.	80.24%	67.46%	32.65%	10.07%	4.51% = C	55.21%
ESFV Adv. Utility Adjustment/DWP	W.A. Rasic Company	47.91%	33.32%	20.47%	11.89%	0.05% = F	61.52%

Please refer to Attachment A (PLA/CCP Brochure) for additional information on each project.

Project Completion Percent is based on estimated work hours as provided by the Prime.

*Part of Metro’s PLA/CCP workforce requirement is the utilization of disadvantaged workers on projects. One of the nine criteria for a Disadvantaged Worker is having a criminal record or other involvement with the criminal justice system. The data shown in the tables above (last column) is the percentage of Disadvantaged Workers (based on hours worked) that have criminal records or involvement with the criminal justice system and that have worked or are actively working on Metro’s PLA/CCP projects.

Local Hire Update

On April 4, 2024, the Federal Office of Management Budget (OMB) removed the federal prohibition on using geographic hiring preference popularly known as “Local Hire” through the release of the

2024 Revisions of their Uniform Guidance document under Code of Federal Regulations (CFR) Part 200.

Henceforth, Metro’s PLA and CCP Local Hire efforts will be permanent on federal and state-funded construction projects that have a minimum contract value of \$2.5 million. Provided below is a list of anticipated construction projects wherein PLA/CCP local hire will be applicable.

1-105 Expressway (CM/GC)	Div and Facilities Fire Alarm Replacement
G-Line Progressive Design-Build	Div 8 & CMF Bus Hoist Replacement
LA Union Station and Esplanade Improv	Crenshaw/LAX K-Line Paving
1-605 South Street Off Ramp Improvements	Rail Operation Control Chillers
EB SR91 Atlantic to Cherry Improvements	Division 9 Charging Infrastructure

As of April 2024

Female Workers on Active Construction Projects

In November 2017, the Board approved a motion to encourage contractors on Metro construction projects to increase the participation of women by meeting or exceeding the nationwide female participation goal of 6.9% as set forth by Executive Order 11246. The motion directed the creation of a report card/score card system reflecting the attainment of the female participation goals for Metro Project Labor Agreement/Construction Careers Policy contractors that was established to encourage contractors to exceed the 6.9% female participation goal.

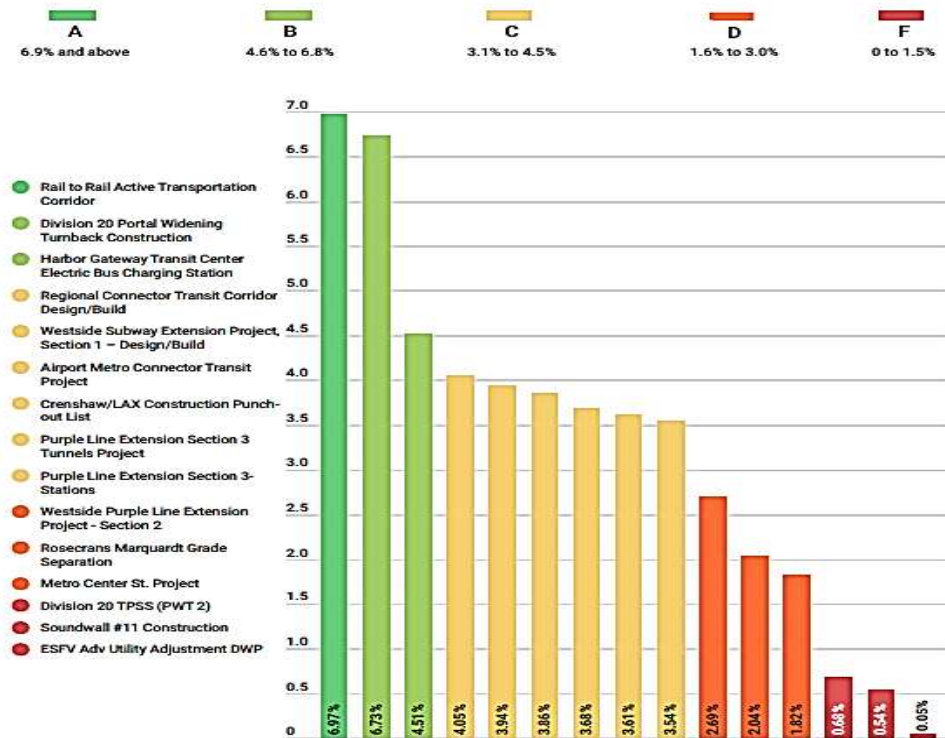

Below is the Female Participation Score Card as of December 2023.

FEMALE PARTICIPATION SCORE CARD

In November 2017, Metro's Board of Directors authorized the creation of a score card system to highlight prime contractors attainment of Executive Order 11246 Female Participation goal of 6.9% on Metro construction projects.

Quarterly Report - December 2023

The average female participation on Metro construction projects is currently 3.78% of total work hours, as compared to less than 2.0% on other non-Metro public works construction projects in the Southern California region. The national average for women in construction is below 3.0%.

Below is a chart of the number of females within the last four years on construction projects.

Number of females on Metro projects

by the prime contractors. This table counts each individual tradeswomen only once (no double counting), even if an individual worked on multiple projects.

The number of female workers on Metro projects decreased from 2022 to 2023 due to the completion of the Crenshaw/LAX Transit Corridor and Regional Connector Transit Corridor projects.

Staff are currently working with the unions and jobs coordinators to refer female workers who have completed their previous work assignments to other active Metro construction projects.

Staff understands the importance of increasing the percentage of female workers on Metro’s projects for both equity and workforce availability reasons and, as described below, are actively taking measures to increase female participation and opportunities.

Women Breaking Ground Website

On March 1, 2024, in celebration of Women’s History Month, LA Metro’s Joint Awareness Campaign launched a brand-new website, “Women Breaking Ground” (www.womenbreakground.com <<http://www.womenbreakground.com/>>). LA Metro’s “Women Breaking Ground” website gives women, who are interested in a career in construction, an avenue for learning about how to join an apprenticeship readiness training program and how to get connected to resources. The website includes testimonials of women who have worked in the trades and gives an overview of their experience. The website is also a tool for women that are already in the trades to get connected to the unions, contractors, and more resources to be placed on a construction job.

The website was highlighted on Univision news telecast on March 11, 2024, and Telemundo/NBC4 news telecast on March 19, 2024.

The Women Breaking Ground website will run through FY2026 in partnership with the LA/OC Building Construction Trades Council.

In addition, individuals who have signed up through the website receive a response within 48 hours by the Council staff with the best course of action in starting a career in construction. Individuals who are ready to work are then referred to active Jobs Coordinators by Metro for possible indentureship and employment on Metro construction projects. There were over 50 individual sign ups through the end of March 2024 that were given information on pre-apprenticeship training.

Activities to Increase Construction Workforce Capacity

As reflected in the most recent Construction Market Analysis (CMA) report, the construction industry is faced with a workforce labor shortage which is a regional issue (see figure below). Metro understands this is a regional concern that needs to be addressed collaboratively with the building trade unions, key-stakeholders and the community.

Metro has met with the Executive Secretary (Mr. Ernesto Medrano) of the LA/OC Building and Construction Trades Council (LA/OCBCTC) and discussed the labor workforce shortage as reported in the Construction Market Analysis. Mr. Medrano will address the Construction Committee on May 16, 2024, to provide the LA/OCBCTC outlook on the workforce shortage as identified in the CMA report.

Source: Construction Market Analysis report

Metro continues to advance strategies to support, the outreach, recruitment, and retention of all workers in the disadvantaged workforce categories. These strategies, led by the PLA/CCP staff, are proactive measures that address the regional needs for additional workers.

Listed below are strategies implemented by Metro to increase the overall workforce capacity, with a specific focus on increasing female participation on Metro's construction projects and the construction industry.

- Female Participation Score Card - Staff continues to grade each contractor's performance quarterly by using a score card that reflects percentages of worked hours performed by

females hired by Metro's contractors to encourage meeting the 6.9% goal.

- Periodic Jobs Coordinator meetings - Staff conduct periodic meetings with job coordinators to discuss best practices and identify outreach and recruitment opportunities.
- Transition Coordination - Staff continues to assist female workers transitioning to other active or upcoming Metro projects as projects near the end of construction.
- Notice to Prime Contractors - Staff continues to issue notices to prime contractors not meeting the female participation goal at 25%, 50%, and 75% project completion.
- Women in the Trades Resource Guide (Attachment B) - Staff has developed a comprehensive guide to recruit, employ, and retain women in construction careers, to assist prime contractors in recruiting female workers.
- Collaboration with Unions - Staff has established a collaboration with the Laborers Union and Southwest Regional Council of Carpenters to directly refer female workers to the apprenticeship programs. Upon completion, participants are referred to Metro's contractors for employment opportunities.
- Outreach - Staff continue to outreach to community-based organizations, pre-apprenticeship schools, and building trades to promote career opportunities and to increase female recruitment in the construction industry (Attachment C). As of this reporting period, staff participated in four job fairs which resulted in twenty individuals referred to job coordinators for pre-apprenticeship programs.
- Partnerships with the Los Angeles/Orange County Building and Construction Trades Council (LAOCBTC), and its Executive Secretary to focus on increasing the workforce in the construction industry, including prioritizing and dispatching of female workers on Metro construction projects.
 - Metro is in collaboration with LAOCBTC, union trades, prime contractors, and community-based organizations to build future workforce capacity with a special focus on females has embarked on a Joint Awareness Campaign in promoting career opportunities in the construction industry.

In addition, the following are strategies under development to support workforce needs and to increase female participation on Metro's projects:

- Metro and Laborers Union (Local 300) are collaborating to establish a tunnel worker training facility in the LA region. Currently, the only training facility for tunnel workers is in Seattle, Washington, which creates a hardship for local individuals to participate. Establishing a local tunnel worker training facility will help fulfill the LA region's need for tunnel workers, with priority given to females interested in starting as tunnel/miner workers. As of this reporting

period, the following efforts have been made.

- Laborers Training School has completed classroom safety training classes as a pre-requisite course prior to the actual hands-on tunnel training. Approximately 25 individuals have completed the classroom courses including 5 female participants. Laborers Union are continually recruiting female union members to participate in this specialized training.
- Metro is providing partial financial support for FY2024 for the tunnel worker training, purchase of PPE equipment and cost for the hands-on training for the participants. The hands-on training portion of the class will continue to be conducted in Seattle, Washington, until the Laborers Union and Laborers Training School secure a local working site to accommodate the hands-on portion of the tunnel training.
- Support the Women Build Metro LA (WBMLA) events. The WBMLA events are geared to introduce the construction career path for women throughout Los Angeles County. Staff has invited and encouraged Metro's prime contractors to participate and recruit females interested in starting a career in construction.
- Collaborate with Women in Non-Traditional Employment Roles (WINTER) to seek grant opportunities to help empower, train, educate, and prepare women for transformative careers in the construction industry. In addition, Metro shall provide continuous employment referrals to female graduates of WINTER on Metro project sites.
- Metro DEOD conducted outreach to high schools in the Los Angeles region to promote careers in the construction industry and will continue to expand engagement with high schools to draw interest in the trades and create pipeline of opportunities. In addition, the SEED school is also exposing students to a range of careers which includes the infrastructure sector.
- Continue to collaborate with the LA County Department of Economic Opportunity (DEO) and City of Los Angeles Economic Workforce Development Department (EWDD) in recruiting individuals interested in starting a career in construction and establishment of an ongoing referral system of individuals to pre-apprenticeship programs available through the LA County DEO network of services.
- Metro is in discussion with the Los Angeles Economic Workforce Development Department (EWDD) and the LAOCBCTC Apprentice Readiness Fund in establishing a regional collaboration in terms of recruitment and establishment of more pre-apprenticeship programs.

Furthermore, staff will continue to provide ongoing assessment of the female participation score card, monitoring of contractor's performance, and recognition of contractors that successfully meet or exceed the 6.9% goal or demonstrate highly commendable efforts in the recruitment, retention, and/or professional development of women on Metro's construction projects.

Metro will also continue to collaborate with the LA/OC Building Construction Trades Council and its

union affiliates to assist in the recruitment efforts of workers.

Status Update on Board Motion 29

At the February 2023 meeting, the Board approved Motion 29 (Attachment D) by Directors Horvath, Mitchell, Bass, Hahn, and Dupont-Walker that directed the Chief Executive Officer to:

- A.) Commission a refresh on the construction workforce disparity study and report back on findings and recommendations of the study in September 2023 (with the understanding that the disparity study might still be in progress).
- B.) Report back on the potential application of cultural competency requirements in contractor and staff training related to working with historically underutilized populations in the trades, with a focus on tradeswomen, as well as similar qualitative metrics that can be used in Metro's proposal evaluation and contracting processes; and
- C.) Report back on the feasibility of creating bid preference incentives that can be applied to increase the number of women working on Metro funded construction projects, while not compromising the Agency's race conscious contracting goals, including but not limited to: the history of a contractor's compliance with Metro's Female Utilization Goal; supporting working parents with the availability of dependent care spending account benefits in addition to access to child care; and working with organizations such as Women In Non-Traditional Employment Roles (WINTER) to apply best practices in future contracts, etc.

Metro has contracted with Estolano Advisors, a third-party consultant, to perform the Regional Construction Industry Workforce Disparity Study. The contract was awarded in March 2024, with a period of performance of 7.5 months, with a study report to be completed by November 2024. Staff shall report back to the Board the results, findings, and any recommendations of the study in January 2025.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Metro's Project Labor Agreement/Construction Careers Policy (PLA/CCP) supports strategic plan goal #3 to enhance communities and lives through mobility and access to opportunity.

EQUITY PLATFORM

Metro's Project Labor Agreement and Construction Careers Policy continue to create employment opportunities for marginalized and vulnerable community members in the construction industry for workers with historical barriers to employment. In addition, through Executive Order (EO) 11246, Metro strives to diversify the workforce on construction projects to improve access to career opportunities and serve as a catalyst for improving the socio-economic status of minorities and women.

As of this reporting period, all active PLA/CCP construction projects have exceeded the minority

participation goal of 28.30%. There are hundreds of disadvantaged workers that have benefitted in obtaining a meaningful career through Metro's PLA/CCP program which resulted in over \$104 million in paid wages to disadvantaged workers.

Metro has continued ongoing efforts undertaken by staff to increase female participation, including outreach to women in construction to obtain insight and best practices for contractors and female workers in the construction industry (details in Attachment B). In addition, Metro helps the Construction Building Trades unions to increase their female membership by encouraging contractors to hire/sponsor females into the construction trades. Staff attributes these strategies to contribute to an average female participation rate in Metro construction projects (3.78%) that is higher than historical participation rates in other non-Metro public works construction projects in the region (less than 2%) and the national average for women in construction (less than 3%). Additionally, staff monitors each project female attainment on a monthly basis and provides assistance to contractors to continually increase female participation.

NEXT STEPS

Staff shall report back to the Board on the Workforce Disparity Study the results, findings, and appropriate staff recommendations in January 2025.

DEOD staff will continue to monitor the contractors' efforts and initiate the various strategies and activities as outlined in this report. Staff will continue to monitor and deliver best practices, initiatives, and outreach efforts to promote awareness, engagement, and participation in construction career opportunities.

Metro's Project Labor Agreement and Construction Careers Policy

December 2023

Metro[®]

Overview

In January 2012, the Metro Board approved the Project Labor Agreement (PLA) with the Los Angeles/Orange Counties Building and Construction Trades Council and the Construction Careers Policy (CCP). The primary benefit of the PLA is that it encourages construction employment and training opportunities in economically disadvantaged areas throughout the United States on federally-assisted contracts. Another benefit is that it prohibits work stoppages.

The PLA goals are:

- > **40% participation of construction workers residing in economically disadvantaged areas**
- > **20% apprentice participation**
- > **10% participation of disadvantaged workers (meeting two of nine disadvantaged criteria)**

Consistent with the Board-approved PLA/CCP, prime contractors are required to provide monthly reports detailing progress towards meeting the targeted worker hiring goals. Additionally, per Metro's Labor Compliance policy and Federal Executive Order 11246, prime contractors provide Metro with worker utilization data by ethnicity and gender. (See page 6).

Economically Disadvantaged – Area where the median household income is less than \$40K per year.

Disadvantaged – Economically disadvantaged; also satisfying at least two of the following nine categories: 1) homeless, 2) single custodial parent, 3) receiving public assistance, 4) lacking GED or high school diploma, 5) criminal record or history with criminal justice system, 6) chronically unemployed, 7) emancipated from foster care, 8) veteran from Iraq or Afghanistan war, or 9) apprentice with less than 15% hours needed to graduate to journeyworker. Criminal justice system percentages are a subset of the 10% Disadvantaged hours category.

Fast Facts on Metro's Project Labor Agreement

- > Metro is the **first** transit agency in the nation to adopt a PLA that includes a targeted hiring emphasis on apprentices, low income and previously excluded members of society into the trades.
- > The U.S. Secretary of Labor visited Metro and the Crenshaw/LAX Transit Corridor Project in August 2014 and highlighted the PLA/CCP as a success and national model.
- > **No** work stoppages or lockouts have occurred since the start of the program.

Female Participation in Construction

Through its Project Labor Agreement and Construction Careers Policy, Metro is striving to diversify the workforce on construction projects to improve access to career opportunities and serve as a catalyst for improving socio-economic status for minorities and women. Although the national average for women in the construction trades is below 3%, Metro's goal is to exceed the Executive Order 11246 female utilization goal of 6.9%. Metro's current female participation average is 3.78%.

In November 2017, Metro's board passed a motion authorizing the agency to create and publish a score card system that reflects percentages of women hired by Metro contractors; develop an incentive program to encourage contractors to exceed the national goal; and require contractors to demonstrate how they are promoting a diverse and inclusive work environment.

Women Build Metro LA (WBMLA)

Women Build Metro LA is a culmination of community advocates, stake holders and decision makers, including private and public sectors. Together we are committed to increasing the ranks of qualified women candidates for apprenticeship and placement with all Trades. With our partners and stake holders, including our Woman Build Metro LA Committee, we are passionate about increasing female participation, given that women currently make up less than 3% of the construction trade workforce. We are proud to educate and support women in construction under Metro's Project Labor Agreement and Construction Careers Policy.

Female Participation Score Card

DECEMBER 2023

The Metro Board voted to create a score card system to highlight those contractors who meet and exceed the Executive Order 11246 female participation goal of 6.9% on Metro construction projects.

Metro is building the workforce of

Metro's PLA/CCP facilitates new training and apprenticeship opportunities. These programs also help those who reside in economically disadvantaged communities. Here's a look at just a few of the workers who have found success.

Frances Macias Aguilar

Frances Macias Aguilar is a mother of eight who has a passion for the construction trades. As a member of Laborers Local 300, Frances is certified in lane closures and works on the team that handles traffic control for the Regional Connector Transit Corridor Project in the heavily congested streets of downtown Los Angeles. Frances' job is to close street lanes to traffic throughout the various active construction sites in the city. Francis says joining the laborers has changed her life dramatically, she looks forward to moving up the ladder and bringing more females into this male-dominated field.

Anna Aguirre

Anna Aguirre was born and raised in Downey, CA. She attended Downey High School and worked toward her higher education degree at Rio Hondo College in the field of Merchandising and Marketing. She continued to work in the retail industry for the next 10 years, until she decided to change her career path. Following this decision she attended an outreach event for women in the trades, where she was able to meet staff from Laborers Local 1309. Anna was so fascinated by the opportunities in trades, that she quit her job in retail and started to seek sponsorship opportunities into the Local 1309. With the sponsorship of the Local 1309 she was dispatched to The Griffith Company as a General Laborer, working on the Rail-to-Rail project. For the past two years, she has been working hard on this project and has rose to the level of a 3rd period apprentice. Besides being a General Laborer at The Griffith Company, Anna is a proud mother of one son, age 6. She credits the Local 1309 and Griffith Company for being able to provide a quality life for herself and her son.

Patricia Allen

As a child, Patricia was determined to be different and reject the gender roles that were expected of her. After making some mistakes within the justice system, Patricia decided that she needed to make a positive change in her life. Fourteen years ago, Patricia found the change she was looking for when a friend suggested that she look into a career in construction and encouraged her to register for the Laborers Union Bootcamp, and that's just what she did. While in training, Patricia earned the respect of her female peers and motivated them to push themselves as she had, to overcome the fear of entering a male dominated field and constantly reminded them to work hard because, "You are only as good as your training." Throughout her career in construction, Patricia has been able to provide a comfortable life for herself and her son. Patricia also has the distinction of being the only female miner on the Westside Purple Line Extension Project and hopes that her work will inspire other women to follow in her footsteps.

tomorrow.

opportunities for workers across the region.
disadvantaged areas to find jobs and training opportunities on Metro projects.
workers working on PLA and Measure R projects:

Sophia Burruel

Sophia Burruel was born and raised in San Pedro, CA, and is a dedicated single mother of four, with two sons and two daughters. Sophia's career began working in the medical field at Torrance Memorial, and then moved on to working at a refinery. After giving birth to her fourth child, Sophia realized that she needed a new career path to support her family. Introduced to the building trades by her siblings, she joined Local Union 1309 in 2016, and is now a Journeyman working on Metro's Eastside Access Improvement Project in the Crenshaw District of South Los Angeles. Sophia shared that she has enjoyed working with her sisters and brothers in the Union, while creating a special bond with those around her. More importantly, the working in construction has allowed her to earn a more desirable wage, learn new skills, and provide a good life for her family.

Natalie Cervantes

Natalie Cervantes is a 29-year-old Electrical Inside Wireman who represents Local Union IBEW 11. Natalie has been working on the Purple Line Extension 1 project for the past year and a half. Prior to her career in construction, Natalie was self-employed and struggling to make ends meet. She decided that she wanted to go into the construction industry to have a more stable, well-paying job. Compared to her old career path, she finds that a career in construction is more fulfilling, since she can learn something new every day to keep the job interesting. The need for Natalie to find another career path was also necessary to support her family, since she is a single mother of 4. A career in construction provided her with great benefit that she can take advantage of. There are better working hours, which has allowed her to finish work and still have time to take care of her kids. With better pay, she has been able to consistently provide for her family and make ends meet.

Katherine Cruz

Katherine Cruz wanted a career that didn't keep her behind the desk. She wanted to be challenged, so she "traded in her high heels for steel toed boots". Starting off her construction career as a single mother of four, Katherine joined the Local 300 Laborer's Union and began to work on the Purple Line Extension 1 project as an Apprentice. She then worked her way up to Journeyman to help construct the Regional Connector project. Throughout Katherine's career she has been honored by local, state, and federal officials as she has been groundbreaking in her own right as one of the few women who first began working on these Mega projects. With her determination she was hired as the first female Instructor for Local 300's Laborer's Training School. Today, Katherine is not just a role model to her peers and students, but also to her daughter, Genesis who followed in her footsteps and joined Local 300 Laborer's Union.

Guy Denuccio

Guy is a 1st Period Laborers Apprentice on Metro's Purple Line Extension, Section 1 project. A native of Southern California, Guy enjoys baseball and was a standout athlete in his youth. Before working for Skanska on PLE Section 1, Guy made some regrettable decisions and was incarcerated for nine years. While incarcerated, he vowed to never repeat the same mistakes and promised himself he would get out and begin a life and career his family would be proud of. After being paroled, Guy enrolled in an MC3 training program. After completion, he was given the opportunity to begin working right away. Guy thinks back to his time in the criminal justice system and says, "I'm never going back; this opportunity has given me a chance to change my life and I am proud to be part of building the future of Los Angeles."

Catherine Dillon

Catherine Ann Dillon was born in Lancaster, CA, and was educated through the Saddleback Academy homeschool program. After high school, she worked at a Scout Camp for young adults. While working at the camp, Catherine watched her father welding, and she showed interest. He began to teach her basic welds. From that point, Catherine decided to reach out to Ironworkers Local 433 and register with their Union. Shortly after registering with Local 433, Catherine contacted Skanska, and seeing her potential, they sponsored her into the union. Catherine is now an Eighth Period Apprentice and loves being a part of the team working on Metro's Westside Purple Line Extension Project.

Jenna Dorrrough

In 2017, Jenna Dorrrough graduated from Women in Non-Traditional Employment Roles' (WINTER) pre-apprenticeship training program as a Carpenter. Since then, Jenna has become certified in OSHA 30, CPR and HAZPOWER training and recounts her story on how she became interested in the building trades. Originally a security guard on a construction project, she was inspired by women on the job site, considering construction is traditionally a male-dominated field. Currently, Jenna is working on Metro's Regional Connector project as a Carpenter where she works every day to gain as much knowledge as possible and ultimately achieve her goal of becoming a crane operator and welder. With her success, Jenna was honored by WINTER this past November 2018 as the Female Craft Worker of the Year.

Darius Douglass

Darius Douglass, a 37-year-old Compton, CA native, began his career in construction after serving in the United States Airforce for 3 years and retiring in rank as an Airman First Class. Through his friends, Darius was introduced to the Helmets to Hardhats Construction Apprentice Readiness Training Program. Due to his training, he was convinced that a career in the building trades would be interesting and exciting, while allowing him to support himself and his family. Five years ago, Darius entered the Pipefitters Local 250 and in 2022, he began to work on Metro's SEED LA School construction project. He shares his love for his work by stating that he built friendships and lifelong connections within his field.

Jermaine Edwards

Jermaine Edwards was born and raised in Southeast Los Angeles. After time in prison, he decided he wanted to turn his life around and begin a career in construction, and he found an opportunity to work as a Skill Craft Laborer on the Crenshaw/LAX Transit project. Jermaine remains humble about his current success, and even mentors some of his fellow coworkers who have recently transitioned from the prison system into the workplace.

Eric Falcon

After spending 15 years of incarceration, Eric Falcon vowed to never return to prison. Eric wanted a better life for himself and his family, which led him to attend a pre-apprenticeship training sponsored by Southwest Carpenters Training through the “My Brother’s Keeper” program. Upon completion of the program, Eric was hired as a Carpenter (Local 409) on the Westside Purple Line Subway Extension Project, Section 1. A husband and father of three, Eric grew up in the South Los Angeles area, where he continues to reside and raise his family. Eric is grateful for the opportunity that Westside Purple Line team has provided him.

Jessica Flores

Born in East Los Angeles, Jessica attended Eagle Rock High School. Later, Jessica obtained her Welding certificate from Pasadena City College. While working at the Broad Art Museum, Jessica observed the construction work taking place across the street at Metro’s Regional Connector project site. Through this interest, Jessica made the courageous decision to begin a career in construction. Jessica registered and completed the Laborers Union Bootcamp construction training program. Upon completion of her rigorous training, she immediately applied for work at the Regional Connector project and was hired by Skanska. Proudly, Jessica is now a Sixth Period Apprentice and loves her new career.

Yurvina Hernandez

Before becoming a Laborer Apprentice, Yurvina Hernandez had never considered going into the field, even though her family owns a construction business and she grew up around the industry. Yurvina’s sister-in-law encouraged her to join a construction training program along with her, and Yurvina quickly discovered that she enjoyed the job. She went on to graduate from the boot camp and joined her union, Local 300. Now, Yurvina is a Level 4 Apprentice on the Purple Line Extension Section 3 Tunnels project. Working at the ground level, she inspects segments of the massive tunnel boring machines, and guides crane operators as they lower equipment into the tail track exit shaft, which is the staging area that leads into the underground tunnels. Yurvina would tell anyone considering a career in construction, especially women, “Never be afraid to try something new.” After all, that’s exactly what she did.

Christina Lara

Christina Lara comes from a construction family; both of her parents retired from Laborers Local 300. Prior to this project, Christina installed industrial water pipelines in Pasadena. In the beginning of 2022, Christina followed in her parents' footsteps and became a Journeyman for Local 300. Shortly afterwards, Christina began to work on her first tunnels project, Metro's Purple Line Extension 3. At this project Christina has learned a lot from her colleagues and was recently promoted to a Miner position, which is an opportunity that few women have. In her position, Christina spends the entirety of her shift working underground as a bottom lander, where it is her responsibility to support the ongoing work in the tunnels by coordinating equipment going back and forth to the surface. So, while her work can be exhausting, it is also rewarding. "At the end of the day, you feel like you've had a purpose" she explains, "You've been successful in achieving something."

Dezdon Lewis

Dezdon Lewis was recently awarded the prestigious "Participant of the Year" award from Playa Vista Jobs (PV Jobs) and a Certificate of Recognition from Congresswoman Lucille Roybal-Allard. After being incarcerated for a number of years, Dezdon knew it was time to make a change and teamed up with PV Jobs, who helped him get a job placement within the building trades on Metro's Crenshaw/LAX Transit Corridor project. For Dezdon, what began as an entry-level ditch digging position has transitioned into a role of leadership and responsibility, where he is now an Inspector in Charge of Segment Eight Health, Safety and Environment on the project. Dezdon recounts his journey from his time in the criminal justice system to his new leadership role, and actively encourages former inmates to "look above" their situations, create life goals and stick to them.

Belia Lopez

Belia has always taken a nontraditional approach to life. Since her youth, she has always enjoyed working with her hands and was always fascinated with figuring out how things work. After working in autobody shops for over five years, Belia decided it was time to make a change. The construction industry seemed like a natural transition and she enrolled in an MC3 training program. Belia is currently a 1st Period Apprentice with IBEW Local 11 and is working as an electrician on Metro's Purple Line Extension, Section 1 project. Belia states that she has enjoyed every aspect of the challenges she has faced in the construction industry and looks forward to continuing her personal growth and development in the trades.

John Mackey

John Mackey works on the Regional Connector project in downtown Los Angeles. Although he struggled with finding a job, he says his new position changed his life dramatically and has allowed him to successfully save money, and he plans to start his own business. Due to this job, he is no longer living at the LA Mission on Skid Row and has moved to a transitional living home. John compared his new job on the Regional Connector project to "winning the lottery."

Marely Mendoza

Marely Mendoza is a single mother of four and native of Los Angeles, California. A few years ago, she was introduced to construction by family and found her calling in the building trades. Since then, she has completed the Laborer's Training Academy and began her career in the trades as Laborer with Local 300. Marely's journey in the trades has led her to work on mega projects, including Metro's Crenshaw/LAX Transit Corridor and most recently, Metro's Purple Line Extension, Section 2.

Ricshawn Moore

Growing up, Ricshawn Moore faced all of the challenges many of our young men face in today's communities. Raised by a hardworking mother in Compton after his father passed away when Ricshawn was just two, he spent too much time on the streets as a teen and ended up struggling with gangs. Ricshawn kept an open mind, worked hard and today is earning a living as a union-scale laborer on the much-anticipated Crenshaw/LAX Transit Corridor Project.

Cynthia Piña

Cynthia Piña grew up in Rosemead, CA, and moved to Watts 10 years ago. During her time in Watts, she became involved with the wrong crowd and moved in and out of the justice system. As a mother of two, she was determined to turn her life around. She enrolled herself in a pre-apprenticeship program and upon completion was hired as a Laborer (Local 300) on the Westside Purple Line Subway Extension Project, Section 1. Through hard work and dedication, Cynthia now is a 4th Period Apprentice, continually learning new skills and progressing in her trade.

Lance Reed

Raised in Whitter, California, Lance Reed began his career in construction when a representative from the Laborers' Union visited the prison where he was incarcerated. The union offered a training program to help prepare individuals to apply for jobs in the industry, and Lance saw this as a chance to set himself up for success after his release. Lance was eventually hired by Valverde Construction, and today he is a General Superintendent. He manages field operations for Valverde Construction on Sections 2 and 3, where he mostly works underground, relocating and installing utility lines. Lance is proud of the work he does and looks forward to the project's completion, when he can visit the finished stations with his children and grandchildren to show them what he helped build. "If you never give up and continue working hard," Lance says, "anything can be done."

Rhonda Rodriguez

When asked why Rhonda Rodriguez chose to being her career in construction, she responded, "well, I had some challenges in my past that did not afford me to find a career that would allow me to feel fulfilled and sustained, so I decided to make a bad situation into a positive one". Now, the only female Foreman on Metro's SEED LA School project, Rhonda is calling the shots. Reigning from the San Gabriel Valley and standing a whopping 4' 113/4", Rhonda attended the construction pre-apprentice training school offered at Cerritos college and then joined the Iron Workers Union Local 433. Completing her

apprenticeship, and graduating to Journey level, Rhonda had proven to her superintendent that she may be “small in stature, but big in performance and personality”, and was promoted to foreman on the SEED LA School project. At her project site she is a well-respected team member and continues to enjoy and excel in her knowledge of her craft and promotes other women to enter the building trades as their next career path.

Petra Sanchez

Petra Sanchez is a single mother of two and a former Jobs Coordinator for Women in Non-Traditional Employment Roles, (WINTER). When her role with WINTER came to an end, Petra decided that she would pursue the very same path she had been leading other women to pursue in WINTER's pre-apprenticeship training program. Since completing her training, Petra has been working on Metro's Crenshaw/LAX Transit Corridor project as an Operating Engineer. Petra states that this new opportunity has provided the stability and flexibility that she was looking for and she is thrilled to be part of the city's transportation future.

Kimberly Taylor

Kimberly Taylor is a veteran of the construction industry. Seven years ago she decided that she wanted to be part of something more challenging, both mentally and physically; and she decided that construction was the career for her. Today, Kimberly is working on Metro's Westside Purple Line Extension Project as a Gas Detection Technician. Kimberly plays a vital role not only ensuring the safety of her fellow workers on this project but also keeping the project on schedule. She is proud of the work she does and the impact that women like her have made in this industry.

Jason Thomas

After spending some time in prison, Jason Thomas attended a pre-apprenticeship boot camp sponsored by the Los Angeles County Federation of Labor/LAOC Building Trades, Los Angeles Trade Technical College and ARC. The day after his graduation, Jason interviewed with Walsh Shea Corridor Constructors, and now is working on the Crenshaw/LAX Transit Corridor project, as an Operating Engineer (Local 12).

Melinda Thomas

Melinda Thomas is from Los Angeles, California and started her career in construction with the Local 300 Laborers' Union. She is currently a General Laborer for the Purple Line Extension Section 1 Project. For the past 7 years she has worked on the PLE1 construction site, to improve Los Angeles' public transportation infrastructure. Melinda manages a variety of duties, mainly at the entrance of the PLE1 site. There, she works as a traffic control flagger that allows worksite vehicles to enter/exit the construction site in a manner that doesn't create a traffic hazard. In addition, it is her responsibility to keep the construction site secure by monitoring and verifying that only authorized individuals are accessing the construction site. Lastly, she directs where the supplies go within the construction site, to keep the project area safe, and organized for all her fellow laborers.

Angel Valles

Angel Valles is relatively new to the construction industry having only entered the “My Brother’s Keeper” program for construction pre-apprentice training last year. Since then, Angel has relished the opportunity to develop the skills necessary to have an impactful and lasting career in the industry as a Carpenter. For the past seven months, she has been working as a 1st Period Apprentice on Metro’s Regional Connector Transit Corridor project. When asked what triggered her interest in the trades, Angel responded, “I wanted a physically demanding career that would allow me to use my hands and teach me the skills I need to become a better carpenter.”

Lorrie Williams

Lorrie is a 3rd Period Apprentice from the Pile Drivers/Carpenters Union working on the Regional Connector project. Lorrie started her career in the trades later than most, having spent many years working in refineries as fire-watch and performing other related tasks. Lorrie decided that she wanted to know more about the construction industry and work in something more hands on, which led her to join the trades. After completing the Maxine Waters MC3 program, Lorrie attended an event where she met representatives from Skanska, the prime contractor for the Regional Connector project. Lorrie found that safety is a big area of interest for her and hopes to work in safety coordination one day. Currently, she holds eight OSHA certificates and is working on obtaining the Construction Health and Safety Technician (CHST) certificate. Lorrie wakes up happy to go to work and loves that she can be a part of history by shaping the LA landscape for future generations.

Whitney Winans

Whitney Winans, a determined 25-year-old from Compton, CA, who now resides in South Los Angeles, does not let anything stand in the way of her success. As a participant of the Southwest Carpenters Training through the “My Brother’s Keeper” program, Whitney is now a 1st Period Apprentice working on the Crenshaw/LAX Transit Corridor Project. Whitney encourages other young women to consider a career in construction.

Marvin Wong

Marvin Wong started his career in construction in 2016, after serving as a United States Marine from 2003 to 2007. Once Marvin left the service and returned home, he fell into trouble and faced some legal issues, resulting in him serving time in prison. After his release, Marvin resided at the VA transitional housing, and wanted to change his life and get back on track. At the VA, Marvin was referred to a construction pre-apprenticeship program with Career Expansions, Inc. After graduating from the program, he was later sent to the Westside Purple Line Project 1 project and was hired as a First Period Apprentice. Through his newfound employment, Marvin has risen through the ranks quickly and will soon be at a Journey level. Marvin’s success has afforded him to gain a stable lifestyle and the opportunity to purchase his first home. Today, Marvin speaks to other veterans about the construction industry and how the benefits can change their lives as it has done for him.

Pilot Local Hire Initiatives

The Federal Transit Administration (FTA) has announced an initiative to permit FTA recipients and subrecipients to utilize geographic, economic, or other hiring preferences on FTA-Funded construction projects. This initiative will be carried out as a pilot program for a period of four years (unless extended) under authority provided in the Consolidated Appropriations Act, 2021, the Federal grants management regulation, and a recent Office of Management and Budget Memorandum (March 19, 2021).

The new Pilot Local Hire Initiative enables Metro to implement local hiring requirements on United States Department of Transportation (USDOT) contract opportunities advertised during the four-year pilot period of May 21, 2021 through May 21, 2025.

Women in the Trades Resource Guide

A Comprehensive Guide to Recruit, Employ
and Retain Women in Construction Careers

Metro[®]

Encouraging Contractors to Increase Women's Workforce Participation on Metro Construction Projects

The purpose of this resource guide is to provide insight and best practices to contractors and female workers in the construction industry. This guide should be used as a toolkit for contractors to recruit, employ and retain women in construction careers. Metro encourages contractors to not only use the resources in this guide, but to share this information with their subcontractors, jobs coordinators, site foreman and construction workers. Additionally, contractors are to use the toolkit to promote an inclusive workforce to foster a safe, productive and diverse work environment.

Table of Contents

- 1. Outreach Strategies 1**
 - 2. Recruitment 4**
 - 3. Training Resources/Pre-Apprenticeship Recruitment 5**
 - 4. Worker Retention 7**
 - 5. Worksite Best Practices 8**
 - 6. Contractor Dos and Don'ts 9**

- 

1. Outreach Strategies

An effective outreach strategy is critical in reaching women candidates interested in construction careers. Contractors should conduct outreach for each construction project and should participate in events sponsored by community-based organizations. Examples of the most effective outreach strategies include:

a. Conduct outreach job fairs for your construction projects.

- > Invite jobs coordinators, Metro staff and the Los Angeles/ Orange County Building and Construction Trades Council (LA/OCBCTC) to attend your outreach event and provide support. Contact the joint labor-management apprenticeship programs of the building trades-affiliated unions: laocbuildingtrades.org/apprenticeship-building-trades.
- > Conduct job fairs prior to the start of the construction project, periodically, or as needed as appropriate on large projects.
- > Properly advertise the job fair to receive maximum participation and highlight the opportunities and benefits that can spark interest for women construction workers in your advertisement.

b. Establish a collaborative workforce network with the job coordinators and workforce partners, such as America's Job Centers of California (AJCC). Participate in their outreach events, which are listed on their websites. A few of the workforce partner organizations are:

1. Women Build Metro Los Angeles outreach events
2. Women in Non-Traditional Employment Roles (W.I.N.T.E.R.)
3. Flintridge Center
4. LAX Pre-Apprentice Construction Training
5. Playa Vista Jobs (PV Jobs)
6. 2nd Call
7. Friends Outside in Los Angeles County
8. Youth Build

C. Utilize Los Angeles WorkSource Centers/AJCCs to sponsor or host on-site recruitments at their locations. Publicize your efforts to attract the candidate pool in which you need to fulfill your specialized hiring requirements. Below is a list of Los Angeles City and County-funded WorkSource/AJCC centers that have construction sector recruiting and/or training initiatives.

1. Goodwill Industries (Northeast Los Angeles WorkSource Center): info@goodwillsocal.org
2. Coalition for Responsible Community Development (Vernon – Central/LA Trade Tech College WorkSource Center): coalitionrcd.org
3. Arbor ResCare East Los Angeles:

8. South Bay/Inglewood One Stop: sbwib.org/home
9. Housing Authority of the City of Los Angeles: (HACLA Watts WorkSource) Center: ewddlacity.com/index.php/employment-services/adults-age-24-and-older/worksource-centers#watts-los-angeles
10. Asian American Drug Abuse Program (AADAP West Adams WorkSource Center): aadapinc.org
11. Veterans AJCC (Bob Hope Patriotic Hall, LA): jvs-socal.org/programs-and-services/worksource-center-services/overview

12. United Auto Workers (UAW Crenshaw South Los Angeles WorkSource Center): *letc.com*
13. Watts Labor Community Action Committee (WLCAC Watts WorkSource Center): *wlcac.org*
14. Pacific Asian Consortium in Employment (PACE WorkSource Center): *pacela.org*

d. Coordinate with Metro’s Workforce Initiative Now-Los Angeles (WIN-LA) to provide supportive services and career coaching for candidates seeking careers in the construction industry. To learn more about WIN-LA, please visit winla.metro.net.

e. Coordinate with local Employment Development Department (EDD) office to track unemployed candidates through their base wage file and statewide database.

f. Coordinate with Metro staff to utilize Metro’s social media platforms (i.e. Facebook, Instagram, popular online job banks and event pages to reach potential candidates).

g. E-blast your recruitment event flyers to share outreach efforts with community-based organizations and workforce partners.

h. Attend workforce development meetings focused on providing training and employment opportunities for women in the construction industry.

i. Participate in outreach events within the community, community colleges and vocational training schools.

1. Women Build Metro Los Angeles-Apprenticeship Readiness Fairs
2. LA Metro Community Outreach and Veteran Events
3. Los Angeles Community Job Fairs
4. Los Angeles Trade Technical College Job Fairs
5. Los Angeles Economic Development Department (EDD) Job Fairs
6. California Community Connection Corporation (C4) Construction & Associated Careers Awareness Day (Los Angeles Trade Technical College)

Keep records of all outreach activities as required by your PLA/CCP contractor and jobs coordinator responsibilities. Inform PLA/CCP staff of outreach events to be posted on Metro’s PLA/CCP upcoming events page.

2. Recruitment

Best practices for a successful recruitment are the pillars of every great employment hire. By utilizing the suggested best practices below, one can effectively outreach to skilled and qualified construction applicants.

- a.** Contractors and jobs coordinators must have an accurate understanding of open and upcoming craft positions that need to be filled.
- b.** The contractor's Employment Hiring Plan (EHP) should also include estimates of which crafts will be needed and when they should be used during the project.
- c.** In the event a contractor's workforce participation has a female percentage below 6.9%, their hiring focus should be on recruiting female workers for the crafts to be used for upcoming scopes of work.
- d.** The contractor should assess their outreach efforts and follow up with workforce partners through the job coordinator to receive possible candidates that are qualified for the upcoming scopes of work.
- e.** Host your recruitment event at a location that is easily accessible for candidates, such as America's Job Center, Union Hall, or a community-based organization facility, such as Inglewood One Stop, LAUSD MC₃ Location, Local 300 Bootcamp location.

- f.** Work with Metro staff to advertise your recruitment by posting to LA Metro’s social media platforms (i.e. Facebook, Instagram, as well as popular online job banks, or event pages).
- g.** E-blast flyers of recruitment events to reach the maximum number of female candidates as possible.
- h.** Work with your community-based organization partner to assist with prescreening, recruiting and scheduling interviews with candidates prior to the recruitment event.
- i.** Ensure that new candidates entering the construction field have been enrolled in or have completed the MC3 training curriculum. Refer to Section 7.
- j.** Track the status of interviewed candidates and create a list of potential recruits that have not yet been selected. This list should be utilized when future hiring needs arise.
- k.** Utilize the *Request for Craft Employees* form and keep record of your requests. The Request for Craft Employees form is used to request workers that help the contractor meet their Targeted Worker, Apprentice Worker, Disadvantaged Worker, Minority and Female Worker percentage goals.

3. Training Resources / Pre-Apprenticeship Recruitment

The following is a list of Pre-Apprenticeship training programs approved by the Building Trades (LA/OCBCTC) that offer the MC3 curriculum. Please see Attachment A for additional information.

1. Anti-Recidivism Coalition
2. Flintridge Center
3. Women in Non-Traditional Employment Roles (WINTER)
4. Antelope Valley College
5. Cerritos College
6. Career Expansion, Inc.
7. Long Beach City College

8. Los Angeles Southwest College
9. Los Angeles Trade Tech College
10. Los Angeles Unified School District Local District North West (High School Programs)
11. YouthBuild Charter School of California (16- to 24-year-olds, 15 locations in LA County)
12. Los Angeles Unified School District Adult Education/ East Los Angeles Occupational
13. Los Angeles Unified School District Adult Education/ Maxine Waters Employment Preparation Center

Contractors must ensure that all new construction candidates have enrolled in an MC3 training course. It is important for contractors to use job coordinators that will refer MC3 graduates to contractors and LA/OCBCTC-recognized apprenticeship training facilities.

4. Worker Retention

Contractors are highly encouraged to focus on retaining female workers. Some best practices for retention are listed below.

- a.** Work with Metro staff and job coordinators to transition workers from projects that are 80% complete to lower any lag time from one project to the next. Utilize the [Female Worker Transition Tracking](#) sheet to support this effort.
- b.** Implement gender-specific portable toilets on the construction site.
- c.** Engage female workers and offer training and support for career advancement.
- d.** Allow new construction workers to job shadow other apprentices and/or journeymen.
- e.** Create a women's supportive network group on the project/ worksite during the onboarding process. This will allow new female employees to gain both professional and personal support from their peers.
- f.** Network with other job coordinators to assist with placing women on other regional construction projects.
- g.** Be proactive! Encourage your workers to learn additional skills in their trade that will allow for advancement in their trade.
- h.** Provide supportive resources for workers, such as child care, transportation, gender-specific restrooms, financial literacy, a harassment free workplace, and other services mentioned in Section 7.

5. Worksite Best Practices

- a.** Ensure all construction staff are aware that the construction site has a zero tolerance for discrimination and sexual harassment.
- b.** Post Equal Employment Opportunity, Non-Discrimination and Sexual Harassment policies in inconspicuous locations at the project site.
- c.** Implement separate male and female restrooms for privacy.
- d.** Follow up with female construction apprentices to ensure they are learning new skills and preparing for advancement.
- e.** Consider implementing child care services for construction workers, or build relationships with service providers to foster assistance with child care.
- f.** Consider joining business networking groups that are specific to the construction industry, or can be a pipeline to recruiting new construction candidates.

6. Contractor Dos and Don'ts

Outreach Dos

1. Conduct outreach events/job fairs for your construction projects.
2. Work with your job coordinators and Metro PLA/CCP staff when implementing outreach events.
3. Maintain an open line of communication with your job coordinator.
4. Work with your local community-based organizations, as well as the city and county WorkSource Centers with outreach efforts.
5. Know your local America's Job Centers of California (AJCC) and Employment Development Department (EDD) office to locate unemployed female construction workers.
6. Advertise and promote outreach efforts on social media outlets.
7. Create a strong community-based e-mail distribution list to e-blast outreach events.
8. Build relationships with local vocational schools for outreach and recruiting events.

Outreach Don'ts

1. Do not forget to stress that Metro strives to increase the representation of females on Metro construction projects.
2. Do not work in silos. Work with your job coordinator for outreach, recruitment, retention and other PLA/CCP requirements.
3. Do not disengage with the community. Inform community-based organizations and partners of your upcoming projects and/or current projects with Metro.
4. Do not solely promote outreach efforts internally. Use social media.
5. Do not hold outreach events during the same time. (Example: always 8-11 am on Fridays). Host events at different times to allow female candidates with various schedules the opportunity to attend.

Recruitment Dos

1. Meet regularly (weekly or monthly) with your job coordinator to understand the project's workforce needs.
2. Review the project's Employment Hiring Plan (EHP) and utilize the Request for Craft Employees form to recruit women and under-represented workers for the project.
3. Find qualified candidates through your job coordinator and their workforce partners.

4. Host recruitments at easily accessible locations to hire female and targeted workers, such as local AJCCs, WorkSource Centers, union halls, and other community-based organizations.
5. Use social media to promote your recruiting efforts (i.e.) Instagram, Facebook, LinkedIn, Indeed.com, Construction Jobs, Inc., (*constructionjobs.com*).
6. Provide support for your job coordinator's recruitment efforts. Supply signage, job availability, access to prime contractor business agents and recruiters, upcoming craft or training openings, marketing materials, etc.
7. Communicate with Metro when hiring issues arise (both positive and negative).
8. Share Best Practices at Metro job coordinator quarterly meetings.
9. Highlight female participation success stories.

Recruitment Don'ts

1. Do not ignore or circumvent your job coordinator's efforts.
2. Do not dismiss your Targeted Worker Summary Report as this identifies where the project's workforce needs exist.
3. Do not implement hiring practices without using the **Request for Craft Employees** form. This form can be referenced as proof of your efforts to recruit female workers and comply with PLA/CCP requirements.

Training Resources/Pre-Apprenticeship Recruitment Dos

1. Work closely with your job coordinator to develop relationships with MC3 approved pre-apprentice training facilities to refer candidates interested in construction careers.
2. Closely review the Targeted Worker Summary Reports for your project and tailor your recruitments to address low female participation and other low categories.
3. Use the approved Request for Craft Employees form to recruit workers for the project. Use this form to recruit female and minority workers to document your efforts to promote a diverse workforce.

Training Resources/Pre-Apprenticeship Recruitment Don'ts

1. Do not refer potential construction candidates to non-MC3 pre-apprenticeship training schools. The MC3 Curriculum is proven to assist with training job-ready construction candidates and maintain strong retention on projects.
2. Do not ignore the Targeted Worker Summary Report, or **Request for Craft Employee** form. Identify if and when a recruitment will be needed to continue to maintain your efforts of having a diverse workforce.

- Women in Non-Traditional Employment Role event (March 29, 2024)

**Board Report**

File #: 2023-0126, **File Type:** Motion / Motion Response**Agenda Number:** 29.

**REGULAR BOARD MEETING
FEBRUARY 23, 2023****Motion by:****DIRECTORS HORVATH, MITCHELL, BASS, SOLIS, HAHN, AND DUPONT-WALKER****Female Participation in Project Labor Agreement/Construction Careers Policy Construction Projects**

Consistent with Metro's Labor Compliance policy and Federal Executive Order 11246 (EO 11246), prime contractors are required to provide worker utilization data by ethnicity and gender. In accordance with EO 11246, Metro's program-wide goal for female participation in Project Labor Agreement / Construction Careers Policy (PLA/CCP) construction projects is 6.9%. As of September 2022, there are thirteen active construction contracts with PLA/CCP requirements, and while all thirteen contractors exceeded the Local Worker/Targeted Goal (40%), a substantial majority are nearing or exceeding the Apprentice Worker (20%) and Disadvantaged Worker (10%) goals, only three of the 13 active projects have met the Agency's Female Utilization Goal (6.9%).

Metro has done tremendous work on the creation of the Female Participation Score Card, releasing notices to prime contractors that are not meeting female participation goals, and with unions and jobs coordinators to refer women that recently completed their work assignments to other active Metro construction projects, amongst other efforts. Staff also continues to focus efforts on strategies to support the outreach, recruitment, and retention of women into the trades focusing on Metro's PLA/CCP construction projects, including working with Laborers Local 300 and the Laborers Training Program to bring the Laborers Tunnel Training Program to Los Angeles County. However, as the COVID-19 pandemic winds down and the need for workers, particularly female workers in the construction trades increases, more can and should be done.

Metro conducts disparity studies to determine if evidence of discrimination exists in the local transportation business marketplace, and to support the use of Disadvantaged Business Enterprise (DBE) and race- and gender-conscious contract goals in its program. The Agency Commissioned BBC Research & Consulting (BBC) to conduct its 2023 Disparity Study, which will focus on construction, professional services, and goods and non-professional services contracts and procurements Metro awarded between January 1, 2016 and December 31, 2021. Metro additionally completed a disparity study assessing the local construction workforce, with a focus on tradeswomen, with data through 2018. A refresh of this report is essential to better understand the current state of the regional construction trades workforce.

SUBJECT: FEMALE PARTICIPATION IN PROJECT LABOR AGREEMENT/CONSTRUCTION CAREERS POLICY CONSTRUCTION PROJECTS MOTION

RECOMMENDATION

APPROVE Motion by Directors Horvath, Mitchell, Bass, Solis, Hahn, and Dupont-Walker that the Board direct the Chief Executive Officer to:

- A. Commission a refresh on the construction workforce disparity study and report back with status updates in each PLA/CCP Quarterly Update to the Board, and report on findings and recommendations of the study in September 2023 (with the understanding that the disparity study may still be in progress).
- B. Report back on the potential application of cultural competency requirements in contractor and staff training related to working with historically underutilized populations in the trades, with a focus on tradeswomen, as well as similar qualitative metrics that can be used in Metro's proposal evaluation and contracting processes; and
- C. Report back on the feasibility of creating bid preference incentives that can be applied to increase the number of women working on Metro funded construction projects, while not compromising the Agency's race conscious contracting goals, including but not limited to: the history of a contractor's compliance with Metro's Female Utilization Goal; supporting working parents with the availability of dependent care spending account benefits in addition to access to child care; and working with organizations such as Women in Non-Traditional Employment Roles (W.I.N.T.E.R) to apply best practices in future contracts etc.

Project Labor Agreement (PLA)/
Construction Careers Policy (CCP) Report
Construction Committee
May 16, 2024

PLA/CCP Program Achievements

- **15 Active Construction Projects**
 - **10 projects subject to Local Hire Initiative**
- **Attainment - Program Inception to December 2023**
 - 58.16% Economically Disadvantaged
 - 21.26% Apprentice
 - 10.86% Disadvantaged
- >\$559 Million paid to Targeted Workers *
 - >\$104 Million paid to Disadvantaged Workers *
 - >\$152 Million paid to Apprentice Workers**
- Exceeded Targeted/Apprentice/Disadvantaged Worker Goals
- No work stoppages or lockouts

Metro

(*Based on the lowest laborers rate as of June 2017)
(**Based on the lowest apprentice rate as of January 2017)
(Workers may fall into multiple categories)

Female Participation Score Card

❖ Overall female participation attainment is 3.78%

❖ Highest project grade attainment as of this reporting period is A grade

Women Breaking Ground website

The Los Angeles/Orange Counties Building and Construction Trades Council, AFL-CIO, in partnership with Metro, has created a joint awareness campaign to build the construction industry's future workforce capacity with a special focus on women.

- [On March 1, 2024, in celebration of Women's History Month, LA Metro's Joint Awareness Campaign launched a brand-new website, "Women Breaking Ground" \(\[www.womenbreakground.com\]\(https://www.womenbreakground.com\)\).](https://www.womenbreakground.com)
- LA Metro's "Women Breaking Ground" website gives women that are interested in a career in construction an avenue for learning more about how to join an apprenticeship readiness training program and get connected to resources.
- Individuals that sign up will receive a response within 48 hours by Council staff with the best course of action in starting a career in construction.
- The Women Breaking Ground website will run through FY2026 in partnership with the LA/OC Building and Construction Trades Council.

PLA/CCP Activities

Listed below are strategies implemented to increase the overall workforce capacity, with a specific focus on increasing female participation on Metro's construction projects and the construction industry

- ✓ Outreach – attend jobs fairs, collaborate with the trade unions, community-based organizations and high-schools. In addition, will continue to expand engagement with high schools to draw interest in the trades and provide resources.
- ✓ Collaboration with the Laborers Union and Laborers Training School in establishing a Tunnel Worker School in the LA region.
- ✓ Continuous partnership with LA/OC Building & Construction Trades Council and its union affiliates in the recruitment of workers.
- ✓ Collaborate with LA County Department of Economic Opportunity (DEO) and City of Los Angeles Workforce Director in recruiting individuals interested to start a career in construction and establish a system of an ongoing referral to pre-apprenticeship programs
- ✓ Metro in discussion with the LA Economic Workforce Development Dept (EWDD) and the LAOCBTC Apprentice Readiness Fund in establishing a regional collaboration in terms of recruitment and establishment of more pre-apprenticeship programs.
