Phillip A. Washington, Chief Executive Officer

METROPOLITAN TRANSPORTATION AUTHORITY BOARD RULES (ALSO APPLIES TO BOARD COMMITTEES)

PUBLIC INPUT

A member of the public may address the Board on agenda items, before or during the Board or Committee's consideration of the item for one (1) minute per item, or at the discretion of the Chair. A request to address the Board should be submitted in person at the meeting to the Board Secretary. Individuals requesting to speak on more than three (3) agenda items will be allowed to speak up to a maximum of three (3) minutes per meeting. For individuals requiring translation service, time allowed will be doubled.

The public may also address the Board on non-agenda items within the subject matter jurisdiction of the Board during the public comment period, which will be held at the beginning and/or end of each meeting. Each person will be allowed to speak for up to three (3) minutes per meeting and may speak no more than once during the Public Comment period. Speakers will be called according to the order in which the speaker request forms are received. Elected officials, not their staff or deputies, may be called out of order and prior to the Board's consideration of the relevant item.

In accordance with State Law (Brown Act), all matters to be acted on by the MTA Board must be posted at least 72 hours prior to the Board meeting. In case of emergency, or when a subject matter arises subsequent to the posting of the agenda, upon making certain findings, the Board may act on an item that is not on the posted agenda.

CONDUCT IN THE BOARD ROOM - The following rules pertain to conduct at Metropolitan Transportation Authority meetings:

REMOVAL FROM THE BOARD ROOM The Chair shall order removed from the Board Room any person who commits the following acts with respect to any meeting of the MTA Board:

- a. Disorderly behavior toward the Board or any member of the staff thereof, tending to interrupt the due and orderly course of said meeting.
- b. A breach of the peace, boisterous conduct or violent disturbance, tending to interrupt the due and orderly course of said meeting.
- c. Disobedience of any lawful order of the Chair, which shall include an order to be seated or to refrain from addressing the Board; and
- d. Any other unlawful interference with the due and orderly course of said meeting.

INFORMATION RELATING TO AGENDAS AND ACTIONS OF THE BOARD

Agendas for the Regular MTA Board meetings are prepared by the Board Secretary and are available prior to the meeting in the MTA Records Management Department and on the Internet. Every meeting of the MTA Board of Directors is recorded on CD's and as MP3's and can be made available for a nominal charge.

DISCLOSURE OF CONTRIBUTIONS

The State Political Reform Act (Government Code Section 84308) requires that a party to a proceeding before an agency involving a license, permit, or other entitlement for use, including all contracts (other than competitively bid, labor, or personal employment contracts), shall disclose on the record of the proceeding any contributions in an amount of more than \$250 made within the preceding 12 months by the party, or his or her agent, to any officer of the agency, additionally PUC Code Sec. 130051.20 requires that no member accept a contribution of over ten dollars (\$10) in value or amount from a construction company, engineering firm, consultant, legal firm, or any company, vendor, or business entity that has contracted with the authority in the preceding four years. Persons required to make this disclosure shall do so by filling out a "Disclosure of Contribution" form which is available at the LACMTA Board and Committee Meetings. Failure to comply with this requirement may result in the assessment of civil or criminal penalties.

ADA REQUIREMENTS

Upon request, sign language interpretation, materials in alternative formats and other accommodations are available to the public for MTA-sponsored meetings and events. All requests for reasonable accommodations must be made at least three working days (72 hours) in advance of the scheduled meeting date. Please telephone (213) 922-4600 between 8 a.m. and 5 p.m., Monday through Friday. Our TDD line is (800) 252-9040.

LIMITED ENGLISH PROFICIENCY

A Spanish language interpreter is available at all Board Meetings. Interpreters for Committee meetings and all other languages must be requested 72 hours in advance of the meeting by calling (213) 922-4600 or (323) 466-3876.

HELPFUL PHONE NUMBERS

Copies of Agendas/Record of Board Action/Recordings of Meetings - (213) 922-4880 (Records Management Department)
General Information/Rules of the Board - (213) 922-4600
Internet Access to Agendas - www.metro.net
TDD line (800) 252-9040

NOTE: ACTION MAY BE TAKEN ON ANY ITEM IDENTIFIED ON THE AGENDA

AD HOC TRANSIT POLICING OVERSIGHT COMMITTEE JANUARY 21, 2016

SUBJECT: TRANSIT COMMUNITY POLICING PLAN

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE status report on the **Transit Community Policing Plan**

ISSUE

On September 4, 2014, the board requested that staff provide an annual Transit Community Policing Plan to the MTA Board in July of each year.

DISCUSSION

This report has been prepared by Ronene Anda, Chief of Transit Policing Division, and submitted through Alex Wiggins, Executive Officer of System Security and Law Enforcement.

In the Los Angeles County Sheriff's Department (LASD) Contract Audit Report, an audit recommendation was to require LASD to prepare and submit an annual Transit Community Policing plan. The plan is to identify the principles of community policing and define the roles of LASD Deputies. Although the plan was completed and being implemented prior to July 2015, it was not submitted due to administrative reasons.

The 2015 Transit Community Policing Plan (TCP) differs from the 2014 plan by the following reasons:

- Mission statement for 2015 TCP is Transit/Metro specific
- Deployment and strategies for 2015 TCP cover annual deployment, whereas the 2014 TCP covered a 3-5 year deployment strategy.
- Intelligence Led Policing includes discussions on working in collaboration with Metro Transit Security and Private Security to increase system safety and prediction of future crimes
- 2015 TCP includes broadening use of social media for community awareness as well as the Transit Watch LA App
- 2015 TCP discusses a Joint Emergency Operations Center (EOC) as opposed to separate

EOC locations where there was a definite lack of communication between Metro and LASD

- 2015 TCP Counterterrorism section addresses a LASD K-9 and Threat Interdiction Unit (TIU) joint vehicle as capable of launching from a central location in a “ready status”
- 2015 TCP shows the success Crime Impact Teams have on graffiti abatement and lists the damage cleared in dollar amount
- 2015 TCP discusses the implementation of the Bus Riding Team
- 2015 TCP advises implementing recommendations made by the outside auditor (Bazillo Cobb Associates) and increased efforts to regularly meet with neighboring agencies and stakeholders
- 2015 TCP discusses LASD’s efforts to recognize and assess the ability to grow and expand alongside Metro.

NEXT STEPS

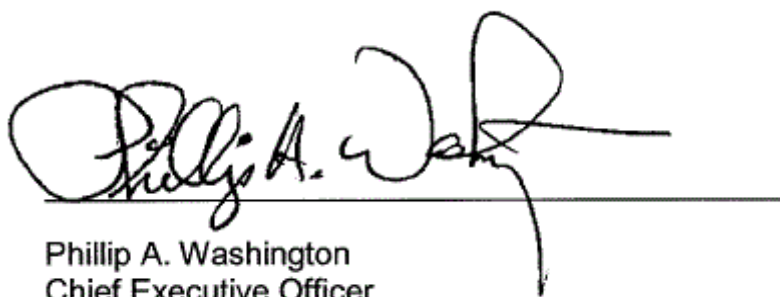

Staff will present the next Transit Community Policing Plan in July 2016.

Our Mission Statement

MetroTM

The mission of the Los Angeles County Sheriff's Department's Transit Policing Division is to maintain a safe and secure environment by deterring crime and preventing terrorism throughout the Metro Transit System.

Our mission will be accomplished through our strong commitment to public safety and will promote the confidence of the riding community, and Metro employees; through intelligence led community policing, counter-terrorism practices, new technologies, teamwork and accountability, while preserving and protecting the constitutional rights of all.

Transportation Policing Division Organization Chart

The Los Angeles County Sheriff's Department **Transit Policing Division (TPD)** provides comprehensive police services to **Metro** (the Los Angeles County Metropolitan Transportation Authority). This strategic plan provides the strategic direction for TPD's efforts over the next year. It identifies key initiatives and goals and sets a framework for resource allocation directed to support our partnership with Metro in support of our identified mission and goals.

INTRODUCTION

The TPD supports Metro's goal of providing safe and secure transit to the Los Angeles Metropolitan Region. Metro is unique among the nation's transportation agencies. It serves as transportation planner and coordinator, designer, builder and operator for one of the country's largest, most populous counties. More than 9.6 million people - nearly one-third of California's residents - live, work, and play within its 1,433-square-mile service area. TPD provides comprehensive contract law enforcement services to metro's bus and rail network. TPD's Liaison serves as crime prevention consultant for new Metro transit construction projects and for security systems enhancements. This document discusses the scope of our Community Policing Plan, areas of operation and key TPD initiatives that will be pursued over the next year. Transit Policing Division will provide law enforcement services to suppress crime and disorder on the Metro transit system. TPD's mission is to provide a safe and secure regional public mass transit system for Metro's customers and employees.

MISSION AND AREA OF OPERATIONS

Key TPD mission areas include: 1) **Transit Policing/Crime Prevention (quality of life)**, including Crime prevention and suppression; Order maintenance to suppress anti-social behavior and enhance the quality-of-life of the Metro community; Graffiti and vandalism suppression; Traffic and passenger safety; and Fare enforcement through patrol and deployment of specialized units and the use of innovative technology. This will be done through our efforts to meet a continued 10% saturation rate by better strategic planning through our Intelligence Led Policing program. We have implemented several programs to augment our partnership with Metro and

their/our community. They include the utilization of our Reserve deputy program and volunteers to educate our ridership on safety programs and awareness. The project of cleaning Union Station and the ongoing continued effort in utilizing mental health teams/ programs designed to give homeless individuals a better, long term home and or mental health opportunities.

2) **Critical Incidents**, including preparation for and response to emergencies, disasters and civil disobedience (*i.e.*, maintaining public order) as well as counterterrorism and homeland security efforts to protect Metro from terrorist attack. The FBI, who oversees bomb squad responses across the nation, has recognized LASD

public order) as well as counterterrorism and homeland security efforts to protect Metro from terrorist attack. The FBI, who oversees bomb squad responses across the nation, has recognized LASD

(TPD-Threat Interdiction Unit, TPD-Explosive Detection K-9 Unit, Arson Explosive Detail and Hazmat Detail) as their National model moving forward.

3) **Persons in Need/ Homeless**, including continued response and training for all TPD's personnel in the area of mentally ill persons and Crisis Response Team members frequenting the Metro system. We have begun the process of training all Transit Policing Division personnel in a POST approved Mental Health Update Training. The mandated training will be completed by July 1, 2016.

4) **Felt Presence**, including the on-going effort to have deputy personnel and security assistants visibly engaged with patrons without becoming oppressive and/or threatening and the "buy in" to community partnership. TPD will provide more emphasis on assisting with tourists, TVM assistance, and the overall ability to make the community feel the bus and rail stops as safe havens based primarily on our continued presence.

5) **In-Service Training**, including the collaboration with Metro Bus and Rail Managers, as well as continued discussions with municipalities and local police departments, to provide efficient local law enforcement responses to emergency calls for service. We will continue our annual Tactical Proficiency Training which trains all of our personnel in the unique aspect of handling "now" calls on the bus and rail system. We will continue to partner with Metro and utilize Metro provided rail cars and busses so as to make our in-service training more realistic. We will also continue to have outside department trainers available to assist our staff in the critiquing process. We will also have transit specific bus and rail tactics ranging from "pull over and approach" to "high risk active shooter" situations that will be developed by Transit Policing Division staff and eventually standardized as a national curriculum.

6) **Proximity Patrolling**, including the training of TPD personnel assigned to rails to patrol independently of each other while in close proximity in order to ensure customers feel a greater presence of TPD personnel. This training has been on-going since implementation in 2014 with an effort to have our personnel recognize the importance of patrolling together without appearing to our patrons that we are gathered in numbers or "bunching", with the exception

of the need to be mindful of officer safety tactics.

TPD's area of operations encompasses the entire Metro system. To cover this broad geographic and functional area, TPD is organized into three interactive, mutually supporting components. The three components are:

TBN —*Rail*: Red, Purple, and Gold Lines; *Bus*: San Gabriel Valley, Westside/Central, San Fernando Valley, and the Orange Line (bus rapid transit).

TBS —*Rail*: Blue and Green Lines, Exposition Line; *Bus*: South Bay, Gateway Cities.

Central Operations Bureau (July 1, 2015) — Detectives, Crime Analysis, Crime Impact Teams I and II, Threat Interdiction Unit, Canine Teams (K-9), Training and Scheduling, Mental Evaluation Teams, Reserve Deputies and the Bus Riding Team.

TPD Strategies and Tools

Methods employed by TPD to perform its mission include: **Patrol** (active presence, enforcement and response) by deputies and security assistants; **Investigations** by detectives supported by crime analysis; **Specialist capabilities** (special mission units, including K-9, Motors, Threat Interdiction Unit and the Mental Evaluation Team); **Technology**; and **Transit-Community Interaction** (partnerships). Strategic initiatives (i.e. Bus Riding team members continuously checking in with Bus Managers for hot topic/issues) and goals for each of these strategic tools will continue to be utilized through the upcoming year.

DEPLOYMENT

Deployment of personnel is a critical issue. During the upcoming year, we will begin to transition into a deployment that is based on region/sector/pod policing wherein the field units will be responsible for their Reporting District that incorporates overlapping bus and rail responsibilities rather than a singular modal transit bus or rail assignment.

An assessment of patrol areas, staffing, allocation of personnel between uniformed and plainclothes operations, and mutual support among all members of the protective services team will be conducted. Opportunities to augment staffing with Reserve Deputies and Civilian Volunteers will be explored and emphasized.

On-going assessment of deployment models—including leveraging a mix of approaches: uniformed fixed posts, train and bus patrol, roving teams (of deputies and security assistants), and plainclothes operations will continue to be utilized. Monthly deployment strategy sessions will be conducted to adjust deployment as circumstances and crime trends dictate.

Ultimately, effective patrol practices will be enhanced through the exploitation of technology and knowledge management (enhanced crime analysis and the implementation of “*Intelligence-Led Policing*” (ILP) to target issues that impact the line and reinforce problem-solving efforts.

A specific goal in this area is the development of “*dynamic deployment*” practices to effectively address problems and crime trends. This will involve integrated, and synchronized deployment of patrol, motors, K-9, the Crime Impact Teams, the Threat Interdiction Unit, and Metro Security personnel, as well as deployment of contract security. Joint *matrix operations* among these personnel coordinated through “deployment matrices” will continue to be emphasized.

Development of Volunteers and a *Transit Community Watch* cadre will be a key element of this approach as a proven and effective tool as with our “See something, say something” efforts. Refinement of TPD’s Desk Operations, coordination and interaction with the Rail Operations Center, Bus Operations Coordination Center (BOCC), and the development of enhanced crime analysis are supporting initiatives.

HUB AREA TEAMS AND INTEGRATED BUS-RAIL OPERATIONS

Enhancing deployment and response capability to address geographic issues is an important element of deployment. The development of integrated bus-rail teams to cover geographic areas enhances mutual support among bus and rail deputies. The deployment of “hub area” teams for specific stations has been shown to be extremely successful at Union Station.

The TIU Hub team with synchronized team deployments enhanced by video surveillance (CCTV monitoring) has been an approach that has shown to be an effective strategy.

KNOWLEDGE MANAGEMENT/INTELLIGENCE-LED POLICING (ILP)

Enhancing our capacity to identify, understand, respond to and mitigate threats to Metro requires better development and analysis of information from a range of sources. A key enabling component of this initiative is better communication within TPD, LAMPS, and community agencies and partners (schools, police, fire service, etc.). TPD has embraced “intelligence-led policing” (ILP) as a methodology for identifying and responding to crime, problems, and threats. In the upcoming year, we will continue to utilize ILP and will include LAMPS and the security forces of Morlin Management and other related Private Security in our increasing efforts to make our system safe as well as predicting future crime through trend analysis.

Intelligence-led policing is a business model and managerial philosophy where data analysis and crime intelligence are pivotal to an objective, decision-making framework that facilitates crime and problem reduction, disruption and prevention through both strategic management and effective enforcement strategies that target prolific and serious offenders.

Service Area Lieutenants, Team leaders, and Detectives, personnel are instrumental in this effort. Enhanced information-sharing and collaborative problem-solving with Metro management is also required. A proven outcome of this initiative has been the development of a system-wide approach facilitating targeted and flexible deployment based upon indicators and *sentinel crimes* (crime patterns that serve as indicators of emerging problems) that influence crime trends, revenue collection (fare evasion), quality-of-life, and perceptions of safety, security, and customer

satisfaction.

TPD's ILP will move into the next year with an emphasis on Service Area Lieutenants being responsible for reporting information and results in an effort to show results from previous meetings as well as the re-structuring of the process to have SAL's reporting on the state of crime and disorder in their assigned geographic areas. We have worked with Metro to identify trends within each service area, holding the Service Area Lieutenant responsible for all follow up on identified trends, as well as spotlighting "success stories" in an effort to showcase the hard work of our personnel.

REVENUE COLLECTION/FARE OPERATIONS

Ensuring collection of fare payment (proof-of-payment) is a key element of support to Metro's revenue collection strategy. Accordingly, TPD is committed to ensuring a 10% saturation (inspection) rate on all rail and bus rapid transit lines toward achieving an average fare evasion rate of 2% or less (4% peak; 2% non-peak). For example, ending in March 2015, contacts, which included MPV checks, Triple Double and citations, combined for the month of April (845,429) were up from March (553,786) resulting in an overall saturation rate of **10%**.

EFFECTIVE/ENHANCED USE OF TECHNOLOGY

- Enhancing the use of technology is a key component of the TPD Community Policing Plan. Effective exploitation of technology—including information communications technology/ICT—will allow TPD to enhance detection efforts through targeted surveillance of high-risk areas, enhance communication, and facilitate dynamic deployment capabilities. This initiative involves the integration of video monitoring (CCTV cameras at station and on-board buses and ultimately from traffic enforcement cameras), Advanced License Plate Recognition technology, and the ARMOR Randomization project.
- Transit Policing Division will broaden communications, information sharing and rider-ship community awareness of our public safety activities. Some of these strategies will include examining newer technologies and emphasizing the use of current applications (Transit Watch App). We will continue to expand the use of social media platforms such as Facebook, Twitter, YouTube and Nixle.
- Continue to partner with Metro for emergency assistance with regards to the sharing of an Emergency Operations Center wherein Metro employees and Sheriff personnel are housed within the same center.
- TPD will begin utilizing new MPV devices with access to CLET/CJIS and computer aided dispatch; and that captures data on invalid and misused fares.
- TPD is searching for a system similar to LEXRAY that is available for use in an operations center, mobile command post, and on hand held devices.
- A Transit Policing Division Risk Management review system needs to be developed to

identify a process for early identification of individual staff or organization wide risk management trends

- **ARMOR Project:** This grant-funded initiative involves a partnership with CREATE: the Center for Risk and Economic Analysis of Terrorism Events University of Southern California (USC). ARMOR stands for “Assistant for Randomized Monitoring Over Routes” it will develop randomized deployment methodologies (including a matrix or matrices of recommended deployment) for fare operations, deployment of directed patrols/bus rides, and the deployment of special mission units (K-9, Threat Interdiction Unit, Special Problems Unit, etc.). The first component of the initiative will be an assessment of random fare operations. This initiative uses advanced quantitative methods (game theory and statistics) to optimize deployment decisions.

COUNTERTERRORISM/HOMELAND SECURITY

Protecting Metro from terrorist attack is one of our highest priorities. Effective counterterrorism must integrate and build from active patrol. We recognize that transit is a high-profile target. In this initiative, we will enhance the level of training and preparedness of all TPD and LAMPS personnel. We will emphasize lessons learned and enhance our ability to exercise command and control of terrorist situations. This will include both training and doctrine development for addressing armed assaults and combined arms attacks, suicide operations, bombings (vehicle and person-borne improvised explosive devices). Deployment of special mission units (Threat Interdiction Unit, K-9) as well as patrol personnel is a key element of this initiative. Furthering the combined IED response of TPD, the creation of the 690K9 Unit combines the capabilities of an Explosive Detection Canine Team with a member of

TIU. They primarily patrol LAUS, but respond to suspicious package calls system-wide in a specialized utility truck. In addition to the detection capabilities of the dog, 690K9 has specialty detection and response equipment suited for explosives and hazardous materials situations including, but not limited to: radiation detection devices, robotics, EMT supplies, portable emergency rail vehicle. 690K9 minimizes both risk and system downtime by providing necessary equipment and expertise to potential high-risk situations while launching from a central location in a “ready status” in the field rather than an “on-call” status at a remote location.

In addition Metro Community Awareness has been enhanced through the establishment of an awareness website, passenger and operator training—including “*See Something-Say Something...*” campaigns. TPD will continue to conduct system-specific risk and threat assessments, and develop a timetable of training and exercises.

Key on-going elements of this initiative include the Threat Interdiction Unit’s *high visibility* Mobile Search & Screening Team (MSST), Visible Inter-modal Protection and Response (VIPR) deployments, Force Protection Team, and Regional Terrorism Training cadre (RTTC). Close cooperation and information-sharing with the Emergency Operations Bureau and Joint Regional Intelligence Center (JRIC) support these efforts.

MENTAL HEALTH/HOMELESS/PERSONS IN NEED

The Crisis Response Units continue a cooperative effort between the Metro, the Sheriff's Department and the Department of Mental Health. Crisis Response Units are comprised of several specially trained Deputy Sheriff and a Department of Mental Health Clinician. The Crisis Response Units mission, in conjunction with our Community Policing Plan, is to reach out to transit patrons in need of service and assist them with their needs. The units observe patrons on the Metro system and offer assistance and services that are available in the community. This includes assisting mentally ill persons to voluntary mental health services, helping alcohol and substance users to treatment centers and providing transportation for homeless persons to shelters and other social services. It also includes helping the elderly and disabled or simply assisting travelers with ticket vending machines or directions **Mental**

Health/Homeless/ Persons in Need (Continued)

In addition to helping patrons to voluntary services, the Crisis Response Unit also respond to more urgent situations involving patrons wanting to harm themselves or others due to their mental illness. The teams then negotiate or de-escalate the situation and then take the person to a psy-

chiatric emergency room for evaluation. TPD plans to continue to have a positive effect in the upcoming months to mirror the proven success of this program. During the calendar year 2014, our Crisis Response Units combined for over 3300 contacts, transported 324 persons for services (in effect, removed those individuals from the system), and completed over 4400 requested location checks.

CRIME IMPACT TEAMS AND GRAFFITI SUPPRESSION

The Crime Impact Teams (CIT I and CIT II) is TPD's main tool for addressing graffiti (through investigations and prosecutions) and providing flexible response to acute criminal problems. The Crime Impact Teams will focus on four core policing strategies/initiatives: 1) Education, 2) Enforcement, 3) Partnerships, and 4) Intelligence Management. The teams have been working this past year on numerous graffiti abatement projects. The teams have served multiple graffiti related search warrants and probation searches. For the calendar year 2014, CIT teams were responsible for over \$142,000 in cleared graffiti damage. The teams will continue to make graffiti abatement a priority in the coming months.

IMPLEMENTATION OF THE BUS RIDING TEAM

The Los Angeles County Sheriff's Department's Transit Policing Division (TPD) Bus Riding

Team is a Community Oriented Policing (COPS) based unit dedicated to improving the quality of life and safety for all Metropolitan Transportation Authority (MTA) bus operators and patrons.

Introduced in September of 2014, the team initially met with Metro executives and Bus Division Managers to educate themselves on the needs of Metro and to gain a true understanding of the bus operator's perspectives and concerns. The mission of the Transit Policing Division Bus Riding Team is to reduce operator and patron assaults, improve the quality of life on the transit system and increase the perception of safety for all Metro bus operators and patrons. BRT Team Members will foster a positive working relationship with all Metro employees and develop an atmosphere of respect, trust and enthusiasm towards the common goal of providing a safe bus riding experience for all patrons. The primary function of the TPD Bus Riding Team is to conduct bus boarding and ride operations on pre-determined lines selected for enforcement by Intelligence Led Policing (ILP) driven statistics. Bus Riding Team Members will build a rapport with bus operators and patrons allowing them to gain valuable intelligence needed for effective deployment and enforcement. Bus Riding Team Members will conduct periodic patrol checks of bus divisions and attend operator "Rap Sessions" to while in the field, Bus Riding Team Members will assist patrol units with the handling of priority and emergent calls for service for the purpose of maximizing officer safety, efficiency, and to minimize response times.

QUALITY-OF-LIFE CRIMES

Finally, CIT will continue to provide plainclothes (and/or uniformed) deputies as resources to specifically address problems that occur on the buses and rails throughout the year that exceed baseline patrol capacity.

FOSTERING AND SUSTAINING COMMUNITY PARTNERSHIPS

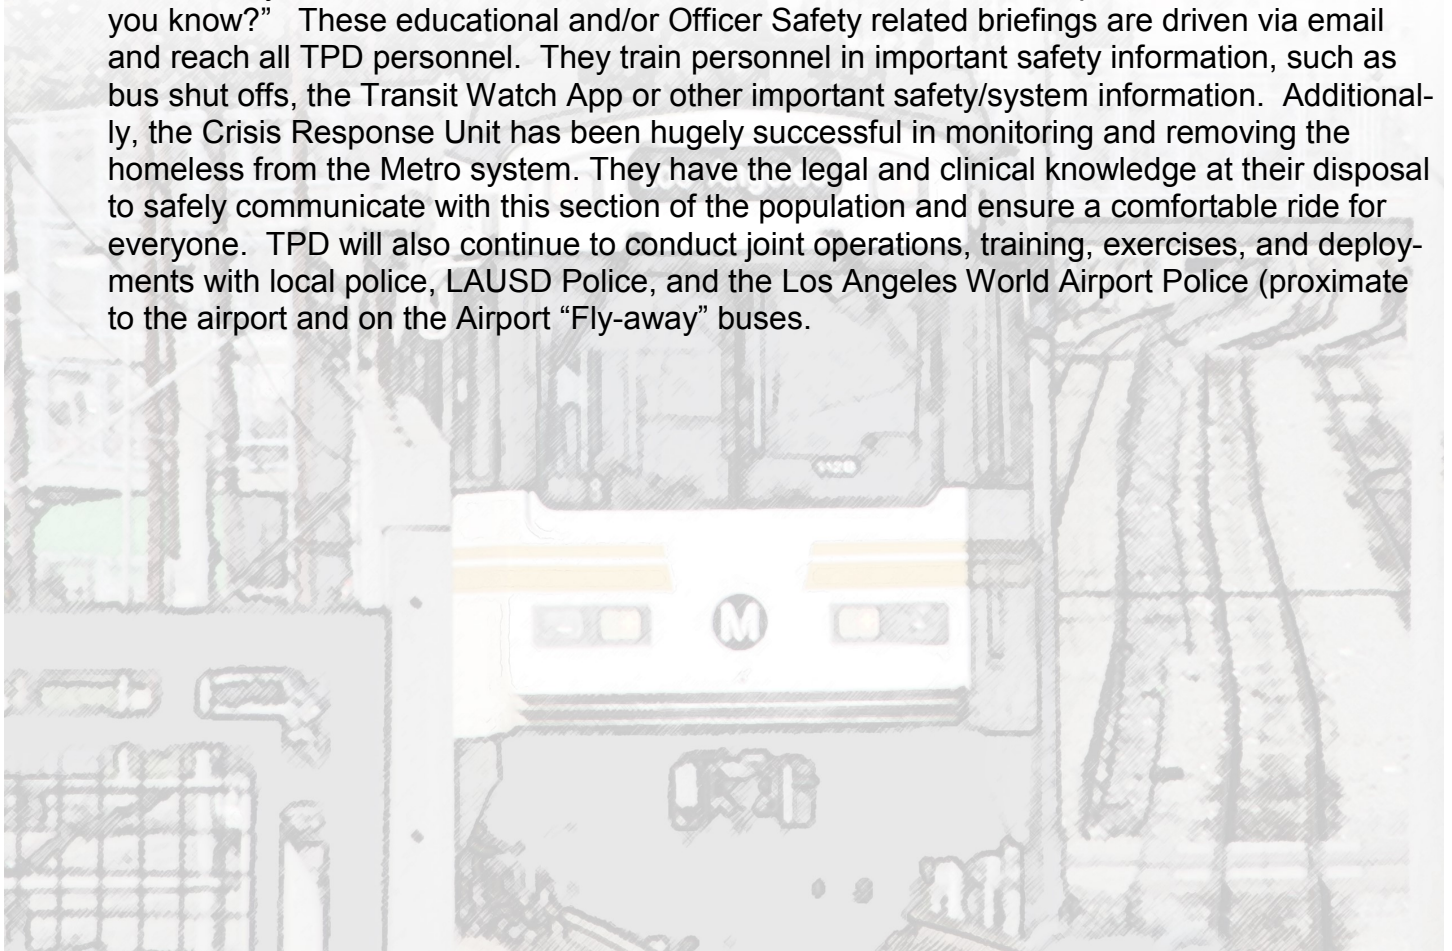

The Transit Policing Division has already vetted and begun to implement many of the recommendations made by Bazilio Cobb Associates, after their audit. None the least of which being the re-emphasis of community policing as it pertains to transit security. TPD continues its close working relationship and communications with Metro. This involves nurturing and sustaining a collaborative climate of mutual respect, recognition, and problem-solving. Our Crime Impact Teams and Bus Riding Team have been focusing on the quality of life issues that are most important to

Metro and the transit community. The Threat Interdiction Unit also continues to be the lead with a focus on threat assessments and implementation of training of all field personnel (LASD & Metro) dealing with these same issues. The TPD Liaison interacts with Metro, local law enforcement and the community when new transit projects are being built. Public and rail safety issues are discussed to allow for appropriate input before start of service.

Relationships have been fostered with partner agencies and community stakeholders who Metro and LASD serve. TPD regularly meets with lo-

cal agencies such as Long Beach, Santa Monica, and the Los Angeles Police Department, as well as continued attendance at agency briefings and stakeholder community meetings. TPD will continue to work collaboratively with Metro in providing Public Service Announcements aimed at enhancing the public's perception of a safe transit system, curbing Operator assaults, reporting suspected child exploitation or inappropriate and/or unlawful sexual advances on the system. TPD has created and will continue the recurrent publication entitled "Did you know?" These educational and/or Officer Safety related briefings are driven via email and reach all TPD personnel. They train personnel in important safety information, such as bus shut offs, the Transit Watch App or other important safety/system information. Additionally, the Crisis Response Unit has been hugely successful in monitoring and removing the homeless from the Metro system. They have the legal and clinical knowledge at their disposal to safely communicate with this section of the population and ensure a comfortable ride for everyone. TPD will also continue to conduct joint operations, training, exercises, and deployments with local police, LAUSD Police, and the Los Angeles World Airport Police (proximate to the airport and on the Airport "Fly-away" buses.

Goals Hand Out

SYSTEM EXPANSION

Transit Policing Division will assess the impact of Metro system expansion on staffing needs, and operations. In the near-term, this includes the expansion of the Gold Line and the Expo Line. Staffing enhancements, re-deployment (including integrated bus-rail-North-South deployment options), equipment and vehicle needs will be assessed within the evolving Intelligence-led Policing/“dynamic deployment” approach and working with Contract Law Enforcement Bureau to better serve our community.

CONCLUSION

Enhancing the level of customer service and responsiveness to our community as well as Metro is an integral component of the TPD Community Policing Plan. TPD is committed to enhancing the level and quality of service provided to the community, working collaboratively with Metro, and enhancing the quality of interaction with metro Security to synchronize the delivery of protective services to the system and the Metro Community. Achieving this strategic vision and implementing the initiatives, goals, and programs contained in this plan will require the dedication of all TPD personnel at all levels, as well as a commitment to service and accountability (both individually and collectively).

This mission requires an “all of Transit Policing Division” approach. Economic crisis, fiscal shortfalls, and a chronic terrorist threat against transit systems worldwide demand excellence in policing, securing and protecting the system and its employees, customers, as well as the surrounding community—*i.e.*, the entire Metro Community for enhancement of our community to embrace our partnership. This Community Policing Plan provides a vision for doing so. It is now the responsibility of all charged with implementing the plan to make it a reality.

Board Report

File #: 2015-1731, **File Type:** Informational Report

Agenda Number: 50.

AD HOC TRANSIT POLICING OVERSIGHT JANUARY 21, 2016

SUBJECT: MONTHLY UPDATE ON TRANSIT POLICING PERFORMANCE

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE **monthly update on transit policing performance.**

ISSUE

On September 4, 2014, the board requested that staff provide a monthly update on transit policing performance to Systems Safety and Operations Committee. Specifically, the board requested monthly updates on criminal activity, fare enforcement, response time, deployment and perception of safety.

DISCUSSION

In November 2015, staff continues to be proactive in working with Operations, Los Angeles County Sheriff's Department (LASD), and Communications in addressing perception of safety, criminal activity, fare enforcement, response time, and deployment. Below are the key highlights:

Actions to Improve the Ridership Experience

- Staff is working with Communications to develop a marketing campaign for the Transit Watch Los Angeles app which includes a Facebook promotion. Staff is continuing to increase presence on the system using new technologies and redeployment of personnel.
- High Visibility
 - Transit Security Officers (TSO) and Los Angeles County Sheriffs have been engaging and interacting with patrons and operators to increase presence and increase the perception of safety on the Metro system.
 - TSO Bus Boarding Activity: The total number of TSO Bus Boardings for the months of October and November 2015 is 4,610. The total number of fare checks is 45,684.
 - LASD Bus Riding Team (BRT): The total number of BRT Bus Rides for the

months of October and November 2015 is 1,604. The total number of fare checks is 81,326.

Criminal Activity:

OCTOBER 2015

Bus Operator Assaults:

- Comparing January-November 2014 to January-November 2015, there has been a 17% increase of operator assaults. Of the 1555 total operator assaults for January-November 2015, 63.2% of the Aggravated Assaults, 33.1% of the Non-Aggravated Assaults, 75% of the Robberies, and 40% of the sex crimes have had a suspect taken into custody. The majority of bus operator assaults are fare related followed by no reason and disorderly conduct.
- Attachment C contains the matrix for the suspects who have assaulted Bus Operators that

LASD has been tracking.

- Of the 155 total operator assaults from January-November 2015, there were 19 Aggravated Assaults, 127 Non-Aggravated Assaults, 4 Robberies, and 5 Sex Crimes. Of the 155 assaults, 67 suspects used their hands/feet for the method of assault, followed by 43 suspects spitting, 15 throwing food or liquid, 12 using a weapon, 11 throwing other objects, 2 pepper spray and 5 sexual harassment incidents.
- From January-November 2015, there have been 112,638,136 bus boardings and 155 total operator assaults, equating to 1 bus operator assault per 3.2 million boardings.

Operator Safety:

- As of December 15, 2015, New Flyer has installed video monitors on over 400 Metro buses, and operator barriers on 250 Metro buses.
- In September 2015, Metro's Board of Directors approved a contract modification to have all New Flyer 5600 and 3850 series buses retrofit with both operator barriers and video monitors. When this retrofit is complete in late 2016, all 900 New Flyer buses ordered under contract OP33202869 will have video monitors and operator barriers installed.

LASD Success Stories

- **10/06/2015** - At approximately 8:24am, a female victim was sitting next to the suspect on a Gold Line train when the suspect touched the victim once on her knee. The victim proceeded to get up from her seat and move away from the suspect. It appeared the suspect was going to try and touch the victim again, when another patron on the train restrained him.

Upon receiving the call, the Transit Policing Division Dispatch Center dispatched units to the South Pasadena Station, where the train had come to a stop. The victim did not want to press charges against the suspect; however a report was completed documenting the incident. During the course of the investigation, it appeared that the suspect was suffering from a mental illness and was a danger to himself and others. Deputies requested a Crisis Response Unit (CRU) to respond to assist with a 72 hour mental evaluation hold on the suspect.

- **11/05/2015** - During the early morning hours, LASD Transit Policing Division's Crime Impact Team #2, detectives, Crime Impact Team #1, K9 detail, and several other LASD county-wide units, served search warrants on 11 locations searching for graffiti vandals who were responsible for thousands of dollars in damage to the Metro system. A particular tagging group or crew was targeted. These members had taken to vandalizing Metro buses, trains, and property.

After thorough searches and follow-up investigations were concluded, nine suspects were arrested for felony Vandalism. One additional male was arrested on an outstanding warrant and one suspect remains at large. Numerous pieces of evidence were also seized, connecting the suspects with their crimes. Protecting Metro property and the transit

community remain a top priority to the Transit Policing Division.

- 11/09/2015** - During the morning hours, Transit Policing Division deputies responded to a call of a man down on a Metro bus in the Highland Park area of Los Angeles. A homicide investigation was initiated by detectives from the Sheriff’s Department’s Homicide Bureau. On **11/10/2015**, Crime Impact Team #1 deputies conducted extensive searches, followed up on leads, and ultimately located and arrested the suspect who matched the description of the person who was believed to be responsible for the death of the Metro bus patron. Homicide detectives subsequently interviewed and charged the person with Murder.

Fare Enforcement:

- In November 2015, law enforcement performed 639,494 fare checks on the rails and Orange Line. In comparison, law enforcement performed 632,345 fare checks on the rails and Orange Line in October 2015, resulting in an increase of 7,149 fare checks from October 2015 to November 2015.

Response Time:

- In October 2015, the average response time for “Calls for Service” (Emergency, Priority and Routine) for all rail lines and buses was 18.42 minutes. In November 2015, the average

response time for "Calls for Service" (Emergency, Priority and Routine) for all rail lines and buses was 18.47 minutes.

- LASD currently complies with Metro's Performance Metrics requirement of average of 30 minutes for calls for service. The response time for emergency calls was 5.1 minutes for October 2015 and 5.1 minutes for November 2015.

*Each month, Reserve totals will display totals from the previous month because totals are not submitted until the end of each month.

The LASD reserve units are attached to regular LASD units of assignments. The reserves are there to perform the same function as any deputy. In that way, the reserves augment the force at no increase in cost. Contract agencies benefit significantly by the presence of reserves since they are directly paying for the LASD contract and do not have to pay for the additional reserve force.

*Each month, Reserve totals will display totals from the previous month because totals are not submitted until the end of each month.

The LASD reserve units are attached to regular LASD units of assignments. The reserves are there to perform the same function as any deputy. In that way, the reserves augment the force at no increase in cost. Contract agencies benefit significantly by the presence of reserves since they are directly paying for the LASD contract and do not have to pay for the additional reserve force.

*N/C = Not Complete

AD-HOC TRANSIT POLICING OVERSIGHT COMMITTEE

JANUARY 21, 2016

SUBJECT: OFFICE OF THE INSPECTOR GENERAL REPORT ON METRO POLICING AND SECURITY WORKLOAD AND STAFFING ANALYSIS

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE this **Office of the Inspector General (OIG) report on the review of Metro policing and security workload and staffing analysis.**

ISSUE

The Metro Board directed the Inspector General to hire an expert consultant to conduct an in-depth analysis of workload, a risk assessment, risk mitigation strategies, and the staffing and deployment needs and approach to implement these strategies to provide a foundation for evaluating future options, and to arrive at the optimum number and mix of law enforcement and security personnel.

DISCUSSION

1. Scope of the Review

The OIG prepared a comprehensive scope of work for a Request for Proposal to obtain an expert consultant to perform an analysis of policing and security workload and staffing. BCA Watson Rice was hired to perform this review. The review team included recognized policing experts including the former Chief of Police for the Massachusetts Bay Transportation Authority. The primary objective of this review was to study the law enforcement and security workload, identify key risks for the Metro System, identify risk mitigation strategies, and identify staffing needs and staffing options.

2. Report Summary

The consultant completed the review and issued a comprehensive report on Metro policing and security workload staffing and analysis in January 2016 (see Attached Report).

The consultant recommends that for Metro to be effective and cost efficient, there must be an

appropriate match between the mission and the resources used, to provide safety and security services. The priorities developed by the Working Group established by the Board, to which Metro Enforcement and Security Personnel must respond are:

- **Addressing Crime and Responding to Calls for Service or Incidents** requires sworn law enforcement officers who have full powers to detain and arrest and to use force as required to provide this mission element.
- **Providing a Visible Security Presence** on the Metro System as a deterrent to crime and disorder, as well as other critical incidents like terrorist attacks. This service could be provided by law enforcement personnel, but may also be provided by well-trained and well-managed security personnel.
- **Enforcing Fare Compliance** on the Metro System, as well as enforcing Metro's customer code of conduct. Providing this service does not require law enforcement sworn personnel or security personnel.
- **Protecting Metro Critical Infrastructure** (Union Station and the Gateway Metro Headquarters Building) Union Station protection strategies include routine patrol, K9 explosives detection, and random passenger and baggage screenings currently conducted by law enforcement personnel. The Gateway Building security is currently provided through armed security officers. Providing critical infrastructure protection of the Gateway Metro Headquarters Building is a security function, and does not require law enforcement personnel.
- **Providing Security for Metro Facilities and Operations** through security units that patrol the various Metro facilities and provide a visible security presence for those facilities. In addition, Metro revenue operations security and protection is provided through security escorts of Metro revenue collection personnel, and security presence in the Metro cash counting facility. Security personnel also provide a visible security presence and deterrent to assaults or other actions against Metro pressure washer personnel that clean various Metro stations and facilities during the overnight hours. Providing security for Metro facilities and operations is a security function, and does not require law enforcement personnel.

The resources available to Metro to respond to these priorities by Metro Safety and Security include:

- **LASD Transit Policing Division (TPD)** has established a strong partnership with Metro and currently provides sworn law enforcement personnel to fulfill the safety and security mission of the Metro rail and bus system and Union Station. These law enforcement personnel are fully trained and equipped and have powers to detain and arrest and use force as needed. They are currently responsible for responding to incidents and calls for service, addressing crime and related issues, and providing a visible security presence throughout the Metro Rail and Bus System. These law enforcement personnel are also responsible for enforcing fare compliance and the Metro customer code of conduct throughout the System.

The TPD also provides uniformed Security Assistants (SA's) to Metro under contract. These SA's are not sworn personnel, nor are they qualified or certified as security personnel. The

SA's are not armed and have no authority to detain or arrest. The role of the SA's is limited to checking fare compliance and issuing administrative citations.

- **Local Law Enforcement Agencies** exist throughout the Metro service area to respond to and handle incidents and calls for service within their jurisdiction, and have a responsibility to do so. This is part of their basic service as law enforcement agencies. Similarly, these agencies have a responsibility to provide these same basic services to Metro buses and trains within their jurisdictions consistent with the service provided to all others within their jurisdictions. Metro should not have to contract with these agencies for these basic services, but may choose to contract for dedicated or supplemental resources from local law enforcement agencies.
- **Metro Security** includes uniformed and armed or unarmed security personnel primarily responsible for providing security for the Gateway Metro Headquarters Building, and for Metro facilities and operations. Metro Security officers are neither sworn nor certified law enforcement officers and do not have the authority to detain or arrest nor use force except in a defensive mode. Metro Security personnel could potentially play a substantial role on the Metro rail and bus systems by providing the security element of the Metro safety and security mission. However, several key issues must be resolved prior to assuming such a role. The primary need is to resolve ongoing questions regarding the authority these security personnel have, and the entity or agency responsible for granting and overseeing that authority. Metro also contracts for private security personnel.

The report estimates the annual hours required to provide security for each key service (e.g. rail system, bus system, critical infrastructure, etc.). For each key service category, the report provides staffing and deployment options (e.g., contract law enforcement, armed security officers, unarmed security officers, etc.) and cost estimates where data is available. A mix of these personnel could also be used to provide the services. The report also makes 15 recommendations that are being reviewed by Metro management.

3. Other Major "Take Aways" From the Study

- Assign the appropriate level of personnel to the priority in the quantity indicated by the data on calls or hours required;
- Assign personnel to cultivate collaboration with local law enforcement agencies for free basic services, regardless of what other options present themselves from responses to the RFP Metro will issue; and
- Ongoing data will be required to constantly reassess security needs. In the short term, develop or acquire a cell phone software application for better data collection to respond to immediate needs. In the long run, Metro should participate in the LASD development of a new Computer Aided Design (CAD) based data system that may be available in 3-5 years, or obtain its own CAD system.

NEXT STEPS

Metro management should:

- Review and analyze the findings and recommendations in the report and take appropriate actions.
- Complete Exhibit 2 in the report to include Metro responses, comments, and actions being taken for each recommendation.
- Periodically report to the Metro Board on the progress of completing implementing the report recommendations.
