Director Stanger reminded staff that he has concerns about shifting target numbers and would like further explanation. Staff expressed understanding and explained that CEO Wiggins is the accountable executive and must sign off on the target numbers, which is yet to occur.

Chair Rajmaira inquired whether the data set presented on slide 4 was the same as previously seen, to which staff confirmed the date is from FY23. The Chair also expressed interest in how this data is used to manage business operations. Staff explained that rolling stock has a useful life of 12 years, rail cars 30 years, and operations are responsible for ensuring that our rolling stock is rolled out safely. The Chair questioned if the forecast targets mentioned were used for other entities besides the FTA, and staff confirmed that this information is shared with others such as the grants department.

6. SUBJECT: TRANSIT AND HIGHWAY CAPITAL PROJECTS**2024-0507**

RECEIVED oral report on Transit and Highway Capital Projects to support discussion on the effective and efficient use of funds.

Director Stanger asked why the Airport Metro Connector is scheduled to open by the end of 2024 if the people mover will not be operational at that time. Staff responded that they are working to open Airport Metro Connector to provide connectivity to the K Line, which will alter its operational plan. During this change, staff is coordinating with LAWA regarding shuttle service changes.

Chair Rajmaira expressed concern about the Airport Metro Connector schedule slipping and asked why the settlement was not noted on the slides. Staff clarified that the settlement was not finalized as of July, but the project remains on track for substantial completion without delays.

Director Stanger asked about changes in the I-5 project and staff explained that there has been some disagreement about the critical path shift, but the change is minor. He also inquired about the status of the Committee's recommendations from the 5-year assessment and a discussion ensued. His concern was that it has been a year since the Committee's recommendations were made, and it is still unclear what their resolutions might be. Staff responded that the recommendations were part of an overall report to the MTA Board that has not yet been made.

MEASURE M INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE DECEMBER 11, 2024

SUBJECT: TRANSIT OPERATIONS AND MAINTENANCE BUDGET AND SERVICE METRICS

ACTION: ORAL REPORT

RECOMMENDATION

RECEIVE oral report on review of the Measure M transit operations budget and countywide bus service metrics to support discussion on the effective and efficient use of funds.

ISSUE

To support the discussion on the effective use of Measure M fund budget and expenses, this report provides: 1) efficiency and effectiveness metrics for Metro's systemwide service during fiscal year 2024 (FY24), 2) FY24 budget versus actual data for Metro operations and maintenance, 3) Measure M transit fund allocations and expenditures for each Los Angeles County bus operator, and 4) the most recent National Transit Database efficiency and effectiveness data for Los Angeles transit operators receiving Measure M funding.

EQUITY PLATFORM

Under Board-adopted Measure M Guidelines, the Measure M Transit Operations and Maintenance 20% funds allocated to transit agencies support the implementation of various transit services and improvements throughout the region. Twenty percent of Measure M Ordinance funding is allocated to Metro and the municipal transit operators on an annual basis by formula based on vehicle service miles operated and a fare unit ratio that serves as a proxy for ridership and is intended to enhance mobility for transit users and individuals with disabilities.

DECEMBER 11, 2024****SUBJECT: ORAL REPORT ON LOCAL RETURN****ACTION: ORAL REPORT****RECOMMENDATION**

RECEIVE oral report on Local Return programmed revenues and uses for Los Angeles County jurisdictions to support discussion on the effective and efficient use of funds.

ISSUE

To support the discussion on Local Return revenue amounts programmed and usage by each Los Angeles County local jurisdiction, this report provides a quarterly update and presents the status of Local Return funding in the second quarter of fiscal year 2025 (FY25). This includes audit updates, a summary of Measure M fund uses within the second quarter, and updates on current points of concern with Metro's Board of Directors.

EQUITY PLATFORM

Local Return receives a 17% revenue share of the Measure M Ordinance funding that is apportioned to local jurisdictions by population. Under Board-adopted guidelines, this item enables the programming of funds to recipients to support the implementation of various transportation projects and improvements throughout the region. This includes improvements for public access, paratransit services for seniors and individuals with disabilities, and transit subsidies for students and low-income residents. Local jurisdictions make the determination of the projects that are most beneficial for their communities.

Local Return – Updates

The Local Return Workshop went over audit requirements. Cities were notified that the close of the fiscal year was June 30, 2024, and that they needed to have all of their projects approved on or by that date. Broadcast emails have been sent to cities regarding other due dates and potential lapsing dates.

The FY2023-24 audit process is on-going and will end December 31, 2024. Final audits will be available in January and a summary of audit findings will be presented to the Oversight Committees.

In March 2023, Metro Board approved the Bus Shelters Motion directing staff to investigate Local Return investment into bus stops, among other efforts.

- To date 4 cities have used Measure M Local Return funds for bus stops
- Most cities use other local return fund sources for bus stop improvements
- This will inform planned Quality of Life Scorecard which will assess how pass-through funding supports local infrastructure including bus stops

ACTION: RECEIVE ORAL REPORT

RECOMMENDATION

RECEIVE oral report on State of Good Repair budget and expenses.

ISSUE

To support the discussion for the effective and efficient use of funds, this quarterly presentation provides the committee with Metro's status in meeting State of Good Repair (SGR) requirements per the Federal Transit Administration's Transit Asset Management (TAM) Rulemaking. This includes progress on condition assessments performed by Enterprise Transit Asset Management (ETAM) in support of the implementation of the new Enterprise Asset Management (EAM) system.

EQUITY PLATFORM

The Enterprise Transit Asset Management (ETAM) assessment contracts cover all Metro-owned stations, tunnels, bridges, facilities, and buildings that house Metro employees. The ETAM assesses all of Metro's structures and facilities to prevent major disruption of service to Los Angeles communities. Ensuring a state of good repair directly benefits riders, particularly those from Equity Focus Communities, who are more reliant on public transportation for their daily needs.

Setting and Using Targets – Response to Director’s Comments

In response to Director’s comment about more explanation of target numbers at the 10/3/2024 MMITOC meeting:

Rolling Stock:

- Buses: Deliveries continue to be impacted due to supply chain issues; therefore, affecting retirements.
- Rail Vehicles: HR4000 supplier is challenged due to production issues.

Non-Revenue Vehicles:

- Delivery delays are expected to continue due to supply chain delivery disruptions, significant price increases, and rebidding of procurements due to lack of bids from dealers.

Facilities: No change in targets as facilities continue to be in adequate or better overall condition.

Infrastructure:

- Slow Zone target setting considers vandalism (such as fence cutting and cable theft) which continues to be a factor in responding to unscheduled maintenance.

Use of Targets by Others:

- ETAM reviews data to formulate targets and performance, is shared with Operations and Finance for their consideration of capital project budgeting and by Planning for considering SGR needs in the Short- and Long-Range Transportation Plans.
- Targets and performance are shared with SCAG for use in setting regional targets for Southern California transit operators.

- North Segment (Phase 2) -- Design to resume with Measure M funds. Construction funding gap estimate is \$259M. ★★

Multimodal Elements

- HOV lanes will encourage carpool, vanpool and transit (bus) usage, replace structurally deficient and non-ADA compliant pedestrian overcrossing, and reconstruct 2 railroad overpasses to meet new standards and facilitate more goods movement.

Phase 1 Challenges

- Resolve construction schedule delays and outstanding claims prior to contract acceptance in October 2025.

2 Phase 2 Challenges

Board Report

File #: 2024-1029, **File Type:** Oral Report / Presentation

Agenda Number: 7.

MEASURE M INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE DECEMBER 11, 2024

SUBJECT: MEASURE M ACTIVE TRANSPORTATION UPDATES

ACTION: ORAL REPORT

RECOMMENDATION

RECEIVE oral report on Measure M Active Transportation, programmed revenues, and uses to support discussion on the effective and efficient use of funds.

ISSUE

To support the discussion for the effective and efficient use of funds, this quarterly presentation provides the committee with the status of Metro active transportation activities related to Measure M projects including the LA River Waterway & System Bike Path, the Metro Active Transport Program, Multi-Year Subregional Program, and the First/Last Mile Program.

EQUITY PLATFORM

The Measure M related activities for active transportation include the Active Transportation Strategic Plan (ATSP) and subsequent Metro Active Transport, Transit and First/Last Mile (MAT) Program, as well as two projects in the Measure M Expenditure Plan that will connect the bike path gaps along the Los Angeles River. Metro also engages in First/Last Mile planning for communities to access existing and future major transit stops. Equity is built into Metro's approach to all of these activities.

The 2023 ATSP identified and prioritized a regional active transportation network based on criteria, including overlap with Equity Focus Communities (EFC). Projects in the ATSP regional network are eligible for MAT Program Cycle 2 funding. MAT Cycle 2 project applications will also be evaluated based on factors including robust partnerships with Community Based Organizations (CBO). Project applications that were submitted for MAT Cycle 1 in 2020 were given bonus points for locations within EFCs. All selected projects that are being developed using Cooperative Agreements with Metro include CBO partnerships.

The LA River Project - Central City section directly serves seven EFC census tracts in the communities of Lincoln Heights, Chinatown, and Boyle Heights. Approximately 23% of the population in this area lives under the poverty line and more than 22% of the working-age population does not use cars as a primary mode of transportation. This path will not only be used for recreational purposes but also serve as a low-cost transportation option for those who have limited car ownership. The LA River Project - San Fernando Valley section directly serves two EFCs in the community of Reseda. It is being delivered by the City of Los Angeles.
