Dear Metro Board Members,

My name is Amy Chatfield, a resident of Los Feliz. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. I personally have attended over 50 such events and I really appreciate and enjoy getting to explore this amazing city in a slower pace and bring the joy of bicycling to everyone.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration.

Amy Chatfield

Dear Metro Board Members,

My name is Colin Bogart and I'm a resident of Pasadena. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Please make open streets events a permanent, dedicated program. I'm surprised the open streets program isn't already permanent, given how successful the program has been. In 2010, when CicLAvia first launched in Los Angeles, there were doubts it would be successful. Now the name CicLAvia is widely known and loved for open streets events.

Please ensure that funding is secured to keep open streets events going in 2027, 2028 and beyond. Some cities do open streets events on a weekly or monthly basis. We can at least do them multiple times per year.

Please protect open streets events as a means to allow millions of LA County residents to experience active transportation, public transit, and what a safer, healthier, more vibrant Southern California feels like.

Please pull this item from consent and support the open streets program.

Thank you for your consideration.

Board members,

Please pull agenda items 13 (file 2026-0432) from the consent agenda for full discussion. Pausing the funding for these events until after the Olympics will kill one of the leading community events that events like CicLavia bring. Additionally, please make the funding for these open street events permanent as to not have to beg for funding every few years when the heat dies down. Do your job and serve the community.

Dear Metro Board Members,

My name is Matthew Bazar, and I live in Leimert Park. I am writing to urge you to remove Agenda Item #13 (File 2026-0432) from the consent calendar and consider it through a full Board discussion.

The current staff recommendation would leave large-scale open streets events without dedicated funding through 2027 and into the first half of 2028, while postponing any long-term program decision until after the 2028 Olympic Games.

This approach places organizations such as CicLAvia and programs like ActiveSGV's 626 Golden Streets and Active Streets in a vulnerable position. The value of these events extends well beyond major metropolitan areas. Communities across the county rely on them to provide safe opportunities for walking, biking, and transit use in places that have historically lacked investment in active transportation infrastructure.

Metro has spent years cultivating and expanding the open streets movement. Scaling back support now runs counter to the agency's own mobility, ridership, and multimodal transportation goals at a pivotal moment when Los Angeles is preparing to welcome a global audience.

I respectfully ask the Board to:

- Direct staff to identify funding solutions that allow open streets events to continue without interruption.
- Provide funding through 2027 and into 2028 rather than postponing action.
- Establish open streets as a permanent, dedicated Metro program instead of a grant-funded initiative subject to recurring uncertainty.
- Preserve the multi-neighborhood, four-plus-mile event model that has proven successful throughout the region.

Please pull this item from consent.

Thank you for your consideration,
Matthew Bazar

Dear Metro Board Members,

My name is Rachel Algar, a resident of Santa Clarita. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

--

Thank you,

I wanted to take a moment to express my support for CicLAvia and the positive impact it has on Los Angeles.

Events like CicLAvia do much more than encourage people to get outside and be active—they bring communities together in a way that is difficult to achieve otherwise. By opening the streets to cyclists, walkers, and families, people have the opportunity to experience neighborhoods they may never have visited before. That exposure helps local businesses, highlights the unique character of each community, and encourages people to return long after the event is over.

I believe CicLAvia is an investment in Los Angeles. It promotes healthier lifestyles, strengthens local economies, and reminds us how connected our communities really are. It's refreshing to see an event that creates positive experiences while showcasing neighborhoods that deserve more attention.

Thank you for continuing to organize and support this wonderful event. I hope to see CicLAvia continue to grow and inspire even more people to explore everything Los Angeles has to offer.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running

now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Sincerely,

Roger Saiki

Dear Metro Board Members,

My name is Paula Achter, a resident of Boyle Heights and Santa Monica. I am writing to request that you pull Agenda Item #13 (File 2026-0432) from the consent agenda for a full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028, delaying any permanent program decisions until after the 2028 Olympics. This timeline puts open street organizations like CicLAvia and programs like ActiveSGV's 626 Golden Streets/Active Streets at serious risk. These events are vital for smaller cities to provide safe walking, biking, and transit access to neighborhoods that otherwise lack active transportation infrastructure investment.

Walking back these initiatives undercuts Metro's own ridership and multi-modal goals just as the region prepares to host the Olympics.

I ask the Board to take the following actions:

- Direct staff to find a funding solution to keep open street events running now, rather than suspending the program for over two years.
- Fund open street events through 2027 and into 2028 without delay.
- Establish open street events as a permanent, dedicated program rather than a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made these events successful.

Please pull this item from the consent agenda. Thank you for your consideration.

Best regards,

Paula Achter

Dear Metro Board Members,

My name is Sarah Mueller, a resident of Koreatown. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Destroying the city and kneecapping the events that make it great for residents (like CicLAvia) for the LA28 Olympics is not what the city should be doing. This city is FOR the people that live here, not major events that bring in tourism. I am also excited for the Olympics, but not at the cost of the city for the next two years. I am a metro rider who loves everything this city is about, please don't ruin the hard work of people trying to increase metro ridership and walkability in the city.

CicLAvia is a celebration of Los Angeles. To go to a CicLAvia event is to openly love LA, its neighborhoods, its diversity, its people. Please think about what it would say about you if you were to cause the loss of that celebration of LA, a healthy celebration of LA, where children are on scooters, families on bikes, people are roller skating, all while loving and learning about LA.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

Dear Metro Board Members,

My name is Alenna Espadas and I'm a resident of [Your City/Neighborhood]. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Dear Metro Board Members,

My name is Anthony. And I am a resident of LA County. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Anthony Kostowny

Dear Metro Board Members,

My name is Leland Powell, a resident of Sherman Oaks, I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

I moved to LA from the east coast and have enjoyed immensely exploring this grand, complex city.

CicLAvia events have been one of the many paths of exploration, which I have done on foot and by bike, with family, neighbors, and co-workers.

These events are what make LA so enjoyable, beyond the headlines of doom and gloom, of the ever over hyped collapse of the world as we know it.

LA thrives because it is a patchwork of gems- with CicLAvia one of them.

Please continue your support!

LP

Dear Metro Board Members,

My name is Elisabeth Papadopoulos, a resident of Burbank and a rider of Metro, who came to know and love public transit in L.A. by virtue of participating in open street events. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

They also increase Metro ridership by introducing new customers to the transit system, an important function for Metro's long-term financial health, especially as we prepare our city to host the 2028 Olympics. Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, while removing a community point of pride.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Elisabeth Papadopoulos

Dear Metro Board Members,

My name is Ashley Andrus, a resident of Highland Park. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Ashley Andrus

Members of the Metro Board

My name is Christopher Yep and I am a resident of East San Gabriel in unincorporated Los Angeles County and I am asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for a full discussion. Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

On a more personal note, I consider open streets events in Los Angeles County to be essential to creating a sense of community and County-wide identity. Events by organisations such as Active San Gabriel Valley and cicLAvia show a great deal of the spirit of our communities and the wider County, demonstrating how much our neighbours feel a connection to our diverse collective and wish to see it and the millions who call Los Angeles County home flourish. These events help showcase the unique tapestry of communities in each host city and the surrounding areas, creating connections to cultural displays and other events, local and regional issues, and encouraging people to explore locally-owned businesses.

Please

- Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item (Agenda Item #13, File 2026-0432) from consent.

Thank you for your consideration,
-Christopher Yep

Dear Metro Board Members,

My name is **Micah Stone**, a resident of **West LA**. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

My family and I recently enjoyed an event with thousands of other people. This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two

years before this is even revisited is unacceptable and puts the program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Micah

Hello Metro Board members,

My name is Oscar Li, a resident of Westwood. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Oscar Li

Dear Metro Board Members,

I am writing as a San Marino resident, local cyclist, and frequent participant in open street events across the region to express my strong support for CicLAvia. I respectfully urge the Board to **PULL Agenda Item #13 (File 2026-0432) from the Consent Agenda and vote AGAINST the staff recommendation as written.**

As currently drafted, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028, delaying any decision on a permanent program until after the 2028 Olympics. A funding gap of over two years puts beloved organizations like CicLAvia and ActiveSGV at severe operational risk.

CicLAvia and regional open street events do far more than provide a single day of recreation:

- Safe Infrastructure & Mobility: They offer rare, safe opportunities for families, youth, and cyclists of all skill levels to explore Los Angeles without the pressure of vehicle traffic, fostering long-term interest in active transportation and public transit.
- Community Connection: These events physically connect diverse neighborhoods—from the San Gabriel Valley to the Westside—bringing people out of their cars and into shared public spaces together.
- Local Business Impact: By opening miles of streets to foot and pedal traffic, open street events direct significant patronage to small, independent businesses and cultural institutions along the corridors.

Having experienced firsthand the incredible impact of riding through car-free streets alongside thousands of neighbors from all across LA County, I know how essential these events are to the health, vibrancy, and future of active mobility in our region. Halting funding for over two years will dismantle the infrastructure and momentum these organizations have built over more than a decade.

I urge the Board to take the following actions:

- Pull Item #13 from the Consent Agenda to allow full public discussion and transparency.

- Direct staff to identify creative bridge funding solutions that keep open street events operational through 2027 and 2028.
- Establish open street events as a permanent, dedicated Metro program, rather than forcing them to compete for survival in temporary funding cycles.

Thank you for your leadership in keeping Los Angeles active, safe, and connected.

Sincerely,

Grant Littman
San Marino, CA

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Tami Fitzkoff

Dear Metro Board Members,

My name is Jessica Pishney a resident of DTLA. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:
Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics.

A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk.

Fund open street events through 2027 and into 2028—don't delay the decision.

Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.

Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Sincerely,

Jessica Pishney

Dear Metro Board Members,

My name is James F. Flynn, a resident of Los Feliz.

I am a huge proponent of increased funding for alternate transit options in Los Angeles, and having open street events such as CicLAvia is a good way to get residents of this city more aware of and comfortable with traveling in this city in ways beyond the confines of a car.

Please pull this item from consent.

Thank you for your consideration,

James

Dear Metro Board Members,

My name is Andrew Medina and I'm a resident of Pasadena. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion. Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals. Please Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028. Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle. Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region. Please pull this item from consent. Thank you for your consideration.

Andrew Medina

Dear Metro Board Members,

My name is Heather Lockie, a resident of Montecito Heights, Los Angeles zip 90031. I'm asking you to pull **Agenda Item #13 (File 2026-0432)** from the consent agenda for full discussion.

Events such as CicLAvia make my life in LA worth staying here. There are fewer and fewer reasons for me to want to fight for my life in Los Angeles, with the sky-high costs of living, rent and general maintenance for things that used to be affordable. Open street events truly make this city unique and wonderful for people of ALL economic levels, and as such function as a great equalizer for all who live here. **Regular open-street events such as CicLAvia constitute some of Metro's greatest successes and most amazing contributions of this city.**

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. **Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.**

I'm asking the Board to:

- **Direct staff to find a creative funding solution to keep open street events running now**, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- **Fund open street events through 2027 and into 2028—don't delay the decision.**
- **Make open street events a permanent, dedicated program**, not a grant line competing for survival each cycle.
- **Protect the multi-neighborhood, 4+ mile format** that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Daniil Kurilov, a Los Angeles resident at [redacted] Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028, and defers any permanent program decision until after the 2028 Olympics. That's the wrong call.

This puts organizations like CicLAvia and programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter well beyond the region's biggest cities. Smaller cities rely on them to bring safe walking, biking, and transit access to neighborhoods that otherwise see almost no investment in active transportation.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals — right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution that keeps open street events running now, instead of shelving the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk.
- Fund open street events through 2027 and into 2028. Don't delay the decision.
- Make open street events a permanent, dedicated program — not a

grant line fighting for survival every cycle.

- Protect the multi-neighborhood, 4+ mile format that has made these events work here.

Please pull this item from consent.

Thank you for your consideration,

Daniil

Dear Metro Board Members,

My name is Allison Wolin, a resident of Bel Air. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia at real risk. This recurring local event is a wonderful opportunity for anyone to get out and be social, active, and immerse themselves in a version of LA that driving just can't compare. I look forward to being able to take my newborn daughter on future CicLAvias.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Allison Wolin

Dear Metro Board Members,

My name is Diana Hollis, a resident of Los Angeles/Mt Washington and I am asking you to please pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

Open street events have meant so much to my family. They have become one of the highlights of our year. My husband, our two teenage sons, and I love riding our bicycles through the open streets of Los Angeles together. These events allow our children to experience our city in a way they never could from inside a car. They discover new neighborhoods, local businesses, parks, and cultural landmarks while safely riding alongside thousands of people who share a love of cycling, walking, and being outdoors.

Open streets bring people together. They encourage fitness, strengthen communities, support local businesses, and create a sense of pride in Los Angeles. They also introduce many families to public transit, biking, and other forms of active transportation in a fun, welcoming environment.

Metro has spent more than a decade building this successful regional program. Walking away from it now would undermine one of Metro's best tools for promoting transit, reducing car dependence, and creating healthier, more connected communities, especially as Los Angeles prepares to welcome the world for the 2028 Olympics.

Please do not allow large-scale open street events to go unfunded through 2027 and into 2028. Instead, I respectfully ask that you:

- Pull Agenda Item #13 from the consent agenda for full discussion.
- Find a creative funding solution that keeps open street events operating without interruption.
- Fund open street events through 2027 and into 2028 rather than delaying action.
- Make open street events a permanent Metro program instead of a grant program that must fight for survival each funding cycle.
- Protect the multi-neighborhood, 4+ mile format that has made these

events such a success across Los Angeles County.

These events are an investment in healthier families, stronger communities, and a more connected Los Angeles. Please keep them alive for my family and for the hundreds of thousands of Angelenos who cherish them.

Thank you for your time and consideration.

Sincerely,

Diana Hollis

Dear Metro Board Members,

My name is Prranit Vaswani and I'm a resident of Alhambra, CA. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,

Dear Metro Board Members,

My name is Clemente, and I am a resident of Alhambra. I am writing to urge you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Open Streets events are among the most wonderful public events in Los Angeles County. They allow people to walk, bike, roll, take transit, meet their neighbors, and experience familiar streets in an entirely different way. For a day, they make our communities feel safer, more connected, and more alive—and offer a tangible glimpse of a better future for our region.

These events do more than provide recreation. They connect neighborhoods, welcome people of all ages and abilities into public space, support local businesses, and help residents imagine transportation as something other than dependence on a car. Ending their funding would undermine the progress Metro and its community partners have made over the past decade.

Please direct staff to secure funding that will keep Open Streets events running through 2027 and 2028. I also urge Metro to establish Open Streets as a permanent, dedicated program and protect the regional, multi-neighborhood format that has made these events so successful.

Please pull Agenda Item #13 from consent and give the future of this valuable program the public discussion it deserves.

Thank you for your consideration,
Clemente Cuevas

Dear Metro Board Members,

My name is Susanna Bernstein, a resident of Mar Vista/Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:
Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,
Susanna Bernstein

Dear Metro Board Members,

My name is Eli Edwards, a resident of Palms in Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

* Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
* Fund open street events through 2027 and into 2028—don't delay the decision.
* Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
* Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Ciclavia is an amazing set of events that brings Angelenos together at street level and allows us to connect with each other, learn about our cities, and enjoy the gems of Los Angeles, from East L.A. to South Central to the Valley to the Beaches and beyond. It is a treasure that benefits its participants, the organizations that help put it on, the neighborhoods and the city at large.

Please pull this item from consent.

Thank you for your consideration,
Eli Edwards

My name is Melanie Wong, a resident of San Gabriel. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Melanie Wong

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent. I am an active voter and I am watching what

actions the board will take.

Thank you for your consideration,

Justin Wang

Dear Metro Board Members,

My name is Shannon Kelsh, a resident of Los Feliz. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk

Dear Metro Board Members,

My name is Ryan Ford, and I am a resident of Del Rey in Los Angeles. I am writing to ask you to pull Agenda Item #13, File 2026-0432, from the consent agenda for full discussion.

CicLAvia and other open street events are among the most valuable public experiences Los Angeles offers. As a parent of young children, I see how important it is for families to have safe, welcoming spaces where people can walk, bike, explore neighborhoods and experience the city without the usual barriers created by traffic. These events build community, encourage healthy activity and connect residents to public transit and local businesses.

The current proposal appears to leave large-scale open street events without funding through 2027 and the first half of 2028, while postponing discussion of a permanent program until after the 2028 Olympics. That gap could cause CicLAvia and similar programs to shrink or disappear entirely. Once that infrastructure, staff and public momentum are lost, they will be difficult to rebuild.

Please direct Metro staff to find a funding solution that keeps open street events operating through 2027 and into 2028. Please also establish open streets as a permanent, dedicated Metro program and protect the multi-neighborhood, four-mile-plus format that makes these events meaningful and accessible across the region.

Los Angeles should be expanding CicLAvia as we prepare to welcome the world for the Olympics, not placing its future at risk. Please pull Agenda Item #13 from the consent agenda and give this issue the full public discussion it deserves.

Thank you for your consideration.

Ryan Ford

Dear Board Members,

I am a resident of Hollywood. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

When I first moved to LA, I did not have a car for the first 2 years out here. I am an avid user of public transit and try to encourage others to consider it over driving. Open streets events and street safety infrastructure are so important to myself and my community. I have friends who are interested in getting a bike of their own after taking them to CicLAvia events. I have made friends during Metro Bike Share Community rides and maintain a bicycling WhatsApp group. And these events are so important to bring vitality to the communities where they are held and to get people comfortable visiting certain communities.

Please bring this proposal to full discussion and give public safety and community health a fighting chance.

Thank you,

Tara Jones (she/they)

Dear Metro Board Members,

My name is Alvin Nuval, a resident of North Hollywood, and I'm asking that Agenda Item #13 (File 2026-0432) be pulled from the consent agenda for full discussion. Open streets events like CicLAvia are important for building community and connection across Los Angeles County. They help people envision a better future for themselves and encourage an active and healthy lifestyle. At every CicLAvia I've attended, I always see excited people of all ages and backgrounds exploring new neighborhoods and asking when the next event will be. These spaces matter and it would be a shame for Metro's legacy to be one that effectively kills open streets.

Thank you for your consideration,
Alvin

Dear Metro Board Members,
My name is Rob Goubeaux, a resident of West Hollywood, and an avid bicycle rider. My wife and I have taken part in many CicLAvia events since their inception in 2010. These events attract large crowds of citizens from throughout the city and allow them the unprecedented opportunity to intimately explore Los Angeles in a car free environment. As a bicyclist, I cannot tell you how enjoyable and empowering that is, in a city dominated by cars. They are amazing events, that cater to and bring together people from the entire metro area - a truly Los Angeles experience. Because of their importance to the city, I am asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the

program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Mark Lagola

Dear Metro Board Members,

My name is Sandrine Simeon a resident of Aliso Viejo, CA. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Julia Zapata and I'm a resident of Pasadena. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,

Julia Zapata

These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- **Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.**
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

The CicLAvia event is one of the few events in the city that truly make me happy to live in LA. Each time I attend an open-streets event, such as CicLAvia, I wonder to myself: Why can't we do this more?! All around me, I see a community come together, children and adults, enjoying themselves, smiling,

enjoying our city. It truly brings our community together. It would be irresponsible to keep this from us when it brings about many benefits in our lives as Angelenos. I urge you to help ensure that open street organizations and programs can continue.

Please pull this item from consent.

Thank you for your consideration,

Kimberly Nieto

Dear Metro Board Members,

My name is Teena Apeles a resident of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

PROTECT OUR OPEN STREETS.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk

Fund open street events through 2027 and into 2028—don't delay the decision.

Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.

Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

KEEP OUR OPEN STREETS EVENTS. THEY CONNECT US ACROSS THE CITY IN WAYS THAT ARE VITAL TO KEEP US THRIVING.

Please pull this item from consent.

Thank you for your consideration,

Dear Metro Board Members,

My name is Casey Law, a resident of South Pasadena. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Open and Active Street programs have created joy in our public spaces and brought our communities together. Public and active transit are the key to a more vibrant, healthy, and sustainable Southern California. Reversing this small program jeopardizes Metro's goals for ridership and multimodal transit.

Please:

- Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Respectfully,
Casey Law

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Kenya

Dear Metro Board Members,

My name is Danny Quesada, a resident of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events **unfunded through 2027 and the first half of 2028** and punts any permanent program decision **until after the 2028 Olympics**.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the

program’s survival at risk
- Fund open street events through 2027 and into 2028, don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Danny Quesada

Dear Metro Board Members,

My name is Lauren Wolchok, a resident of Eagle Rock, and a mom and physician. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia at real risk. My family and community loves participating in CicLAvia events and looks forward to them. We love having a chance to safely explore new neighborhoods in Los Angeles.

Metro helped build this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Lauren Wolchok MD

Dear board,

I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.
I am a citizen living in West Hollywood LA. These street events are important to the community and for creating a culture of the city.

On Sunday's Ciclavia event, an out of town visited and we participated. The ability to show LA off in this unique way was amazing. The best thing about LA are the people. Street wide events like Ciclavia are amazing ways the city comes together and feels united. Biking, walking, rollerblading around historic areas is a truly unique experience. It makes you feel connected to your neighbors and community. It's not just fun; events like these are what truly makes LA special. We come together as a community and unite.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.

Dear Metro Board Members,

My name is ThomasLaszlo, a resident of GranadaHills. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and delays any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

--
Thomas Laszlo

Dear Metro Board Members,

My name is Jefferson, a resident of Temple City.

I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion. This item defunds the open streets event in 2027, and the gap in events is unacceptable, especially before the Olympics. Keep it running and find the money from highway projects - this should be a permanent program as well.

Please pull this item from consent.

Jefferson

- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

On a personal note, I bought a bike to take part in these events and I know many people who look forward to this safe way of cycling around the city, seeing huge numbers of people join together, not something which is easy to achieve in LA.

Thank you for your consideration,

Steve Parkinson

Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Attaching a photo taken just this past Sun, Angelenos love CicLAvia and other open streets events and we should not have to wait for "mega-events" for them to happen.

Thank you for your consideration,
Ray Dang

I am disappointed that most of the Planning Committee and my county representative – Sup. Solis – signaled that they do not support Open Streets Programs after last week's vote.

I am a 14-year resident of DTLA, and the CicLAVia events were instrumental in showcasing not just the spirit of LA, but all the communities and businesses along the routes. Many of those include locally-owned restaurants like Casa Fina in Boyle Heights and Greyhound Bar in Highland Park.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
- Please pull this item from consent.These events have been important economic and social drivers to my own local community of DTLA for years.

PLEASE PULL THIS ITEM FROM CONSENT.

Dear Metro Board Members,

My name is Daniel Ithurburn, a resident of Baldwin Hills in Los Angeles . I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion. As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

I am an active participant in many of these open streets programs. They really foster what makes our city and county so great. I am proud that our community has something like this in contrast to it's car centric nature.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

1. Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk Fund open street events through 2027 and into 2028—don't delay the decision.

2. Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.

3. Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.
Thank you for your consideration,

Dear Metro Board Members,

My name is Brittany Ruiz, I am a resident of Eagle Rock, In Los Angeles county, USA. I am a dedicated community member of LA as well as a rider at CicLAvia, and so are my friends, my partner, and my dogs, my work colleagues, and neighbors.
I am asking you to pull Agenda Item #13(File 2026-0432) from the consent agenda for full discussion.
The success of the Metro's bold efforts of building a stronger community, in this very diverse city of people, who are now collectively rising to support this experimental movement, has proven the city agrees they want to ride the transit system, they want to bike the streets of LA, and they prove they believe in their new community by walking next to each other all at the best event this city offers CicLAvia!

Being creative is the best thing in this life and for a city to rise in such a creative way to bring its own people together and its visitors, bring the best life offers hope, joy, and inspiration to become the best Los Angelenos and proud of being a part of the community LA has to offer.

The funding for CicLAvia is fundamental for the future of Los Angeles. CicLAvia gives Los Angeles a platform to show its full of rich culture, coexisting diversity, while creating the most accomplished best city in the United States. No other city in the United States has CicLAvia,

Los Angeles is providing and promoting its core values to the entire U.S. and is influencing cities globally, Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. Let LA continue to prove this is the greatest city for its Ciclavia movement and so many more other current and future movements for its people.
There is an obvious reputation being presented of LA by continuing to fund CicLAvia let's keep our people together and keep our city great.

Keep the funding for open street events through 2027 and 2028, and to keep diligence in this decision as our city's promise to stay together, this decision should be the priority. The staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

A solution that keeps funding CicLAvia should be thought of as fundamental to the city, let the conversation create a strong and permanent place in the cities values. This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Protecting the 4+ mile, multiple neighborhood format is the best choice to keeping these events impactful. More community is brought together in this setting, It is also a great way for tourist to see the city and experience the truest form of the people of LA.

CicLAvia is Los Angeles, CicLAvia keeps LA great, CicLAvia needs to become Los Angeles's known event and the open door to the welcoming people and its communities. CicLAvia needs to be what this city is known for.

Please Pull this Item from consent.

Thank you for your time and consideration,

Brittany Ruiz.

Dear Metro Board Members,

My name is **Joanna Gang**, a resident of **Los Feliz**. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Joanna

Dear Metro Board Members,

My name is Kendall Lowery, a resident of Palms. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Kendall

Dear Metro Board Members,

My name is **Patrick Dykstra**, a resident of Los Angeles/Santa Monica. I'm asking you to **pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.**

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk! As a resident of LA County I have been to 5 or 6 CicLAvia events and many other Open Street style events, And **every single event** has been a wonderful, amazing, joyful Sunday that is filled with fun, laughter, good vibes and many more positive emotions! Open street events are an amazing way to visit neighborhoods in Los Angeles, and experience the culture, cuisine, and the community. Many other Angelinos partake in these beautiful events and so many others come from other parts of LA county to experience these neighborhoods!

I would also like to point to a perfect example of why we need Open Street events and CicLAvia. On July 19 2026 CicLAvia hosted possibly the best FIFA World Cup Final Watch Party in **ALL** of LA, The event was Meet The Hollywoods and I have never seen so many people attend a watch party and a CicLAvia! Now imagine 2028 Olympics and the crowds coming together, watching all kinds of events, using Metro, connecting with their neighbors, making new bonds and friendships. With the whole world looking at Los Angeles... seeing the streets filled with bikes, scooters, roller skates, walkers, runners, dancers, skateboarders, and every other form of Human powered and Metro transportation to gather and share a CicLAvia watch party would look pretty amazing compared to freeways and streets jammed with traffic and negative emotions!

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. And to add with the thousands of people visiting and the millions watching Los Angeles host the 2028 Summer Olympics... seeing the streets filled with bikes, scooters, roller skates, walkers, runners, dancers, skateboarders, and every other form of Human powered and Metro transportation to gather and share a CicLAvia watch party would look quite amazing compared to freeways, all the streets and roads jammed with traffic congestion and negative

emotions!

I'm asking the Board to:

- **Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk**
- **Fund open street events through 2027 and into 2028—don't delay the decision.**
- **Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.**
- **Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.**

Please pull this Agenda item 13 from consent.

Dear Metro Board Members,

My name is Jessica jones a resident of **Windsor Hills** I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

We need events like this in LA. As an avid lover and supporter of metro, this is extremely disappointing.As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Jessica jones

Dear Metro Board Members,

My name is Alyn Garcia **and I'm** a resident of **South El Monte**. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

- Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Alyn Garcia

Dear Metro Board Members,

My name is Sinziana Velicescu. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028, and delays any permanent program decision until after the 2028 Olympics.

This puts organizations like CicLAvia and programs such as ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's largest cities. Smaller communities rely on them to provide safe opportunities for walking, biking, and transit access in neighborhoods that have seen limited investment in active transportation infrastructure.

Metro has spent more than a decade building this movement. Walking it back now works against Metro's own ridership and multimodal transportation goals at a time when the region is preparing to welcome the world for the Olympics.

I ask the Board to:

- Direct staff to identify a funding solution that keeps open street events operating now, rather than postponing the issue until after the Olympics. Waiting more than two years to revisit this puts the future of these programs at risk.
- Fund open street events through 2027 and into 2028 rather than delaying this decision.
- Establish open street events as a permanent, dedicated program instead

of a grant line that must compete for funding each cycle.
- Protect the multi-neighborhood, four-mile-or-longer format that has made these events successful throughout the region.

Please pull this item from the consent agenda.

Thank you for your consideration,

Sinziana Velicescu

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Talar LaSalle

Dear Metro Board Members,

My name is Roxanne Parga and I live in East Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

Dear Metro Board Members,

My name is Lauren Harper, a resident of Los Felix. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As a volunteer at the Bicycle Kitchen, a bike repair non-profit that provides free bike repair at Ciclavia events, I know how important Civclavia is to both the Bike Kitchen and broader community. I get to tell more people about our organization and fix their bikes to get them rolling. I see thousands of people out on their bikes who I usually don't see riding through LA - young children, older folks, people with the most creative bikes. This event brings joy to thousands of Angelenos, brings together a wide diversity of people to enjoy public space, and energizes people to use alternative modes of transportation. Ciclavia days are my favorite days of the year in LA.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. Dear Metro Board Members, My name is Jenna Cobb and I'm a resident of Pasadena.

Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion. Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals. Please Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028. Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle. Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region. Please pull this item from consent.

Thank you for your consideration,

AGAINST Agenda Item #13, File — Open and Slow Streets Grant Program Update – Please Pull from Consent Agenda

Dear Metro Board Members,

My name is Erica Rodriguez, a resident of West Adams and I'm asking you to pull Agenda Item #13 (File) from the consent agenda for full discussion.

This event is important to my family- my son Gael (11) is on the autism spectrum, and my daughters- Inez (7) and Raquel (4) love it and we go to nearly every one. It's one of the reasons we even live in Los Angeles. My husband is from Bogotá Colombia and used to ride in Ciclovia there every single Sunday. Please do not cut this please please please. I beg you. My children beg you.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. Dear Metro Board Members,

My name is Jeanette Howes, a resident of the Palms area of Los Angeles. I've lived in Palms for the past 13 years, hopefully much longer.

The Ciclavia events are one of the most special and important things to me as a long time LA resident. When I learned there is currently no planned funding for more of these events until at least 2028 I was shocked and horrified at losing such an important community event. I've evangelized this event, getting friends and family to attend and to use our city's public transit and raising awareness.

I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Anna

Dear Metro Board Members,

Please protect funding for CicLAvia. It is such an important event for L.A. County. It brings us all together as a community for many reasons, most importantly because it is free -- not reserved for people with money -- and it's active fun, not passive entertainment.

Thank you for your time and service.

Dear Metro Board Members,

My name is Jesse Jones, a resident of Eagle Rock. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

My family, including my 5 and 7 year old sons, look forward to Active Streets throughout the year. I've watched them get older and more confident as we ride these special events, first in a bike seat, then in a ride along, and finally this year in their own bikes. These special events make it safe enough to ride together as a family. Please do not cut funding and take away these opportunities for long-lasting memories for my kids growing up in LA and trying to learn the joys of biking in a safe and fun environment.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line

competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Jesse

Dear Metro Board Members,

My name is Isabel Herrera and I'm a resident of El Monte. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,

Isabel Herrera

Dear Metro Board Members,

My name is Sandy Oba, a resident of the Mar Vista area of Los Angeles.. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

The staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and delays any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. My family and friends have enjoyed the CicLAvia events all over Los Angeles for many years.

I'm asking the Board to:

Please find a creative funding solution to keep open street events running now.

Fund open street events through 2027 and into 2028—don't delay the decision.

Make open street events a permanent, dedicated program.

Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Sandy Oba

Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Joselyn Sermeno

Subject: AGAINST Agenda Item #13, File 2026-0432 — Open and Slow Streets Grant Program Update - Please Pull from Consent Agenda

Dear Metro Board Members,

My name is Ian Leslie a resident of Redondo Beach. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Ian Leslie

Dear Metro Board Members,

My name is Nicole Campos, a resident of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. On a personal note, I have participated in multiple CicLAVia events, including the most recent one on July 19th, and there is no better public event for the residents of this city to get to know it and each other better. To eliminate support for such events is doing a massive disservice to a struggling city.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent. Thank you for your consideration.

Dear Metro Board Members,

My name is Karen Thai **and I'm** a resident of **Long Beach**. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

- Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Karen Thai

Dear Metro Board Members,

My name is Edmund Xu. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. For those of us who regularly attend these events and invite people to check it out for the first time, Open Streets events are transformational. It completely reshapes our understanding of how the city is laid out and how distances once thought to be far is actually really close when there is a safe place to bike.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk.

Additionally, please fund open street events through 2027 and into 2028—make open street events a permanent, dedicated program, not a grant line competing for survival each cycle. And protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Edmund

AGAINST Agenda Item #13, File 2026-0432 — Open and Slow Streets Grant Program Update – Please Pull from Consent Agenda

Dear Board Members,

I am deeply concerned by the proposed budget cuts to Ciclavia and strongly encourage you to reconsider.

Ciclavia is my and my family's favorite event in LA. Importantly for Metro, it's shaped my family's views toward transit and reconsidering the type of city LA can be.

Like many people, we cut back our use of Metro during the pandemic. Our reintroduction to the Metro system—with our new children—was through Ciclavia, when we took the D line downtown to the Heart of LA Ciclavia.

Ciclavia was our son's first time experiencing a city he could explore independently through bikes, trains and buses. It encouraged our child to learn the train lines inside and out, and every Ciclavia he talks about the different transit he can take to get there.

Seeing my kids experience Ciclavia also encouraged me to reorient my transportation away from the car. I started taking Metro whenever possible, and I now commute by bike every day. I now

rarely use my car. It wouldn't have happened without Ciclavia.

We need events like Ciclavia to show people the possibility of a city that supports pedestrians, bikes and transit. It allows us to imagine a different way of living, and it brings us together. (I can't think of an event in LA that has such a broad demographic range.) Ciclavia days are when I love this city the most because of the potential it shows. And it's made my young sons love the city (and transit) too.

Thank you,
Matt Barbabella

These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent. (https://us.list-manage.com/rqfAEw5u_SR?e=48a9fc44b0&c2id=2aa2a93e7ea032ec41bbcc8a3ddab182)

Thank you for your consideration,

Kevin Held

Dear Metro Board Members,

My name is Jennifer Vecchiarello, a resident of Atwater Village, Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

Dear Metro Board Members,

As a Downtown LA resident, I request that you pull Agenda Item #13 (File 2026-0432) from the consent agenda for a full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and early 2028, delaying permanent program decisions until after the 2028 Olympics. This more than two-year funding gap risks the survival of vital programs like CicLAvia and ActiveSGV's 626 Golden Streets, which provide essential safe infrastructure and transit access to smaller, underinvested communities. Walking back this decade-long movement contradicts Metro's ridership and multi-modal goals just as the region prepares to host the Olympics.

I ask the Board to:

- Direct staff to find an immediate, creative funding solution to sustain open street events through 2027 and 2028 rather than delaying decisions.
- Establish open streets as a permanent, dedicated program instead of a fluctuating grant line.
- Protect the successful multi-neighborhood, 4+ mile event format.

Thank you for your consideration,
PJ Farrell

Dear Metro Board Members,

My name is Joshua Koelewyn, a resident of Altadena. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028, and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. As someone in the San Gabriel foothills, I've seen how much these events matter here—well beyond the region's biggest cities. Smaller and unincorporated communities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. In a community like mine, still rebuilding after the Eaton Fire, the case for reinvesting in walkable, connected neighborhoods has never been stronger.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk.
- Fund open street events through 2027 and into 2028—don't delay the decision.

These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Kristina Lee

Dear Metro Board Members,

My name is Alex Sherman, a resident of Mid-City. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk

Dear Metro Board Members,

My name is Nicole Powe a resident of the Beverly Grove neighborhood in LA. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. My family regularly participates in these activities because it's a safe place to ride bikes in a very busy city.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Nicole Powe

Dear Metro Board Members,

I urgently request that you pull Agenda Item #13, File 2026-0432, from the consent agenda and bring it forward for full public discussion and immediate action. My name is Conor Silva, and I am a resident of West Hollywood. I was born and raised in Los Angeles, and I care deeply about the future of transportation, public space, and equitable mobility in our region.

As currently written, the staff report would leave large-scale open-street events without funding through 2027 and the first half of 2028, while postponing any decision about a permanent program until after the 2028 Olympic and Paralympic Games.

That delay places organizations such as CicLAvia and programs such as ActiveSGV's 626 Golden Streets and Active Streets at serious risk. These events are not simply recreational festivals. They provide residents with safe opportunities to walk, bike, use public transit, and experience their communities without the constant presence and danger of automobile traffic.

Their importance also extends far beyond Los Angeles and the region's largest cities. Smaller cities and historically underserved neighborhoods use open-street events to introduce active transportation, attract visitors, support local businesses, and demonstrate what safer, more accessible streets can look like in communities that often receive too little transportation investment.

Metro helped build and sustain this movement over the past decade. Allowing it to weaken now would undermine Metro's own ridership, sustainability, safety, and multimodal transportation goals—particularly as Los Angeles County prepares to welcome the world in 2028.

I respectfully ask the Board to:

• Direct staff to identify a creative and immediate funding solution that keeps open-street events operating. A gap of more than two years before this issue is reconsidered is unacceptable and could threaten the survival of these programs.

• Provide funding through 2027 and into 2028 rather than postponing the decision until after the Olympic and Paralympic Games.

• Establish open-street events as a permanent, dedicated Metro program rather than leaving them to compete for survival during each grant cycle.

• Protect the multi-neighborhood, four-mile-or-longer format that has made these events successful and regionally significant.

Open-street events are one of the clearest and most visible ways Metro can connect transportation investment with public health, community life, environmental sustainability, and equitable access. This issue deserves a full discussion and a public vote.

Please pull Agenda Item #13 from the consent agenda.

Thank you for your time and consideration.

Sincerely,

Conor Silva
West Hollywood

Dear Metro Board Members,

My name is Marc Campbell, and I am a resident of Monrovia. I respectfully ask you to remove Agenda Item #13 (File 2026-0432) from the consent agenda so it can receive full Board discussion and public deliberation.

As written, the staff report would leave countywide, multi-jurisdictional open streets events without a funding source through 2027 and into the first half of 2028, while delaying any decision on establishing a permanent program until after the 2028 Olympic and Paralympic Games.

This creates a significant funding gap for established countywide organizers—including CicLAvia—and for regional programs such as ActiveSGV's 626 Golden Streets/Active Streets. These events provide benefits well beyond Los Angeles' largest cities. Smaller cities often rely on Metro's partnership to bring safe opportunities for walking, bicycling, and transit access to neighborhoods that otherwise receive little investment in active transportation infrastructure.

Since the Metro Board adopted Motion 72 in June 2013 and established the Open Streets Grant Program framework, Metro has played an important role in growing and supporting the region's open streets movement. Through seven grant cycles (plus a 2019 mini-cycle), Metro has supported 84 open streets events across 39 jurisdictions, creating more than 328 miles of open and slow streets throughout Los Angeles County. Walking back that commitment now would undercut Metro's own goals of increasing transit ridership, encouraging walking and bicycling, and expanding multi-modal transportation, just as Los Angeles prepares to host the 2028 Olympic and Paralympic Games.

I respectfully ask the Board to:

- Direct staff to identify an immediate funding solution that keeps countywide open streets events operating, rather than postponing action until after the Olympics. Waiting until after the 2028 Olympic and Paralympic Games to revisit a permanent program creates a funding gap of more than two years and puts these successful programs at risk.

- Fund countywide open streets events throughout 2027 and into 2028 rather than delaying a decision.

- Establish open streets as a permanent, dedicated Metro program instead of requiring it to compete for limited grant funding during each funding cycle.
- Protect the region's successful multi-neighborhood, four-plus-mile open streets model, which connects multiple communities rather than supporting only isolated street activations.

Please remove this item from the consent agenda so it can receive the careful consideration it deserves.

Thank you for your time and consideration.

Sincerely,

Marc Campbell

Dear Metro Board Members,

My name is Elizabeth, a resident of Mid-City, Los Angeles (City Council District 10, County District 2). I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

I love Ciclavia so much! I attend a lot of them, and it's a thrill to discover neighborhoods that are new to me - safely, without cars threatening me as I walk, run, or bike while looking around - and to enjoy areas close to my neighborhood when they are car-free! My run group and I love to go early and do a jog together. I grew up in Boulder, CO, with a pedestrian mall, and I love that Los Angeles funds and supports events like Ciclavia so communities have an opportunity to come together safely without cars in the way. It is devastating to think of these events going away. LA residents are here now, will be here through the next two years, and will still be here after the Olympics, and we deserve nice things too.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk

Dear Metro Board Members,

My name is Mel Cutler, a resident of Los Angeles. I'm requesting to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and defers any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs at real risk. CicLAvia is closely associated with Metro, which gives it widespread credibility and support. As an avid cyclist, I ride every CicLAvia event, support the organization financially, and encourage others to attend to build up their cycling skills and learn how Metro can be used in conjunction with bicycling to explore the diverse areas of Los Angeles. I commute to all of the events as well, bringing friends to demonstrate how to use cycling and/ or Metro for transportation. One rider at a time, we can demonstrate to skeptics that multi-modal transportation in LA is a workable solution for everyone.

Although I can afford to drive a car in LA, I have not owned one since it was "totaled" by an impaired driver over 10 years ago. I'm in my late 70's so if I can do it, youngsters can too. It's a matter of asking "why not?" Rather than "why"?

Metro was instrumental in supporting this movement over the last decade, as well as the delightful support of "bike to work" activities. The latter were key to starting my bike commuting decades ago. This experience provided the base for recreational cycling experiences that have enhanced my life style. Thank you!

As suggested by CicLAvia, i'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the

decision.

- **Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.**

Please pull this item from consent.

Thank you for your consideration,

Mel Cutler

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Anna Moreno

My name is Isa Hanssen, a resident of Koreatown. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

As an Angeleno that relies on public transportation and believes wholeheartedly in a multi-modal walkable city, this move against programs such as CicLavia and Active Streets comes as a betrayal when we should collectively be actively advocating for a more walkable, accessible, and community centered Los Angeles.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Isa Hanssen

Dear Metro Board Members,

My name is Kevin Mock, a resident of Sherman Oaks. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I have attended dozens of CicLAvia's over the years with family, friends, and community groups like the Boy Scouts. This event is vital to bringing all the diverse communities of Los Angeles together for a safe and friendly experience. It is LA at its best. We should do everything we can to protect that.

I’m asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Kevin Mock

These events bring Los Angeles community together & show residents what a car free experience looks like, sounds like. This is the kind of event we need to see

expanded, permanently funded to show each other the bare minimum for what Los Angeles of the future looks like. It’s shameful that these considerations are still up for debate in 2026 after such a long period of success

Please pull this item from consent.

Dear Metro Board Members,

My name is Declan Siewert, a resident of Culver City. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:
Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Sincerely,
~Declan Siewert

Dear Metro Board Members,

My name is Acrivi Coromelas a resident of the Silver Lake neighborhood in Los Angeles . I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

Open street events are an opportunity for people of all ages who might not feel safe biking in cities to have an experience to reimagine cities, to have joy outside, and have a more active lifestyle. They build confidence, build community, and bring joy. Having just participated in a CicLAvia last weekend, I became engaged with new community groups, got to speak with new people, visited businesses, and experienced the city in a new and invigorating way it was such a wonderful experience, and the hundreds of people I saw seemed to feel the same way

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Dear Metro Board Members,

My name is Adriana Pinedo and I am a resident of La Verne. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia and ActiveSGV. These events celebrate public and active transit while bringing together millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. This is a vital creator of connectivity from neighbor to neighbor as well as resident to places in their city and beyond. Cutting funding would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals through these beautiful events that show folks what our communities could look like when we focus on transportation aside from cars.

Please

- Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Adriana Pinedo

Dear Metro Board,

Staff ignored the directive and the results will be dire, likely leading to the elimination or massive scaling back of events like CicLAvia. Open streets events expose Angelenos to things like Metro Bike Share, and Metro's train and bus services, and greatly benefit L.A. County. The Board should direct staff to find an alternative funding source to preserve open streets funding at current levels, and make it permanent, and make sure staff follow Board directions and not the other way around.

Thank you.

Dear Metro Board Members,

My name is Bryan Matsumoto, a resident of Temple City. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Maddie

Dear Metro Board Members,

My name is Glenn Sato, a resident of View Park-Windsor Hills. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the

program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Glenn Sato

Dear Metro Board Members,

My name is Victor Papke, a resident of Venice Beach. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

I have been attending these events for many years, I've ridden public transit to them, and biked through neighborhoods I usually only pass through in my car. I've raised both of my kids going to these events and they make us feel connected to the city in ways we never do in our car. Please don't put something, cherished by so many, at risk.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk

Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Victor Papke

Dear Metro Board Members,

My name is **David Arenas and I'm** a resident of **Boyle Heights**. Please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. Reversing this small but mighty program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

- Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

David Arenas

Dear Metro Board Members,

My name is MaryJo Campbell, a resident of Monrovia. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. I really enjoy these events and I ride Metro to attend the events. I've seen areas of the county I would not have seen or spent money at without these events.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. Be creative. Reduce the number/frequency of events, but don't end the funding.

I'm asking the Board to:
• Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
• Fund open street events through 2027 and into 2028—don't delay the decision.
• Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
• Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,

M. Campbell

Dear Metro Board Members,

My name is Lisa Rowley, my husband and I enjoy the Ciclavia events tremendously and taking our new K line stop with our bikes and friends to attend them and get to know different parts of our city we don't usually explore. The last event I learned how to put my bike on the bus. We are residents of Westchester.

I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Lisa (and Dan) Rowley

Dear Metro Board Members,

My name is Tara and I'm a resident of Monterey Park and I am emailing to request that you please pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

Over the last decade, Metro built a tremendous open streets program in partnership with cities across LA County and organizers such as cicLAvia. These joyous events celebrate public and active transit, allowing millions of County residents to experience what a safer, healthier, more vibrant southern California feels like. I have many fond memories of going to open street events and hope that it can continue to inspire the next generation to consider multimodal transit.

Reversing this program now would undercut Metro's goals for ridership and multimodal transit, as well as our region's air quality and climate goals.

Please

- Direct staff to find a creative funding solution to keep open street events running through 2027 and into 2028.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Tara A. Kwan, ASW (she/her/她)

"We never know how our small activities will affect others through the invisible fabric of our

connectedness. In this exquisitely connected world, it's never a question of 'critical mass.' It's always about critical connections."

Dear Metro Board Members,

My name is Susan Requa, a homeowner and frequent Metro user in Leimert Park. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Susan Requa

21 July 2026

Dear Metro Board Members,

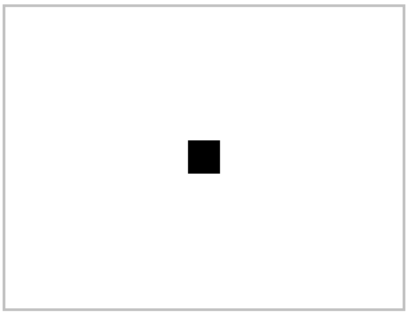
My name is Victoria Genin, a resident of and local small business owner in Granada Hills. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations that we partner with, like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. We use them to meet community members, mingle with neighbors and promote our small business to our community at large.

My understanding is that Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the WORLD for the Olympics.

I'm asking the Board to:



- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision!
- Make open street events a permanent, dedicated program, not a grant line competing for survival each year.
- Protect the multi-neighborhood, 4+ mile format that has made open street

events successful in the region.

In a time when people are being pushed further apart and community members are becoming isolated due to political and economical climates, we need you to please pull this item from consent.

Thank you for your keen consideration,

[redacted]

Dear Metro Board Members,

My name is Kelsey Weymouth-Little, and I am a resident of East Hollywood, Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. As a resident of LA, I care deeply about having access to safe walking and biking opportunities on a regular basis. Additionally, these events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited denies residents current recreation opportunities and puts the program's survival at risk.
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Dear Metro Board Members,

My name is Katie Lau, a resident of Los Feliz. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. As an enjoyer of CicLAvia I would be so so sad to see it go. I was able to see parts of the city I've never seen before in a safe and lovely environment.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Katie Lau

Dear board members,

My name is Oana, I'm a resident of the Sawtelle neighborhood and previous resident of Palms. I moved to Los Angeles in 2025 from Houston, Texas. One of the first city activities I participated in was Ciclavia, riding from Culver City to Venice and back. Coming from a city where cyclists/joggers/walkers are actively targeted by motor vehicles and hostile policymaking, I can't even describe the relief I felt to finally live in a city where pedestrians, be they moms running with their strollers, dads biking their kids to school, or teens riding their e-bikes and skateboards with their friends, are respected and celebrated as equal users of city streets. That was the one of the first impressions Los Angeles made on me - I felt welcome. Just because I chose not to drive my car didn't make me less worthy of respect and safety on our city roads. Ciclavia brought together thousands of community members in a moment of togetherness and love for our city.

I've now participated in multiple Ciclavia events with the same joy and sense of community. I was extremely dismayed to hear that funding for this and other open streets programs is not being guaranteed for the future. This is NOT something I expect from leaders of the city I fell in love with. Therefore, I am writing to ask the board members the following:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Open streets events are deeply important to many people of all ages and backgrounds in the LA community. This is a point of pride we should be bravely showing off to the international community when we are on the world stage in 2028. **Please pull this item from your consent.**

Thank you for your consideration,

Oana Pop, MPH

Dear Metro Board Members,

My name is Heather Tripp, a resident of Boyle Heights. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Heather Tripp

These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Sincerely,

Dai Tran

Dear Metro Board Members,

My name is Cathleen Kisich, a resident of Los Feliz, Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the

program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Cathleen Kisich

Dear Metro Board Members,

My name is Siona van Dijk, and I am a resident of the Arts District in Los Angeles. I am writing to ask that you pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As currrently written, the staff report leaves large-scale open street events without funding through 2027 and the first half of 2028, while postponing any decision about a permanent program until after the 2028 Olympics.

This creates uncertainty for organizations such as CicLAvia and programs like ActiveSGV's 626 Golden Streets and Active Streets. These events serve communities across the region, including many smaller cities where they provide valuable opportunities for people to walk, cycle, and use transit safely in neighborhoods that have historically seen limited investment in active transportation.

Over the past decade, Metro has played an important role in building this movement. Continuing to support these programs advances the agency's own goals around ridership, multimodal transportation, public health, and community connection. It also reflects the kind of region we hope to present as Los Angeles prepares to welcome the world for the summer Olympics.

I respectfully ask the Board to:

- Direct staff to identify a creative funding solution that keeps open street events operating now, rather than postponing the conversation until after the Olympics. Waiting more than two years to revisit this issue places these programs in an needlessly precarious position;
- Provide funding for open street events through 2027 and into 2028;
- Establish open street events as a permanent, dedicated program rather than a grant line that must compete for funding each cycle; and
- Protect the multi-neighborhood, four-plus-mile format that has made these events so successful throughout the region.

Please pull this item from the consent agenda so it can receive the discussion it deserves.

Thank you for your time and consideration--

Siona van Dijk

Dear Metro Board Members,

My name is Mitur Sakoda, a resident of Chicago, IL. I'm respectfully asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

Yes, I am not a resident of LA County, but my kid goes to college at USC and I visit the area regularly, having ridden CicLAvia a few times. It is an amazing experience and incredible sense of community.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Mitur Sakoda

Dear Metro Board Members,

My name is Sam Phillips, a resident of Pico-Union I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

I'm a mom of a toddler, and I have another on the way. We absolutely love CicLaVia. We have found it to be such a positive event to take our son to to enjoy the sunshine and learn about other neighborhoods in our city. This is such a wonderful event that brings us together, and it devastates me to think that we won't be able to take our younger child to them. I really urge you to reconsider pulling funds for CicLaVia from the budget — this is the kind of thing I want my tax dollars to be going, and any representative who doesn't facilitate that is one who doesn't represent my interests.

Thanks,

Sam Phillips

Suspending funding for Open Streets events, including CicLAvia, would mean ending (not suspending) the organizational infrastructure and uprooting the passionate staff and volunteers that make these events happen. For nonprofits, this means losing their institutional memory and damaging, I expect irreparably, the multiple partnerships and "brand" they have formed over years and years.

CicLAvia in particular encourages mass transit directly as hundreds of people take buses and light rail to reach the ride sites. Hundreds of others join feeder rides, discovering first-hand how close-by other neighborhoods really are. CicLAvia also encourages mass transit indirectly as it brings first-time visitors to new neighborhoods, reinforces our shared humanity as Angelenos, and connects so many different ethnicities and cultures.

The Olympics will be a grand time for L.A., but what will L.A. be like in two years if we sever the connections that ANGELENOS need to sustain us to reach 2028?

I've been a participant in (and donor to) CicLAvia for about 10 years and it has brought me to so many new places and introduced me to countless social-good initiatives with booths at the hubs. L.A. needs and

benefits from all the connections that Open Streets events provide.

Dear Metro Board Members,

My name is Lawrence Jordan Burchette, a resident of Silver Lake, and I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As I understand it, this will leave major open street events unfunded until the 2028 Olympics and suspend any permanent decisions about such programming indefinitely.

Of particular focus is CicLAvia, which marshals legions of people, promoting community in ways and at scales I haven't otherwise seen in this town. It generates nothing but goodwill—I've never witnessed an altercation, act of vandalism or outburst of unproductive activity the likes of which I've observed during some events in Los Angeles and elsewhere.

Programs like this actively involve people of all ages, cultures and socio-economic strata in the interest of physical activity and engagement with our environment. They introduce people to new neighborhoods and businesses, provide canvasses for expressive creativity and offer an angle on the city that couldn't otherwise be seen. They're also remarkably well run.

I'm respectfully asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than deferring the conversation until after the Olympics. A gap of more than two years before this is even revisited puts the program's survival at risk.
- Fund open street events through 2027 and into 2028—please don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

L. Jordan Burchette

Dear Metro Board Members,

My name is Linda Williamson, a resident of Granada Hills. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:
Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,
Linda Williamson

Dear Metro Board Members,

I am a resident of Silver Lake in Los Angeles, asking you to pull Agenda item #13 (file 2026-0432) from the consent agenda for full discussion.

I heard this will make CicLAvias and their ilk unfunded until after the 2028 Olympics. As someone who bikes, walks, and drives all over LA and the greater area, who hasn't shut up about CicLAvias etc since they started, who discovers new business and exciting things to explore each time they have one--this feels kind of insane.

Open Streets events connect LA residents to each other, to communities, to supporting their city and desiring to continue living in it and investing in it. The more open streets there are, the better.

Please continue to support this wonderful tradition--one that connects Los Angeles to cities and countries around the world in their commitment to mobility, exploration, and community.

Metro built this movement over the last decade. Walking it back now undercuts Metro's ridership and goals, right as the region prepares to host the world for the Olympics. Please find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. Even better--make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.

Please pull this item from consent.

Thank you,
Haley Stoessl

Dear Metro Board Members,

My name is **Danielle Castrence**, a resident of **Palms**. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the

program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Danielle Castrence

Hi there!

I am adding my voice and name to what I hope is a landslide of pushback against the plan to leave open-streets events unfunded in 2027 and 2028.

I live in Palms, I often use public transit, and I more often attend events like CicLAvia, because they're safe and joyful and show the beauty of Los Angeles.

Events like that need Metro funding, and frankly you should be falling all over yourselves to support events that encourage walking and biking and show Angelenos that there are myriad benefits to getting out of their cars and experiencing the city. You probably aren't giving them *enough* money – these events should happen 12 times a year, at minimum.

Ask anyone in Los Angeles their favorability of Metro and of LA public transit, and then ask them their favorability of CicLAvia. Do you want to take a guess at how those stack up? As a fan of Metro myself, I would prefer it if you didn't obliterate any remaining goodwill you have by endangering the future of one of the most popular LA events over the past decade-plus.

Pull the item from consent.

And here's what else you need to do:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk;
- Fund open street events through 2027 and into 2028—don't delay the decision;
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle;
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

And again: pull the item from consent.

Thank you!

Dear Metro Board Members,

My name is **Ava Doorley**, a resident of **Los Angeles**. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Michael Shanks, as a resident of the Winnetka neighborhood and long time CicLAvia participant, I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

My wife and I participated in Ciclavia this past Sunday in Hollywood. As in past events around the city I was once a again struck by how it is so awesome to have the streets open for a Sunday for people to ride, walk, roll, etc., all together. I'm so glad that Los Angeles does this! It is one of the best things the city does! Now I find out that you are about to unfund such street events? This move will make these great community events not viable - and that would be a horrible move for the city!

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

It puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Dear Metro Board Members,

My name is Reyna Recinos, a resident of Koreatown Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Reyna Recinos

Dear Metro Board Members,

My name is Rachel Hastings Saunders, and I'm a resident of Burbank. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

I was especially disheartened to hear that eliminating funding for these programs was even a possibility after attending CicLAvia just two days ago with my husband and

son. We had an incredible time at this very well-attended community event. And therefore, I urge you to **please pull this item from consent.**

Thank you for your consideration,

Rachel Hastings Saunders

Dear Metro Board Members,

My name is Erika Witt, a resident of Thai Town. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs at real risk. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

This event is an essential asset to our communities, beyond incentivizing so many people to try metro bikes or take the metro for the first time, it creates a moving park in a city where there is such a tangible scarcity. It gives opportunities for young angelenos to ride a bike safely on our streets. It shows us what LA could be when we prioritize people over cars.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Erika Witt

Dear Metro Board Members,

My name is Ryan Fiske, a resident of **Temple City**. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Ryan Fiske

Dear Metro Board Members,

My name is Ashley Ruiz, a resident of City Terrace in Unincorporated East Los Angeles. I'm asking you to **pull Agenda Item #13 (File 2026-0432) from the consent agenda** for full discussion.

I began attending CicLAvia events before I moved from Orange County to Los Angeles. Each event gave my family a chance to get to know an area, the small business, and get a feel for the neighborhood. Bigger than that, it gave me a glimpse into what Los Angeles could be with accessible, open streets.

Since moving to LA in 2023, we have looked forward to each event and the unique opportunity to see our new city from a more intimate perspective. Each event, I fall more in love with this city and the people that make this an inspiring, accepting place to live.

We also see the deep value in hosting multiple open street events per year, as it continually shifts the needle towards creating more accessible transportation and car free options in a city that desperately needs it.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk.
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you,

Ashley Ruiz

Dear Metro Board Members,

My name is Riley Vaca, a resident of Adams Normandie in the city of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

I have personally participated in multiple CicLAvia events I put them on my calendar when they are announced each year and look forward to the event as the day approaches. Open streets allows me to explore new parts of towns in new ways and connect with my own neighbors and community. It makes me more confident to ride my bike and take public transit in L.A.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.

- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Kelly Christensen, and I'm a resident of Los Angeles, living in Laurel Canyon. I'm writing to ask that you pull Agenda Item #13 (File 2026-0432) from the consent agenda so it can receive a full discussion.

As currently written, the staff report effectively leaves large-scale open street events without funding through 2027 and the first half of 2028, while postponing any decision about a permanent program until after the 2028 Olympics.

That is a serious problem.

It puts organizations like CicLAvia and programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events are about much more than closing streets for a day. They bring safe walking, biking, and transit access to neighborhoods across the region—including smaller cities that otherwise receive very little investment in active transportation infrastructure.

Metro helped build this movement over the past decade. Walking away from it now undermines Metro's own goals around ridership, multimodal transportation, and connecting communities at exactly the moment Los Angeles is preparing to welcome the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than putting the entire conversation on hold until after the Olympics. A gap of more than two years before this issue is even revisited is unacceptable and puts the survival of these programs at risk.
- Fund open street events through 2027 and into 2028 instead of delaying the decision.
- Make open street events a permanent, dedicated program rather than a grant line that has to fight for survival every funding cycle.
- Protect the multi-neighborhood, four-plus-mile format that has made open street events so successful throughout the region.

Please pull this item from the consent agenda and give it the full discussion it deserves.

Thank you for your consideration.

Kelly Christensen

Dear Metro Board Members,

My name is Hilarion Tatad, a resident of **Hollywood, CA,** I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

From: Hanui Amy Choi
To: Board Clerk

Ciclavia means so much to me and my friends. It is a chance for us to bond with our communities, learn about the history of different neighborhoods, and to exercise and move our bodies in the sunlight, and all of this is more important than ever in a post-pandemic world. We love ciclavia and we love the metro.

Dear Metro Board Members,

My name is Russell Bates. I'm a resident of the Silver Lake neighborhood of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics. Such action would be very harmful to the goals that voters in this city have expressed support for repeatedly in recent elections.

It would put street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:
• Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
• Fund open street events through 2027 and into 2028—don't delay the decision.
• Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
• Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:
Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,
Kellan Peavy

Dear Metro Board Members,

My name is Shane Schaetz, a resident of Pasadena. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:
Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk

Dear Metro Board Members,

My name is Tad Daley, a longtime resident of the Baldwin Hills neighborhood in Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

Why does virtually EVERY street need to be open to automobiles ALL the time? The Ciclavia open street festivals -- for cyclists, pedestrians, skateboarders, roller skaters, and all other humans -- are my single favorite thing to do in Los Angeles. Each time I BOTH make many new friends AND see many new neighborhoods that, usually, I just zip by in an automobile.

I'd like to see such events expanded, not contracted. I'd like to somehow find funding to close off a tiny 4 or 5 miles of LA city streets every single weekend.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the

region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
-
- Fund open street events through 2027 and into 2028—don't delay the decision.
-
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
-
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration.

Most Sincerely,

Dear Metro Board Members,

My name is Lakshya Gupta, a resident of Long Beach (Downtown). I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. I have countless friends and peers who rode the Metro for the FIRST TIME because of one of these events - "How do I experience the Metro?" "Here's an open streets event where you get to experience the city in an incredibly unique way while giving its public transit a chance".

It's a real pull for many citizens of the region who have low trust in our amazing, growing transit system. **It is one of the best advertisements Metro has, not to mention the impact this has on our city's streets.**

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Matt Rahn, a resident of the Palms neighborhood. I'm strongly asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. They build a sense of community, inspire people to be outside and active, and are economic boons for small businesses. They bring lots of people from all around the city to an area for discovery of stores and restaurants that they might not otherwise travel to check out.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk.
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Kim Haack and I am a resident of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Kim Haack

Dear Metro Board Members,

My name is Drew Clayton, a resident of Santa Monica. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

If this is a way to save money for the Olympics, consider that Olympics typically end up being a net loss for cities, despite the tourism. Meanwhile, street events that happen throughout the year directly benefit vendors at the events and the storefronts along the event routes. They are part of what makes LA so uniquely LA, while boosting small businesses and civic pride.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Please work to find a way to keep these kinds of events supported and pull this item as written from consent.

Thank you for your consideration,

Drew Clayton

Hello, my name is Denise Villalobos. I am a resident of LA County and currently living in Pomona.

Please continue to fund CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets. Those events are extremely important to me and my family as we participate every chance we get. At the most recent event, I was able to sign up and receive a free peach tree! These events bring together so many different communities in a safe and fun space.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

If Mamdani can lower subway fares and balance a budget so quickly. Surely, Metro can do the same.

Please pull this item from consent.

Thank you for your consideration,
Denise Villalobos

Dear Metro Board Members,

I am a resident of Mar Vista. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As a cyclist, I have enjoyed the open streets events for years and look forward to more chances to hang out with other Angelenos for casual and festive Sundays of calmly pedaling around quiet streets.

I understand that the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Scott G.G. Haller

Dear Metro Board Members,

My name is Lynn Easley, a resident of Mid-City. I am requesting you to pull Agenda Item #13 from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Cyclavia is one of the gems of this city! My family and I try and ride in every route. My sister and I enjoyed last Sunday's WEHO/EAHO route. It is such a wonderful way to see our city.

Please direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk.

Please fund open street events through 2027 and into 2028—don't delay the decision.

Please make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.

Please protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Metro plays an important role in trying to make our enormous and vast city feel like a bunch of neighborhoods! Don't hurt Cyclavia's years-long role in contributing to one of the good things our city has to offer its citizens.

Thank you,

Lynn Easley

Dear Metro Board Members,

My name is Brittney Cullen a resident of Palms/Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

[redacted]

Dear Metro Board Members,

My name is Chelise Gonzales, a resident of the San Fernando Valley, and I am asking you to please pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028, and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. Additionally, it is so very important to keep opportunities for community engagement, exercise, and sunshine available in this increasingly solitary digital world.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to please:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk;
- Fund open street events through 2027 and into 2028— please don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent. Thank you kindly for your consideration.

Sincerely,
Chelise Gonzales

Dear Metro Board Members,

My name is Joan, a resident in LA county. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

I first discovered Ciclavia on a random trip to Little Tokyo, but I never attended an event until the end of last year, when I decided to take the Metrolink to their "Heart of LA" that bridged Chinatown, Downtown, Boyle Heights and Little Tokyo. I had so much joy seeing how people were interacting with each other, how the outside of the Grand Central Market was filled with bikes instead of parked cars and traffic, and how everyone was just milling around on foot at their various hubs and I felt so connected to the community even though I had gone by myself. I've subscribed and attended their other events since then and I'm not looking to stop.

I believe that we need these kinds of events now more than ever, with the kind of government and issues that we as a community face. They bring hope and allow us to have a glimpse at a future that's full of pedestrians and not traffic stretched from the end of the street to the freeway. We can see each other face to face under the sun and not behind the windshield of a car, full of annoyance because of traffic problems. We can connect as people.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Dear Metro Board,

My name is Hannah Ceselski, and I'm a resident in the Palms neighborhood in Katy Yaroslavsky's district. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the item would leave open streets programs like CicLAvia unfunded for another year and a half until after the Olympics. I'm not sure if any of the Metro board members have first-hand experience with CicLAvia; but if you attended you would see the unity between community members and the way local businesses thrive during open streets. I've personally discovered some of my favorite new (and old) restaurants during CicLAvia. I've spent time in public parks that I never would have seen, and I've made connections with local organizations and politicians, like Hugo Soto-Martinez and Nithya Raman. Free and open streets programs are a beautiful equalizer for Los Angeles, and an amazing way to improve the health and wellbeing of your citizens.

As the city readies itself for the Olympics, I expect that our elected officials on the Metro Board will prioritize the needs and opportunities of tax-paying citizens of Los Angeles. You are elected to represent the needs of Angelinos, not the needs of the Olympics.

I'm asking the Board to:

1. Direct staff to find a creative funding solution to keep open street events running NOW. Do not shut down the conversation until after the Olympics. A 2-year gap before revisiting funding a popular program for Angelinos is unacceptable.
2. **Fund open streets through 2027 and 2028.**
3. Make open streets a permanent program. It is possible in other countries, it is possible here.
4. Protect the multi-neighborhood, 4+ mile format that has made open streets successful and accessible in the city.

Please pull this item from consent.

Thank you for your consideration,

--

These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Leigh Hoffman Erlandson

to BoardClerk

Dear Metro Board Members,

My name is Matthew Alcantara, a resident of Northridge. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to
Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.
Please pull this item from consent.

Thank you for your consideration,
Matthew Alcantara

My name is Paul Singh and I live in Los Angeles.

I'm asking you to **pull Agenda Item #13 (File 2026-0432) off the consent agenda** so it actually gets discussed.

The staff report **leaves open street events unfunded through 2027 and into early 2028**, and pushes any decision on a permanent program until after the 2028 Olympics — a two-year-plus gap before this even comes back up.

That puts programs like **CicLAvia** and **ActiveSGV's 626 Golden Streets/Active Streets at risk**.

Metro built this movement over the last decade. Walking it back now, right as the region prepares to host the Olympics, undercuts Metro's own ridership and multi-modal goals.

I'm asking the Board to:

- Direct staff to **find a funding solution that keeps open street events running now**, instead of tabling the whole conversation until after the Olympics. **A two-plus-year gap is unacceptable, any gap is unacceptable.**
- **Fund these events through 2027 and into 2028** — don't delay.
- Make open street events a **permanent, dedicated program**, not a grant line fighting for survival every cycle.
- Protect the multi-neighborhood, 4+ mile format that's made these events work.

Please pull this item from consent.

Thanks for your consideration.

Dear Metro,

I live in Santa Barbara and have attended approximately 13 CicLAvias. It is one of the main reasons I visit LA. I have attended your CicLAvias for my birthday several years in a row. When I visit, I often will spend one or two nights in LA, will eat breakfast, lunch and dinner out. I buy gas and I often do other shopping that does not exist in Santa Barbara. Put simply I adore these events. They get me out on my bike, they give me a reason to explore parts of LA that I would never have explored otherwise. They bring joy to so many people, increase physical activity, get people outside interacting in a diverse neutral street environment bridging cultural and economic gaps.

I have been in transportation planning professionally for 30 years. I understand the tough transportation allocations you have to navigate. But I can assure you that your investment in these events have changed people's lives in a way that simple infrastructure projects cannot do. Ultimately your job is to ensure a vital, safe and efficient transportation system that improves the quality of life of your citizens and those visiting and spending money in your city. CicLAvia achieves these goals.

Please continue the vital funding for these events. If you do not, I will have no reason to come to LA and it will break my heart.

Sincerely,

Kent Epperson

Dear Metro Board Members,

My name is **Bunmi Ademjyhiwa** a resident of **Los Angeles**. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Bunmi Ademuyiwa

Hello Metro Board Members,

I'm Angelo Mike, a resident in South Robertson in LA[redacted]. Having attended dozens of Ciclavias, they've changed how I see LA and the possibilities for a healthy, happy, joyous city with safe streets. I've biked them, walked them, and roller bladed them. I've gone from driving cars exclusively to get around to being car free and in 2021 and attending nearly every Ciclavia.

That's why I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. Dear Metro Board Members,

My name is Maddy, a resident of Palms. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Metro built this movement over the last decade. I've ridden the Metro specifically to attend these events. Participating in the Palms/Culver City CicLavia was such a highlight of my Los Angeles experience, and I even rented the Metro city bikes for the entire duration of this amazing event! I hadn't used a Metro bike before, and since I don't own a bike, this event convinced me to try one for the first time.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Dear Metro Board Members,

My name is Robert Wilson, a resident of Eagle Rock in Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration.

- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

PLEASE pull this item from consent.

CicLAvia, Active Streets, and other open streets events are very important to many thousands of Angelenos from all over the city and County. It is of great benefit to our collective quality of life as Los Angeles residents and taxpayers, including socially, health-wise, emotionally, and environmentally as it would continue to helps promote greater adoption of car-free transportation. These factors all make sustained funding worth preserving.

Thank you for your consideration,

Debra Mayes

Dear Metro Board Members,

My name is Patricia Fernandez, a resident of Canoga Park. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Thank you for your consideration,

Patricia Fernandez

CicLAvia and 626 Golden Streets are AMAZING community events. They are better at bringing the community together, and encouraging people to explore new neighborhoods than any other events I've seen. We MUST continue to fund them. Please find a way to secure the funding for this year and beyond. Do NOT hold the money hostage for the Olympics - that event should be funding itself.

Dear Metro Board Members,

My name is **Sandra Weisman,** a resident of **Santa Monica**. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Sandra Weisman

Dear Metro Board Members,

I am writing as a local resident to ask you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

My entire family and I love open street events like CicLAvia. Having experienced similar initiatives like the weekly Sunday events in Mexico City and Bogotá, Colombia, we know firsthand how transformative it is to close streets so people can safely walk, bike, and enjoy their communities together.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics. This puts open street organizations like CicLAvia and programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events bring safe walking, biking, and transit access to neighborhoods that otherwise see little active transportation investment.

Metro spent over a decade building this movement into a proven regional model. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the 2028 Olympics.

I am asking the Board to:
• Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable.
• Fund open street events through 2027 and into 2028—don't delay the decision.
• Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
• Protect the multi-neighborhood, 4+ mile format that makes these events so impactful.

Please pull this item from consent.

Thank you for your consideration.

-Jaider

Subject: (EXTERNAL) AGAINST Agenda Item #13, File 2026-0432 — Open and Slow Streets Grant Program Update - Please Pull from Consent Agenda
Date: Tuesday, July 21, 2026 4:42:11 PM

CAUTION: This email originated from outside of the organization. Help Metro protect against cyber threats. Verify the sender's email address carefully. Do not click links or attachments unless you trust the sender. Be aware of phishing signs such as urgent requests, unexpected links, or offers that seem too good to be true. Be cautious of spoofed emails that appear to come from trusted sources. Report suspicious emails. Follow Metro policies and update accounts only through official channels.

My name is Jorge Sergio Reynoso, a resident of Los Angeles . I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
--

Jorge Reynoso

Dear Metro Board Members,

My name is Madeline Jackson, a resident of Pasadena and a Metro A Line rider. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. As an avid outdoorswoman and cyclist, I consider these events an essential part of city life, and an indispensable opportunity to connect with my neighbors and wider community.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. Don't sacrifice established, beloved city programs for the short-term gain of Olympic tourism. The metro board needs to look beyond what is directly in front of them and support sustainable programs that benefit the community long term.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street

events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Madeline Jackson

Dear Metro Board Members,

My name is **Lindsay Kerby**, a resident of the City of Los Angeles [redacted] I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Lindsay Kerby, [redacted]

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration

Megan T.

Subject: AGAINST Agenda Item #13, File 2026-0432 — Open and Slow Streets Grant Program Update - Please Pull from Consent Agenda

Dear Metro Board Members,

My name is Herb Meyerowitz, a resident of Burbank. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Herb Meyerowitz

Dear Metro Board Members,

My name is Grace Wheelan, a resident of Koreatown here in LA. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

CicLAvia is one of the most positive events in Los Angeles and provide an opportunity for community engagement and to safely bicycle or rollerblade, with the ability to help incentivize public transportation and engagement.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- **Make open street events a permanent, dedicated program**, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Grace Wheelan

Dear Metro Board Members,

My name is Nick Taylor, and I am writing to you today as a concerned resident regarding Agenda Item #13 (File 2026-0432). Please pull this item from the consent agenda to allow for the full discussion it deserves.

Open street events have been a cornerstone of this region's commitment to healthy, accessible, and connected communities over the last decade. By failing to secure funding through 2027, Metro risks undermining its own ridership and multi-modal goals—especially as we prepare to host the world for the Olympics.

These events are not just fun days out; they are vital pieces of social infrastructure that bring safe biking and walking access to communities often overlooked. Please prioritize a creative funding solution now rather than pushing the future of these programs down the road.

Thank you for protecting these essential programs.

Sincerely,

Nick Taylor

Dear Metro Board Members,

My name is Jimmy, a resident of South Central Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk

Fund open street events through 2027 and into 2028—don't delay the decision.

Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.

Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Jimmy

Dear Metro Board Members,

My name is Emma Loos, a resident of West Hollywood. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

I participated in CicLAvia this past weekend (7/18), and it is an amazing open streets program that brings Angelenos together and allows us to engage with other neighborhoods and local retailers.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics. Reducing funding for programs like this are detrimental to Metro's mission to get Angelenos out of their personal vehicles.

I’m asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Emma Loos

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Paul Sowell

Dear Metro Board Members,

I am writing as a local resident to ask you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

My entire family and I love open street events like CicLAvia. Having experienced similar initiatives like the weekly Sunday events in Mexico City and Bogotá, Colombia, we know firsthand how transformative it is to close streets so people can safely walk, bike, and enjoy their communities together.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics. This puts open street organizations like CicLAvia and programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events bring safe walking, biking, and transit access to neighborhoods that otherwise see little active transportation investment.

Metro spent over a decade building this movement into a proven regional model. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the 2028 Olympics.

I am asking the Board to:
• Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable.
• Fund open street events through 2027 and into 2028—don't delay the decision.
• Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
• Protect the multi-neighborhood, 4+ mile format that makes these events so impactful.

Please pull this item from consent.

Thank you for your consideration.

-Carmen

Dear Metro Board Members,

My name is Micah Stuart, a resident of Los Feliz. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,
Micah Stuart

My name is Professor Aaron Salinger, a resident of Pasadena. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent agenda for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line

competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Aaron Salinger

My name is Leila Ford, a resident of Chino, Ca. I am also a Ca & Inland Empire native.

I recently was able to attend my 1st Ciclavia in the Crenshaw District & it was AMAZING!!! I got to the event abt 830a & did not leave until 3p. I used visit this area more often but construction, business closures & lack of parking do keep me away. I was pleasantly surprised at how friendly everyone was! I chatted a few people up about their bikes as I am in the market for a new bike. I

discovered a Jamaican market that I had never seen before & purchased several items. I also visited Nappily Naturals since I was in the area & got a consult & purchased some items. I made several other purchases at both brick & mortar & vendor booths. I even took a ride on the subway & was again pleasantly surprised at how clean the station & the train was. I would have never been able to do most of these things without the Ciclavia event. This event brings people from other parts of so cal & gives you a chance to bike/walk in areas that most of us drive by going from point A to point B & often times do not even see these businesses. This event allows us to pause & truly be a part of our community & get some exercise, something that gets more difficult in current times.

I’m asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Puts open street organizations like CicLAvia and open streets programs like ActiveSGV’s 626 Golden

Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration, Leila Ford

Dear Metro Board Members,

My name is Sarah Prikryl, a resident of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. It's one of my absolute favorite events in LA, it builds community and health, as well as brings joy and connection not only to residents but for businesses and fosters Los Angeles pride and love for all parts of this city. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Catherine Shanks, a resident of the Winnetka neighborhood. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

I participated in Ciclavia this past Sunday in Hollywood. I remember thinking, 'This is so awesome to have the streets open for a Sunday for people to ride, walk, roll, etc., all together. I'm so glad that Los Angeles does this! It is one of the best things the city does! Now I find out that you are about to unfund such street events? This move will make these great community events not viable - and that would be a horrible move for the city!

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

It puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Dear Metro Board Members,

My name is Maria Gonzalez , a resident of Los Angeles, in Pico Union. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Maria Gonzalez

Dear Metro Board Members,

My name is Kristin Miller; I'm a resident of Los Angeles, a Metro rider and cyclist, and a regular attendee at Ciclavia and other open-streets events. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics. This puts open-street organizations and programs like CicLAvia and ActiveSGV's 626 Golden Streets/Active Streets at real risk.

Metro built this movement over the last decade; removing funding now makes no sense since it undermines Metro's own ridership and multi-modal goals ahead of the 2028 Olympics. There is no way the city can achieve a transit-first Olympics without regular opportunities for much of L.A. to experience the city without cars. Every open-streets event creates more regular Metro rail and bus riders, more cyclists, more pedestrians. They are major events for neighborhood community building and contribute significantly to the well-being of Angelenos, as well as doing tremendous work for the image of the city across the U.S. and the world as images of L.A. streets free of cars circulate on social media and human-interest news.

The proposed item is unbelievably poorly timed, unconsidered, and counterproductive.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Kristin Miller

Dear Metro Board Members,

My name is Whitney LaValle, a resident of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.
As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.
Puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.
Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.
I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.
Thank you for your consideration,
Whitney LaValle

Dear Metro Board Members,

My name is Evan Swerdfeger, a resident of Hollywood. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

This puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

CicLAvia and other open street programs bring people from all over LA together to meet their community and enjoy all the different neighborhoods, businesses, and streets that make our City special. And this all happens in a way that helps people see active transit and Metro as something that might be a positive part of their daily lives — funding this work should be a no-brainer.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I’m asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program’s survival at risk
- Fund open street events through 2027 and into 2028—don’t delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Dear Metro Board Members,

My name is Atef, I live on the westside of LA, and I'm a strong supporter of open streets events as a way for Angelenos to build community with each other. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics - this would have extreme negative impact on the progress LA is making towards becoming more accessible through non-car mediums.

This measure puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure. They also are incredibly beneficial for the local businesses and communities - I have heard countless stories of people that have discovered their new favorite neighborhoods, restaurants, and businesses through happening upon them during open streets events.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
Fund open street events through 2027 and into 2028—don't delay the decision.
Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

I attend nearly every one of these events with my family and friends and look forward to them as an opportunity to get to know my city and my community. Quite honestly, hese events are one of the greatest things we have going in this city and **CicLAvia days are the days where I feel the most proud of being an Angelino - losing these days would be a huge loss for our city. Don't mess this up.**

Thank you,

Lance

Dear Metro Board Members,

My name is Alberto Herrera, a resident of Los Angeles. I'm asking you to pull Agenda Item #13 (File 2026-0432) from the consent calendar for full discussion.

As written, the staff report leaves large-scale open street events unfunded through 2027 and the first half of 2028 and punts any permanent program decision until after the 2028 Olympics.

Puts open street organizations like CicLAvia and open streets programs like ActiveSGV's 626 Golden Streets/Active Streets at real risk. These events matter far beyond the region's biggest cities. Smaller cities use them to bring safe walking, biking, and transit access to neighborhoods that otherwise see little investment in active transportation infrastructure.

Metro built this movement over the last decade. Walking it back now undercuts Metro's own ridership and multi-modal goals, right as the region prepares to host the world for the Olympics.

I'm asking the Board to:

- Direct staff to find a creative funding solution to keep open street events running now, rather than shutting down the conversation until after the Olympics. A gap of more than two years before this is even revisited is unacceptable and puts the program's survival at risk
- Fund open street events through 2027 and into 2028—don't delay the decision.
- Make open street events a permanent, dedicated program, not a grant line competing for survival each cycle.
- Protect the multi-neighborhood, 4+ mile format that has made open street events successful in the region.

Please pull this item from consent.

Thank you for your consideration,

Alberto Herrera
